**Sub: Six Monthly Report of Shongtong-Karchham Hydroelectric Project (402MW) in village Powari, District-Kinnaur (H.P.) being executed by H.P Power Corporation Ltd.- Environment Clearance & FC Condition regarding.**

Sir,

In reference to above cited subject matter please find enclosed herewith six monthly report of Shongtong-Karchham HEP being executed by Himachal Pradesh Power Corporation Ltd. (HPPCL) as under:

S. No.	Conditions	Compliance Status
1	Names and address of the Project-In charge along with their telephone, FAX, mobile and Email address.	Er. Khem SinghThakur General Manager (HoP) Shongtong-Karchham HEP (402MW), HPPCL, Reckong Peo, Distt. Kinnaur (H.P.)- 172107. Office Ph.- 01786-223310, Fax-01786-223174 Mob. No. – 9418074930 Email:-gmstkhep@gmail.com
2	Current Status of construction of project and likely date of commissioning.	Project is under construction. Estimated Date of commissioning: 30.06.2026.
3	Exact Location of the project site including district etc.	Barrage at Powari with Power house at Ralli, near District Headquarters of Kinnaur (H.P.)

Phone: 01786-223310, Fax :01786-223174, Email- skhep.hppcl@gmail.com

		at Reckong-Pe.
4	Current status of point wise compliance of the stipulated environmental conditions/safeguards.	Point wise compliance of the stipulated environmental conditions/safeguards is attached as <b>Annexure - I</b>
5	The area of forest land to be diverted for passage or other purpose in your project and forest status approval from Ministry of Environment & Forests as per Forest (Conservation) Act, 1980.	Forest land diverted – 63.5015 Hectares.  Forest clearance given by MoEF on 14 <sup>th</sup> Nov. 2012, vide F.No. 8-78/2010 FC.  Addl. case for diversion of 7.3722 ha. is in advanced stage and In Principal/ Stage –I Clearance was accorded by MoEF&CC on the recommendation of FAC on 19.03.2024 Copy attached As Annex-II
6	Action Taken or proposed to be taken to release minimum environmental flow of water in the river during lean season.	As per HP Hydro Power Policy 2007 minimum of 15% of Environmental Flow has to be maintained at all time downstream of the barrage. But during Environmental Clearance of the project the EAC (RVP), MoEF had added a condition to have an Environmental Flow Assessment done by a reputed institute. The Environmental Flow Assessment study based on hydraulic rating and habitat simulation method has been prepared by National Institute

(ii) The details of the land holding of project affected persons whose land is being acquired shall be submitted to this Ministry. The benefits for the land losing households will be as per the National Rehabilitation and Resettlement Policy, 2007 (NRRP, 2007) or as per the State Rehabilitation and Resettlement Policy, whichever is higher. Adequate publicity for the compensation package shall be given in the affected villagers. All R&R Issues shall be completed before commissioning of the Project.	The benefits to the land losers have been given as per Rehabilitation and Resettlement of HPPCL duly approved and notified by Govt. of Himachal Pradesh. The details of benefits have been submitted to your office vide this office letter no. HPPCL/SM(R&R)/EC-Vol-I/2012-5543, dated 18/03/2013.					

[Type text]

<p>(iii) All commitments made during the public hearing shall be fulfilled completely.</p>	<p>Project proponent is abiding with the commitments made during the public hearing and status of the compliance to public hearing is being reported separately in the report as <b>Annexur-IV</b>.</p>
<p>(iv) A scientific study from a reputed institute for deciding the minimum environmental flow to be released during the lean season should be undertaken. Till the study is completed, 20 % of the average flow of four consecutive leanest months of 90% dependable year shall be maintained as environmental flow. After the study is completed, whichever is higher figure shall be adopted.</p>	<p>The project proponent has complied with this condition. The environmental flow assessment study has been conducted by NIH Roorkee. The EAC in its meeting held on 10<sup>th</sup> and 11<sup>th</sup> December, 2013 desired to have presentation on Environment flow study. The presentation was given by project proponent before the EAC on 16 October, 2014. The EAC observe that Environment flow study was carried out in accordance with the Flow duration curve method. While this is generally in order but for further clarity the same should be carried out through Hydraulic rating and Habitat Simulation method. The technique shall factor the need of aquatic faunal population. Also the adequacy of environmental flow in terms of depth, velocity and top width needs to be checked and proposed a fresh. Accordingly the environment flow study has been revised as desired by EAC and submitted to MoEF&amp;CC for approval same will be complied by the Project Proponent.</p>
<p>(v) The equipment likely to generate high noise level during the construction period or otherwise shall meet the ambient noise standards as notified under the Noise Pollution (Regulation and Control) Rules, 2000, as amended in 2010 under Environment Protection Act. (EPA), 1986.</p>	<p>The equipment likely to generate high noise level during the construction period in the project area meet the ambient noise standards as notified under the Noise Pollution (Regulation and Control) Rules, 2000, as amended in 2010. In compliance to this condition acoustic enclosures on all DG sets have been provided by the main contractor i.e. M/s Patel Eng. Ltd.</p>

<p>(vi) Consolidation and compilation of the muck shall be carried-out only in the designated muck dumping sites, approved by the State Pollution Control Board. As per the proposed muck disposal plan given in your EIA/EMP, about 3.57Mm<sup>3</sup> Will be generated out of which 0.47 Mm<sup>3</sup> will be reutilized for back filling and 1.05 Mm<sup>3</sup> as construction material/protection works and remaining 2.04 Mm<sup>3</sup> shall be disposed off at 8 designated disposal areas. This shall be strictly implemented. The dumping sites shall be at least 30m horizontally away from the high flood level of the river.</p>	<p>The project proponent is committed to comply this condition. However, the reduction in the capacity of dumping sites has occurred due to geographic changes occurred in the course of river by the passage of time, muck dumping of excavated material during widening of NH -5 &amp; PWD roads by BRO and PWD respectively and removal of landslides material occurred in the vicinity and dumping in the designated dumping sites from time to time due to which the capacity of dumping site has decreased. to address the issues a committee comprising of HPPCL Officers and M/s PEL Executives as enlisted below was constituted by the GM-STKHEP vide loose note dated 29 Oct., 2016 to re-assess the capacity of all the designated dumping sites handed over to M/s PEL and to explore the possibility for their optimum utilization. To mitigate the muck dumping problem, efforts are being made to identify additional areas for dumping within the project area as well as beyond the project area. in this process, some prospective land belonging to the Army Authorities was identified for muck dumping within project area. in addition to this some private land is being utilized in Ribba/Skibba/ Akpa and Spillow village upstream of the project area Pvt. land is being utilized only after the request from the land owner for the development of theirs degraded land. After intimation to Forest department and HP State Pollution Control Board.</p>
<p>(vii) The proposed Compensatory Afforestation Programme on 128 ha. Of land with identified plant species @ 1500 plants per hectare shall be taken-up immediately. The allocated funds for this purpose shall not be diverted to any other purposed.</p>	<p>The HPPCL has deposited the requisite cost towards CA with Department of Forest, Govt. of HP amounting to Rs. 1, 74, 65,952/- (One crore seventy-four lakhs sixty-five thousand nine hundred and fifty two) only vide DD No. 630072 dated 02.04.2011 (worth Rs. 7, 44, 26,798/- including amount for NPV) drawn on Reckong Peo branch of State Bank of India vide their letter No. HPPCL/GM-STKHEP/Forest/ 2010-24-27, dated 02.04.2011 as per the bill issued by DFO Kinnaur vide letter No 9216 dated 30.03.2011. Progress report CA i.r.o</p>

	Shontong Karcham HEP over 128 ha. under Compensatory Afforestation has been attached as <b>Annexure-VIII</b> .
(viii) Greenbelt development in 40 ha of land along the approach roads, residential areas, office complex, barrage site and other working areas with various native plant species shall be undertaken immediately. The allocated budget of Rs. 40 lakhs for this purpose shall not be diverted to any other purpose.	The Greenbelt development will be taken up in consultation with HP Forest Department shortly after the completion of civil work.
(ix) The revised Fisheries Management Plan submitted vide letter NO. HPPCL/ESMU-2/Shongtong/09-1658-61 dated 9 <sup>th</sup> February, 2010 shall be undertaken in consultation with the Fisheries Department, Government of Himachal Pradesh. Breeding and hatching of indigenous fish i.e. Snow Trout will be carried out separately. The same shall also be followed in the proposed hatchery at Sangla with separate bays.	The 1st Installment of Rs. 35.00 Lakh was released on dated 29/03/2013. Director-cum-warden of fisheries has submitted the Utilization Certificate (UC) of amount Rs. 3.75 lakh on dated 19/08/2016 used for providing solar LED lights at Trout fish farm at Sangla and replacement of sluice valves at Trout fish farm at Sangla. The balance amount Rs. 31.25 lakh is unutilized. 2 <sup>nd</sup> Installment will be released after Utilization Certificate of balance amount is received from Fisheries Deptt. This is still awaited from Director of Fisheries Govt. of HP.PP has requested the Director fisheries for the same so that next installment could be released.
(x) The proposed Wildlife Management & Development and Conservation of Biodiversity Plans at a cost of Rs. 764.50 lakhs shall be taken-up strictly as outlined in the EIA/EMP Report and implemented in consultation with the State Forest Department without any diversion of funds. A report of implementation shall be included in the sixth monthly compliance report to be submitted to the Ministry.	The condition has been compiled by the project proponent. Biodiversity conservation plan includes Compensatory Afforestation (CA), NPV and cost of trees for which HPPCL has already deposited the requisite amount with H.P forest Department/CAMPA. The cost on account of wildlife Management (Chapter-7) has been included under revised CAT Plan of STKHEP and approved by the H.P forest Department. Rs.(60.44+9.7557)=70.16 crore toward cost of implementation of CAT plan has already been released to H.P forest Department/CAMPA. During this period the progress report of same has not been received by this office from DFO wildlife.
(xi) About 1.5% of the total project cost shall be spent for the Local Area Development.	The condition is being compiled by the project proponent. Till date Rs. 27.56 Crore has been deposited as LADF out of which 14.55 lakh were spent on various heads of

[Type text]

	development activities in project affected Panchayat's and being regularly monitored at local area Development Committee During its various meeting .
(xii) Any other clearance from any other organization/department, if required shall be obtained.	Renewal of Consent to Establish is required to obtain from H.P State Pollution control Board. However, as per latest notification of No. B-29012/ESS/CPA/2016-17/2570 dated 02/02/2017 issued by Member Secretary, Central Pollution Control Board, MoEF&CC, Govt. of India, addressed to the Member Secretary of all State Pollution Control Boards vide which under para (iv) of the aforementioned letter it is stated that <b>“Further, all the projects requiring Environmental Clearance either from State Level EIA Authority or MoEFCC may be exempted from obtaining the consent to establish. Such projects may be directly granted CTO subjected to EC and installation of pollution control devices.”</b> Renewal of the same is being regularly applied by the project proponent by depositing the requisite renewal fee of the same every year.
<b>Part-B General Conditions</b>	
(i) Adequate arrangement for providing free fuel like kerosene/wood /LPG shall be made for the labourers engaged in the construction work so that indiscriminate felling of trees is prevented.	The condition is being complied with. From Oct.2023 to March 2024,, 394 nos. LPG cylinders have been provided during The reporting period.
(ii) Medical facilities as well as recreational facilities shall also be provided to the labours.	Two nos. First Aid post has been made functional at Site office Ralli and Barrage location. Contractor has provided Medicine of Rs. (88,350 spent Rs. 6,81,092/-on salary of medical attendant and Rs. -9,60,000/- spent on maintenance of Ambulance. Rs. 5,45,194 /has been spent on salary of ambulance driver. Total No. Medical attendant provided = 04 Total No. of ambulance = 04

[Type text]

<p>(iii) Labourers to be engaged for construction work shall be thoroughly examined by health personnel and adequately treated before issuing them work permit.</p>	<p>Prior to enrollment in the execution activities all the labourers are thoroughly checked up. After ensuring the complete fitness, the labourers are being engaged.</p>
<p>(iv) No fugitive dust emissions should be observed at the construction sites. Water sprinkling arrangements shall be made to suppress the fugitive emissions.</p>	<p>The condition is being compiled by the contractor. The DG sets have been provided with acoustic enclosures and proper stack height regular maintenance of DG sets are being carried out. On account of this an expenditure of Rs.420,000/- were occurred during this reporting period . The water tanker has been deployed in the project area to sprinkle the water in the project area to suppress the dust emission due to movement of vehicles</p>

**Dated: March, 2024**

To

**The Principal Secretary (Forests),**  
Department of Environment and Forests,  
Government of Himachal Pradesh,  
Shimla.

**Subject: Proposal for seeking prior approval of the Central Government under Section 2 (1) (ii) of the Van (Sanrakshan Evam Samvardhan) Adhiniyam, 1980 in favour of Shongtong Karchham Hydro Electric Project, HPPCL under the jurisdiction of Kinnaur Forest Division, Distt. Kinnaur, Himachal Pradesh, for non-forestry use of 7.3722 ha. of forest land as additional forest land requirement in already approved diversion, in the State of Himachal Pradesh (Online Proposal No. FP/HP/HYD/40611/2019).**

Sir/Madam,

I am directed to refer to online proposal No. FP/HP/HYD/40611/2019 uploaded on portal on 21.02.2023 by Government of Himachal Pradesh on the above mentioned subject, seeking prior approval of Central Government under Section 2 (1) (ii) of the Van (Sanrakshan Evam Samvardhan) Adhiniyam, 1980, and to say that the said proposal has been examined by the Advisory Committee (AC) constituted by the Central Government under Section-3 of the aforesaid Act.

2. After careful consideration of the proposal of the Government of Himachal Pradesh and on the basis of the recommendations of the Advisory Committee (AC), the Central Government hereby agrees to accord **Stage-I / In-principle** approval Section 2 (1) (ii) of the Van (Sanrakshan Evam Samvardhan) Adhiniyam, 1980 for non-forestry use of 7.3722 ha. of forest land as additional forest land requirement in already approved diversion, in the State of Himachal Pradesh, subject to the following conditions:-

- i. Legal status of the diverted forest land shall remain unchanged;
- ii. The cost of felling of trees shall be deposited by the User Agency with the State Forest Department;
- iii. The penalty for violation shall be equal to five (5) times the NPV for the violated land area plus 12 percent simple interest from the date of raising of such demand till the deposit is made;
- iv. Compensatory afforestation over degraded forest land, double in extent to the forest land being diverted, shall be raised by the State Forest Department at the project cost within three years from the date of grant of Stage - II approval;
- v. Additional/penal CA on degraded forest land equal to the area being

- diverted (7.3722 ha.) shall also be carried out at the cost of User Agency; shall be raised by the State Forest Department at the project cost within three years from the date of grant of Stage - II approval;
- vi. The cost of compensatory afforestation at the prevailing wage rates as per compensatory afforestation scheme and the cost of survey, demarcation and erection of permanent pillars, if required on the CA land, shall be deposited in advance with the Forest Department by the user agency. The CA will be maintained for 10 years. The scheme may include afforestation of indigenous species with appropriate provision for anticipated cost increase for works scheduled for subsequent years, into the account of National Authority, CAMPA managed by the State Govt.;
  - vii. The land identified for the purpose of CA shall be clearly depicted on a Survey of India topo sheet of 1:50,000 scale;
  - viii. The KML files of diverted area and the CA areas shall be uploaded on the e-Green watch portal with all requisite details prior to Stage II approval;
  - ix. The User Agency shall transfer the funds towards the cost of Net Present Value (NPV) of the forest land being diverted under this proposal from the User Agency in accordance with the MoEF&CC's guidelines dated 6.01.2022 read with guidelines dated 22.03.2022;
  - x. At the time of payment of the Net Present Value (NPV) at the present rate, the User Agency shall furnish an undertaking to pay the additional amount of NPV, if so determined, as per the final decision of the Hon'ble Supreme Court of India
  - xi. The Compensatory levies to be realized from the User Agency under the project shall be transferred/ deposited, through e-challan, in to the account of National Authority, CAMPA pertaining to the State concerned through e-portal (<https://parivesh.nic.in/>);
  - xii. The State Government shall complete settlement of rights, in term of the Scheduled Tribes and Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006, if any, on the forest land to be diverted as per the sub-rule (7) of Rule 11 of the Van (Sanrakshan Evam Samvardhan) Rules, 2023;
  - xiii. The complete compliance report shall be uploaded on e-portal (<https://parivesh.nic.in/>);
  - xiv. The cost of felling of trees shall be deposited by the User Agency with the State Forest Department;
  - xv. The user agency shall explore the possibility of translocation of maximum number of trees identified to be felled and shall ensure that any tree felling shall be done only when it is unavoidable and that too under strict supervision of the State Forest Department;
  - xvi. The User Agency shall obtain the Environment Clearance as per the provisions of the Environmental (Protection) Act, 1986, if required;
  - xvii. User agency shall undertake afforestation along the periphery of the reservoir;
  - xviii. User agency shall provide free water for forestry related activities/ projects;
  - xix. No labour camp shall be established on the forest land and the User

- Agency shall provide fuels preferably alternate fuels to the labourers and the staff working at the site so as to avoid any damage and pressure on the nearby forest areas;
- xx. No additional or new path will be constructed inside the forest area for transportation of construction materials for execution of the project work;
  - xxi. The boundary of the diverted forest land shall be demarcated on ground at the project cost, by erecting four feet high reinforced cement concrete pillars, each inscribed with its serial number, distance from pillar to pillar and GPS coordinates;
  - xxii. The period of diversion under this approval shall be co-terminus with the period of lease to be granted in favour of the user agency or the project life, whichever is less;
  - xxiii. The layout plan of the proposal shall not be changed without the prior approval of the Central Government;
  - xxiv. The forest land shall not be used for any purpose other than that specified in the project proposal;
  - xxv. The forest land proposed to be diverted shall under no circumstances be transferred to any other agency, department or person without prior approval of the Central Government;
  - xxvi. No damage to the flora and fauna of the adjoining area shall be caused;
  - xxvii. The User Agency shall submit the annual self-compliance report in respect of the above stated conditions to the State Government, concerned Regional Office and to this Ministry by the end of March every year regularly;
  - xxviii. Any other condition that the Ministry of Environment, Forests & Climate Change may stipulate from time to time in the interest of conservation, protection and development of forests & wildlife shall be carried with by the State Government and user agency;
  - xxix. The user agency shall comply all the provisions of the all Acts, Rules, Regulations, Guidelines, Hon'ble Court Order (s) and NGT Order (s) pertaining to this project, if any, for the time being in force, as applicable to the project.
  - xxx. Violation of any of these conditions will amount to violation of Van (Sanrakshan Evam Samvardhan) Adhinyam, 1980 and action would be taken as prescribed in para 1.16 of Chapter 1 of the Handbook of comprehensive guidelines of Van (Sanrakshan Evam Samvardhan) Adhinyam, 1980 as issued by this Ministry's letter No. 5-2/2017-FC dated 29.12.2023.

After receipt of compliance report on fulfilment of the conditions mentioned above, the proposal shall be considered for final approval under section 2 (1) (ii) of the Van (Sanrakshan Evam Samvardhan) Adhinyam, 1980. Transfer of forest land shall not be affected till final approval is granted by the Central Government in this regard.

Yours faithfully,

**Signed by Sundar

## Shongtong Karchham HEP (402 MW)

**FULFILMENT OF COMMITMENTS MADE IN PUBLIC HEARING-I&II:**

Detail of issues raised during Public Hearing on 28.07.2009 and 29.07.2009 for Shongtong-Karchham HEP (Powari-Ralli), organized by H. P. State Pollution Control Board at village Powari Tehsil Kalpa, Distt. Kinnaur H.P. respectively:-

Sr. No.	Issues Raised at Powari	Remarks on the issue raised	Activities done
1.	The representative of the public raised an objection that project affected families indicated in R&R plan (rehabilitation and resettlement ) is 158 whereas in the earlier R&R plan it was 438 and it was verbally assured by MD, HPPCL to include all 438 families in R&R plan. Therefore, till all the 438 families of Kalpa and Shudharang villages are not covered under project affected families the R&R plan should not be finalized.	This issue of R&R is under consideration of MD, HPPCL.	The families of Shudharang village have been covered under project affected families vide Deptt. of MPP & Power notification no. MPP(F)2-12/2008-II dated 29/08/2015. Similarly, families of Kalpa village have been covered under project affected families vide Deptt. of MPP & Power notification no. MPP(F)2-12/2008-II dated 19/08/2015.
2.	Cremation ground near dumping No. 3 should be protected.	Project Proponent has assured that the cremation ground shall be protected.	Project proponent assured that the cremation ground shall be protected.
3.	Confluence point of Tangling Nallah and Satluj river is a holy place which is used for local rituals. Local people have traditional rights and it should be protected and the Confluence point should be developed properly by the project proponent.	Project Proponent has assured that Confluence point of Tangling Nallah and Satluj shall be developed. A bridge on Tangling Nallah has been proposed.	The project proponent will construct a bridge on Tangling Nallah. in the mean time the existing bridge on Tangling Nallah has been strengthened.

## Shongtong Karchham HEP (402 MW)

4.	Local people have customary rights to collect forest produce such as herbs, medicine plants etc. will be damaged and will affect the income source, therefore all the people of Distt. Kinnaur should be included in project affected families.	All the customary rights related to the forest produce will be protected and every care will be taken so that there is no damage to the forest produce. In case some damage is observed the same shall be compensated by the Project Proponent.	The project proponent in accordance with R&R plan approved by Govt. of H.P has disbursed 500 days minimum wages to each project area family in lieu of loss of customary rights or usage of forest produce. till date Rs. 19.22 crore has been disbursed in PAF's of village Khawangi, Mebar, Barang, Powari Shudharang & Kalpa.
5.	Studies on the affect on downstream projects due to desilting has not been done in EIA/EMP.	Project Proponent agreed to conduct studies.	Sedimentation Chambers four in nos. has been provided for desilting, so no impact on Down Stream projects is envisaged.
6.	Impact on water sources and biodiversity due to blasting during construction have not been indicated in EIA/EMP.	Project Proponent agreed to conduct studies.	The Videography of the entire Project Affected Area has been done along with water resources inventory ( <b>submitted with previous compliance report</b> ). The project proponent will ensure that no damage to houses of the local people occurs. To monitor the ground vibration arise due to blasting in tunnels six Nos. seismographs has been installed in each Project affected Panchayat's and monthly monitoring report is being submitted to concerned Panchayat's, Member secretary, LADC and President,

## Shongtong Karchham HEP (402 MW)

			Zila Parishad.
7.	Design of the project is on the bases of ten years data and viability of the project is not properly designed.	Project proponent clarified that viability of the project has been properly designed.	Project proponent clarified that viability of the project has been properly designed.
8.	Alignment of the power project has been indicated in the EIA/EMP (Figure No. 1) on the right bank of river Satluj where as in figure No. 2 it is shown on the left bank of the river Satluj.	It will be corrected by project proponent.	It has been corrected by project proponent. This issue stand closed.
9.	In EIA/EMP para-7.5 page No. 7-18 it is mentioned that sand and aggregate has been collected by M/s JP Karchham Wangtoo Project from village Jangi and the same query will be used by HPPCL but as a matter of fact this quarry has never been used by M/s J.P. Karchham Wangtoo Project, which indicates the negligent attitude of agency preparing EIA and as such the data given in EIA is doubtful.	Sand and aggregate will be collected as per para-7.5 page no. 7-18 near village Jangi.	Sand and aggregate will be collected from quarry site at village Powari which is in submergence area of the project rather than village Jangi due to more economical and for this all the necessary approvals are being obtained.
10.	All the muck dumping sites indicated in the EIA/EMP is on the bank of river Satluj, which is in the flood zone area. In EIA/EMP design of dumping sites has not been shown. What will be the distance of dumping sites from HFL and what will be the angle of repose of muck has not been indicated.	Project Proponent clarified that Muck will be dumped in safe designated dumping sites away from HFL and with adequate safe engineering structure so that there is no seepage of muck into river.	Muck management Plan as approved by MoEF and HPSPCB is being implemented. The muck is being dumped in designated dumping sites and with adequate safe engineering structure so that there is no seepage of muck into river under the supervision of H.P forest deptt. and HPSPCB.. The Monthly muck statement is being submitted to HPSPCB every month.

## Shongtong Karchham HEP (402 MW)

11.	<p>Due to construction of tunnels in Kinnaur, the fragile areas are being damaged which can be protected by the use of Tunnel Boring Machine as being used in Parvati Hydel Power Project in Kullu District. There is no mention of TBM in EIA/EMP. It was suggested that TBM should be used for construction of tunnels in Distt. Kinnaur.</p>	<p>It was assured by project proponent that if technically, it is possible, TBM can be used.</p>	<p>As per the Geological strata around the project area and the alignment of the project using TBM is not possible. To monitor the blast vibrations arise due to blasting in tunnels six Nos. seismographs has been installed in each Project affected Panchayat's and monthly monitoring report is being submitted to concerned Panchayat's, Member secretary, LADC and President, Zila Parishad. The blast vibrations are under the permissible limits as no damage to house of local people has been observed.</p>
12.	<p>Distt. Kinnaur is in Seismic zone -4 and in the past Kinnaur has observed heavy earthquakes. Therefore, big projects should not come up in Kinnaur. In EIA/EMP seismic factor has not been taken in to consideration.</p>	<p>Seismically project has been designed.</p>	<p>During the designing the project, this aspect has been taken into consideration and project has been designed to bear the earthquakes.</p>
13.	<p>The existence of all the projects in river Satluj basin is in danger because of no international treaty with China on Satluj river. China has constructed many big projects on Satluj basin and is planning to divert Satluj water to Eastern Tibet which is likely to affect the projects in future. All these aspects has not been mentioned in EIA/EMP.</p>	<p>No comments.</p>	<p>Existence of dams in the river Satluj will have positive impact rather than negative impacts. it helps in control of flash floods or other natural calamities by regulating the devastating effect of flash flood and natural calamities.</p>

Shongtong Karchham HEP (402 MW)

14.	Alternative suggestions have been given in EIA/EMP. Suggestion No. 1 to construct Dam at Shongtong and to construct tunnel on the right bank of river Satluj is the best option but it has been rejected because of Army Camp near to the proposed Dam. In view of environmental impact and to save property of local people, the suggestion No. 1 may be looked upon.	On the basis of technical studies conducted it was decided to construct HRT on the left bank of river Satluj.	Technical, Economical and safety factor has been taken into consideration before deciding to construct HRT on the left bank of river Satluj. All necessary action to safeguard the environment and property of local people is being taken during the construction of the project.
15.	It is apprehended that the religious place, Kinner Kailash and Shivling will be damaged due to construction of Head Race Tunnel. In such an eventuality the religious sentiments of local people will be hurt and due to melting of glaciers on Kinner Kailash mountain flood situation can be observed. Whereas this aspect is not been addressed in EIA/EMP.	On the basis of studies conducted it was observed that Kinner-Kailash and Shivling are at sufficient height and there is to such threat to Kinner Kailash and Shivling.	To monitor the blast vibrations arise due to blasting in tunnels six Nos. seismographs has been installed in each Project affected Panchayat's and monthly monitoring report is being submitted to concerned Panchayat's, Member secretary, LADC and President, Zila Parishad. The blast vibrations are under the permissible limits as no damage to house of local people has been observed and the Kinner-Kailash and Shivling are at sufficient height and far from project. There is to such threat to Kinner Kailash and Shivling.  The same has been submitted to MoEF&CC while obtaining Environmental Clearance of the project.

## Shongtong Karchham HEP (402 MW)

16.	In view of the fact that number of big projects are coming up in Satluj basin and in the year 1988, 1993,1997, 2000 and 2005 devastating floods were observed in river Satluj, therefore study on cumulative impact is required and Disaster management plan should be prepared.	Project Proponent informed that disaster management plan shall be prepared.	Dam Break Analysis and Disaster Management plan has been prepared and in place. (submitted with previous compliance report)
17.	2 % royalty should be given as per Gov. Of India National Hydro-Power policy 2008. Whereas instead of this in EIA/EMP only 100 unit free powers for 10 years has been mentioned. Provision of 2 % royalty should be made in R &R plan.	Project proponent informed that the issue is under consideration of state govt.	The project proponent is committed to provide royalty @ 1% as per H.P State Govt. Norms after the commissioning of the project.
18.	As per Himachal Pradesh hydro power policy 2006 provision 15 % release of water from the dam and to provide 70 % employment to the Himachali's have not been mentioned in EIA/EMP.	As per govt. notification 15% water will be discharged and 70% employment will be given to Himachalies.	The project proponent is committed to maintain 20% Environmental flow as per Environment Clearance condition. The environmental flow assessment study has been conducted by NIH Roorkee. The EAC in its meeting held on 10 <sup>th</sup> and 11 <sup>th</sup> December, 2013 desired to have presentation on Environment flow study. The presentation was given by project proponent before the EAC on 16 October, 2014. The EAC observe that Environment flow study was carried out in accordance with the Flow duration curve method. While this is generally in order but for further clarity the same should be carried out through Hydraulic rating and

**Shongtong Karchham HEP (402 MW)**

			Habitat Simulation method. The technique shall factor the need of aquatic faunal population. Also the adequacy of environmental flow in terms of depth, velocity and top width needs to be checked and proposed a fresh. Accordingly the environment flow study has been revised as desired by EAC and submitted to MoEF&CC. The preference shall be given to Himachalies for the employment in the project.
19.	The detail of transmission line is not mentioned in EIA/EMP plan. It is also not mentioned whether there will be separate transmission line or it will be transmitted through integrated transmission line and separate environmental clearance will be obtained for transmission land.	EIA/EMP has been prepared on the bases of TOR approved by MoEF. Further, it was clarified by project proponent that up to Wangtoo separate transmission line shall be provided and for transmission line environmental clearance is not required.	As per the latest notification from Govt. of India the transmission lines for the project above 250 MW will be done by HPTCL/Power Grid Corporation India Ltd. (PGCIL).
20.	In case the project is sold/transferred to any other company in such case fresh NOC of Gram Panchayat should be obtained.	Project proponent clarified that this project will not be sold/transferred to any other company.	Being and HP Govt. Entity, It is submitted that the project has not been sold/transferred to any other company.
21.	Definition of main project affected family is not in accordance to the R & R policy of 2007 of Govt. of India.	It is as per R &R Plan approved by HP State Govt. vide letter No. Rev. (PC)A(10)-7/2008,dated 19.1.2009.	Followed up as per R&R Plan approved by HP State Govt.
22.	Base line date of Air quality of the area is mentioned in EIA/EMP but prediction of enhancement of Air pollution has	Project proponent informed that studies will be conducted on this	The Environment monitoring plan is included in EIA/EMP, which will be

**Shongtong Karchham HEP (402 MW)**

	<p>not been given and impact on flora-fauna is also not mentioned in EIA/EMP.</p>	<p>issue.</p>	<p>implemented by HPSPCB. HPSPCB will monitor the Air, Water, Noise pollution levels in the project area. Copy of the monitoring reports is attached as <b>Annexure-VI</b> Moreover, an Ecological Monitoring Unit has been set-up under the Chairmanship of DFO, Kinnaur to monitor the impact of the project on flora and fauna of the area.</p>
<p>23.</p>	<p>Construction of tunnels and blasting operation will have adverse impact on water sources, is not mentioned in EIA/EMP and how it will be compensated should be made clear.</p>	<p>A committee comprising of members of Project Proponent, IPH and representative of concerned Panchayat will be constituted and documentation including Videography/ photography of the existing water sources shall be carried out, before starting the construction work. In case of reduction observed in the flow of water, it shall be compensated by the project proponent.</p>	<p>A committee comprising of members of Project Proponent, IPH and representative of concerned Panchayat was constituted and documentation including Videography/ photography of the existing water sources had been carried out, before starting the construction work. Moreover, to monitor the blast vibrations arise due to blasting in tunnels six Nos. seismographs has been installed in each Project affected Panchayat's and monthly monitoring report is being submitted to concerned Panchayat's, Member secretary, LADC and President, Zila Parishad. The blast vibrations are under the permissible limits. In</p>

**Shongtong Karchham HEP (402 MW)**

			case of reduction observed in the flow of water, it shall be compensated by the project proponent.
24.	Compensation for acquiring land should be through negotiation.	The project proponent agreed for negotiation.	Land has been acquired after negotiation with the land holders.
25.	Which area will be developed under CAT plan is not mentioned. Implementation of CAT plan should be prepared on annual basis and Implementation of CAT plan should be under taken consultation of local people/Panchayat.	Implementation CAT plan is to be done by forest department.	As per HP Govt. notification no. FFE-B-F-(2)-72/2004-PT-II dated 30/09/2009, 2.5% of total project cost has been kept for Catchment Area Treatment Plan which comes out to be Rs. 701.95 millions. Out of which Rs. 604.4 million has been deposited in Ad-hoc CAMPA account, New Delhi pertaining to the state vide UTRN: UCBAH12275077542, dated 01/10/2012, submitted to the office of D.F.O, Kinnaur. as per the revised TEC @ 2807 Core for STKHEP 450 MW revised amount of CAT paln is amounting to Rs 701.75 mill . Balance amount of revised CAT plan amounting to Rs 9, 75,57,500.0 were also deposited in account of Himachal CAMPA on 12.07.2023. During the reporting period HP forest department HP has not reported or submitted any progress report due

**Shongtong Karchham HEP (402 MW)**

			to late approval of APO during the quarter and consolidated progress up to FY 2023-24 is Rs 35.35+21.40=56.75 crore Copy of the same is attached as <b>(Annex-XI)</b>
26.	Health survey of workers should be conducted.	Agreed by project proponent.	<p>Prior to enrolment in the execution activities all the labourers are thoroughly checked up. After ensuring the complete fitness, the labourers are being engaged. Two nos. First Aid post has been made functional at site office Ralli and Barrage location. Contractor has provided Medicine of Rs. (88350/- and spent Rs. 6,81,092/- on salary of medical attendant and Rs. 960,000/- spent on maintenance of Ambulance.</p> <p>Rs. 5,45,194/- has been spent on salary of ambulance driver.</p> <p>Total No. Medical attendant provided = 04</p> <p>Total No. of ambulance = 04</p>
27.	25 % employment should be given to the local people.	Employment will be provided to the local people in accordance to the notification of H.P.	As per H.P Govt. notification employment will be provided to the local people. In

Shongtong Karchham HEP (402 MW)

		Government.	compliance of this M/s PEL has provided employment to 74 nos. peoples and HPPCL has provided 54 Nos. employment to local people on outsource basis.
28.	All males above the age of 18 years should be treated a separate family and should be incorporated in R & R plan. As forest produce is likely to be destroyed due to construction of project, therefore, families which are depending upon forest produce for their livelihood should also be added in project affected families.	Project Proponent informed that there is no such provision in R & R plan approved by the State Govt.	During the impose of section-IV the families registered in Panchayat's Parivar register has been considered as Project affected families and accordingly benefits under R&R plan has been given to them.
29.	Due to submergence of sand / grits quarry in the project local people should be provided sand/grits and it should be made available through for next 40 years and there should be agreement between local people and project proponent.	Project proponent assured to give only free sand grit to construct two rooms set to each PAF.	The project proponent is providing the sand and aggregates free of cost to project affected families to construct two rooms set. As on date PP has provided free of cost sand and aggregate amounting to Rs. (19.21+1.68) Crore among PAFs. Detail of sand and aggregates provided to PAF's in this monitoring period is attached as <b>Annexure-IV</b>
30.	RCC structure should be provided along the banks of reservoir in order to avoid land slide.	Project Proponent agreed to provide RCC structure along the banks of reservoir.	RCC structure in reservoir area will be constructed when construction of the dam in the barrage area will be started.

## Shongtong Karchham HEP (402 MW)

Detail of issues raised during Public Hearing on 28.07.2009 and 29.07.2009 for Shongtong-Karchham HEP (Powari-Ralli), organized by H. P. State Pollution Control Board at village Ralli, Ralli, Tehsil Kalpa, Distt. Kinnaur H.P. respectively:-

Sr. No.	Issues Raised at Ralli	Remarks on the issue raised	Status Till date
1.	Dust from the construction of project is likely to pose serious health problems and will cause damage to orchards and crops which has not been indicated in EIA/EMP report. solution to this problem should be indicated in EIA/EMP	Mitigation measure to control dust due to construction of project have been suggested in EIA/EMP report, which has been assured by the project proponent to be implemented, so that water/air quality is kept within the prescribed norms and there is no damage to the orchards/crops and to the health of local people. Moreover, the same is also checked by HPSPCB time to time.	The project proponent is following the mitigation measures to suppress the dust and gaseous emission. The condition is being compiled by the contractor. The DG sets have been provided with acoustic enclosures and proper stack height. The water tanker has been deployed in the project area to sprinkle the water in the project area to suppress the dust emission due to movement of vehicles. HP State pollution Control board is monitoring the parameters quarterly and all the parameters are within the prescribed limits.
2.	Two stone crushers are proposed to be established by the HPPCL. Mebar and Ralli villagers will be mostly affected. These villages should be properly compensated by the project proponent in case of damage caused by establishing stone crusher.	Project Proponent assured that pollution control measures as prescribed in EPA, 1986 shall be provided so as to keep pollution within the prescribed limit in case any damage is caused due to construction of project	The project proponent is following all the safeguard measures. Till date only one Stone crusher has been installed at Barrage area well away from Ralli village, in case any damage is caused due to construction of project

**Shongtong Karchham HEP (402 MW)**

		it shall be compensated by the project proponent.	it shall be compensated by the project proponent.
3.	Muck should be dumped in proper and safe place adequately away from HFL.	Project Proponent clarified that Muck will be dumped in safe designated dumping sites away from HFL and with adequate safe engineering structure so that there is no seepage of muck into river.	Muck management Plan as approved by MoEF and HPSPCB is being implemented. The muck is being dumped in designated dumping sites and with adequate safe engineering structure so that there is no seepage of muck into river under the supervision of H.P forest deptt. and HPSPCB.. The Monthly muck statement is being submitted to HPSPCB every month.
4.	Tunnel Boring Machine (TBM) should be used for construction of underground works so that there is minimum damage in the project area.	It was assured by project proponent that if technically, it is possible, TBM can be used.	As per the Geological strata around the project area and the alignment of the project using TBM is not possible. To monitor the blast vibrations arise due to blasting in tunnels six Nos. seismographs has been installed in each Project affected Panchayat's and monthly monitoring report is being submitted to concerned Panchayat's, Member secretary, LADC and President, Zila Parishad. The blast vibrations are under the permissible limits as no damage to house of local people has been observed.

## Shongtong Karchham HEP (402 MW)

5.	Due to submergence of sand/grits quarry in the project local people should be provide sand/grits and it should damage available through for next 40 years and there should be agreement between local people and project proponent.	Project proponent assured to give only free sand grit to construct two rooms set to each PAF.	The project proponent is providing the sand and aggregates free of cost to project affected families to construct two rooms set. As on date PP has provided free of cost sand and aggregate amounting to Rs. (19.21+1.68) Crore among PAFs. Detail of sand and aggregates provided to PAF's in this monitoring period is already attached as <b>Annexure-IV</b>
6.	Provision for 2% royalty should be made in R&R plan as per Govt. of India National Hydel Power policy 2008.	Project Proponent informed that this issue is under consideration of state govt.	The project proponent is committed to provide royalty @ 1% as per H.P State Govt. norms
7.	There are two water sources above villages Mebar and Ralli which are used for drinking as well as for irrigation. These sources are at the height of 10-11 thousand feet which is likely to be damaged due to construction of surge shaft. The project proponent should give in writing to provide water for drinking as well as for irrigation in case these sources are damaged due to construction of project.	A committee comprising of members of Project Proponent, IPH and representative of concerned Panchayat will be constituted and documentation including Videography/ photography of the existing water sources shall be carried out, before starting the construction work. In case of reduction observed in the flow of water, it shall be compensated by	A committee comprising of members of Project Proponent, IPH and representative of concerned Panchayat was constituted and documentation including Videography/ photography of the existing water sources had been carried out, before starting the construction work. **Status of 8 no. dumping sites as per approved EMP of STKHEP**

SN	Dumping Sites	Gross Estimated Capacity of Dumping Sites as per EMP (CUM)	Cumulative Quantities (Cum) at the end of the May 2023		Remarks
			Dumped	Balanced quantity to be dumped	
1	DS-1	3,49,000	Nil	Nil	DS-1 could not be utilized by HPPCL, as the area got vanished due to change of River course by Satluj.
2	DS-2	7,61,645	2,66,738	Nil	Completed. No capacity is left in the site for more dumping.
3	DS-3	2,37,300	203195	34,105	Some Capacity is left.
4	DS-4	4,17,900	48401	Nil	Completed. No capacity is left in the site for more dumping.
5	DS-5	1,11,750	44758	Nil	Completed. No capacity is left in the site for more dumping.
6	DS -6	25750	Nil	Nil	Marked in EMP as DS- 6 whereas, in FC case the area is diverted as job facility. Presently being used as a job facility for Power House and not utilized as Dumping site.
7	DS -7	1,11,600	Nil	Nil	Marked in EMP as DS- 7 whereas, in FC case the area is diverted as job facility. Not utilized as a dumping site.
8	DS-8	1,87,300	1,98,682	Nil	In the Forest Diversion case it is Shown as DS-6. The dumping site has been filled to its full capacity.

**COMPLIANCE OF FC CONDITIONS MONITORING REPORT IN R/O SHONGTONG-KARCHHAM HEP**

I	Name of Project	Shongtong Karchham HEP
II	Name of Monitoring/Reporting Agency and address	Himachal Pradesh Power Corporation Limited
III	Report for the period	1 <sup>st</sup> Oct, 2023 to 31 <sup>st</sup> March.20234

1. **Forest Clearance:** Forest Clearance for the project was granted by MoEF vide F.no. 8-78/2010-FC, dated 14<sup>th</sup> Nov. 2012 (submitted with previous compliance report).

Sr. No.	Description	Compliance Status
1.	Legal Status of the diverted forest land shall remain unchanged.	HPPCL will not seek any changes in status of diverted forest land.
2	The Compensatory Afforestation (CA) will be raised and maintained over double the area proposed for diversion in a degraded forest land (i.e. 128 ha) at the cost of User Agency.	Condition is complied with by paying the requisite amount to CAMPA through DFO Kinnaur. The HPPCL has deposited the requisite cost towards CA with Department of Forest, Govt. of HP amounting to Rs. 1, 74, 65,952/- (One crore seventy-four lakhs sixty-five thousand nine hundred and fifty two) only vide DD No. 630072 dated 02.04.2011 (worth Rs. 7, 44, 26,798/- including amount for NPV) drawn on Reckong Peo branch of State Bank of India vide their letter No. HPPCL/GM-STKHEP/Forest/ 2010-24-27, dated 02.04.2011 as per the bill issued by DFO Kinnaur vide letter No 9216 dated 30.03.2011. Progress report CA i.r.o Shontong Karcham HEP over 128 ha. under Compensatory Afforestation has been attached as <b>Annexure-III (This issue stand closed.)</b>
3	The user Agency shall pay the additional NPV, if so determined, as per the final decision of Hon'ble Supreme Court of India.	Condition has been complied with by paying the requisite amount to CAMPA /DFO Kinnaur. HP Forest Department through DFO Kinnaur raised a bill for Rs. 5, 69, 60,846/- (Five crore sixty-nine

[Type the document title]

		<p>lakh sixty thousand eight hundred and forty-six) only against NPV vide letter</p> <p>No. 9216 on dated 30.03.2011 and same has been deposited vide DD No. 630072 dated 02.04.11 with the DFO Kinnaur HP (<b>submitted in previous compliance report</b>). An undertaking to pay the additional NPV, if so determined as per the final decision of Hon'ble Supreme Court of India has already been given. Progress of the NPV is not being submitted by the Concerned Forest Department</p>
4	All the funds received from the user Agency under the project shall be transferred to Ad-hoc CAMPA pertaining to the state.	Project proponent has deposited all the funds to the DFO, Kinnaur H.P forest department and further deposited to Ad-hoc CAMPA by DFO, Kinnaur.
5	The State Government shall ensure that minimum flow of 15% is maintained at all time.	The project proponent is committed to maintain 20% Environmental flow as per Environment Clearance condition. The environmental flow assessment study has been conducted by NIH Roorkee. The EAC in its meeting held on 10 <sup>th</sup> and 11 <sup>th</sup> December, 2013 desired to have presentation on Environment flow study. The presentation was given by project proponent before the EAC on 16 October, 2014. The EAC observe that Environment flow study was carried out in accordance with the Flow duration curve method. While this is generally in order but for further clarity the same should be carried out through Hydraulic rating and Habitat Simulation method. The technique shall factor the need of aquatic faunal population. Also the adequacy of environmental flow in terms of depth, velocity and top width needs to be checked and proposed a fresh. Accordingly the environment flow study has been revised as desired by EAC and submitted to MoEF for approval.

[Type the document title]

		The preference shall be given to Himachalies for the employment in the project.
6	The user agency shall set up Ecological Monitoring Unit to monitor the impact of the project on flora and fauna of the area.	As per the stipulations imposed by Forest Advisory Committee, MoEF&CC an Ecological Monitoring Unit (EMU) to monitor the impact of project on flora and fauna of the area was to be constituted Since, the Stage-I Forest Clearances to Shongtong Karchham HEP & Integrated Kashang HEP were granted within the same time period and with similar condition of setting up of an EMU. Thus, Divisional Forest officer Kinnaur at Reckong Peo through his office order issued vide No. 3KNR/2011-12 dated 5.04.2011” framed committee for the Ecological Monitoring to monitor the impact of aforesaid Projects on flora & Fauna within the jurisdiction of command area of the Shongtong Karchham HEP , as well as, Integrated Kashang HEP. Project proponent had agreed to comply the directions of above nominated committee. On dated 19/06/2015 this office received a letter from the O/o General Manager, IKHEP that a payment of Rs. 6,00,000/- has been made to DFO (Kinnaur) on account of APO for Ecological Monitoring Unit to monitor the impact of project on flora and fauna of the area in r/o IKHEP & STKHEP, HPPCL. The amount is chargeable to both the projects on pro rata basis .The same was verified by this office and Rs. 4,18,605/- from the total of Rs. 6,00,000/- were charged towards STKHEP, HPPCL.
7	The user agency shall keep the effect of camping labourers on the flora and fauna during the construction phase of 48 months at minimum by providing alternate fuel for cooking and heating.	Provision has been made in EMP to provide alternative fuel (i.e. LPG /kerosene/ electricity) for community kitchen. If fuel wood is to be procured, it has to be through authorized sources only. From Oct.2023 to March 2024, 394 Nos. & from LPG cylinders

[Type the document title]

		amounting to Rs Rs.6,39,644/- have been provided by the contractor i.e. M/s Patel Eng. Ltd to the labour and staff besides running community kitchens/mess at all the locations being the main contractor of STKHEP.
8	The entire reservoir created due to submergence shall be declared Reserve Forest under Indian Forest Act. 1927 within six months. However, regulated fishing shall be allowed. Nodal officer shall submit compliance report in this regard.	Since the Project is a Run-of-the-River type (RoR) hydropower project with diversion done through a barrage with head race tunnel (HRT). Thus, the submergence area is very small (27 hectares), which shall be got declared as Reserve Forest under Indian Forest Act. 1927 through HP State Forests Department with regulated fishing being allowed. Project proponent has Initiated the process of declaration of Reserved Forest with HP state Govt. through HP forest Department & Forest department has issued the Notification for the appointment, Settlement officer for aove work & prior to the commissioning of the project the reservoir are will be declared as Revered forest As per Indian Forest Act 1927.
9	Catchment Area Treatment Plan should be implemented at the project cost under the supervision of the State Government.	As per HP Govt. notification no. FFE-B-F-(2)-72/2004-PT-II dated 30/09/2009, 2.5% of total project cost has been kept for Catchment Area Treatment Plan which comes out to be Rs. 701.95 millions. Out of which Rs. 604.4lakhs has been deposited in Ad-hoc CAMPA account, New Delhi pertaining to the state vide UTRN: UCBAH12275077542, dated 01/10/2012, and as per the revised TEC @ 2807 Core for STKHEP 450 MW revised amount of CAT paln is amounting to Rs 701.75 mill . Balance amount of revised CAT plan amounting to Rs 9,75,57,500.0 were also deposited in account of Himachal CAMPA on

[Type the document title]

		12.07.2023. During the reporting period HP forest department HP has not report any Physical and financial Progress during the reporting period the consolidated progress of CAT plan as on date is Rs 35.35+21.40=56.75 Crore Copy is attached as <b>Annex-X</b>
10	Green belt of adequate width shall be raised by the user agency around the reservoir at the cost of the project.	A plan for Green belt development around reservoir and around surface components and along project roads at the cost of the project has been included in the EMP for which provision of 40 lacs has been made in EMP (Chapter-9). The same will be taken in consultation with forest deptt. After completion of civil work.
11	The user agency shall facilitate a basin level study on the impact of HEP's on the flora & fauna of the as per the TOR submitted to MoEF.	Project proponent is committed to comply the outcomes of the basin level study of Satluj basin on the recommendations of MoEF, Govt. of India. Himachal Pradesh is getting study conducted for cumulative or ecological impact of all the Hydro power Projects in operation and under execution or are planned to implementation in near future in Satluj Basin of Himachal. Job of this study has been awarded to Indian council of Forestry research and Education Dehradun in Feb 2012 and accordingly Govt. of Himachal Pradesh has constituted Two member panel of Environment and social Expert PESE) Sh.D.C.Khanduri (Rtd.IFS) Dehradun and Dr. Rashmi Nayar - Associate Professor and Management of Land Acquisition Resettlement and rehabilitation Administrative Staff college of India.) towards states compliance for Environment and social Development policies in regard to the Development of Hydro Power Projects in the Satluj Basin of Himachal Pradesh.

[Type the document title]

		<p>Recently in this regard the experts Panel along with the two senior officers of Directorate of Energy, GoHP, visited the various Hydro Power Projects and on 7<sup>th</sup> Dec, 2013 and DOE has organized a meeting with the Panel of Environment and social Experts (PESE) for Satluj basin from 12<sup>th</sup> August to 18 August at various location i.e. on 12.08.2014 at Jakhari and on 13<sup>th</sup> August 2014 at Reckong Peo and Lippa on 14<sup>th</sup> August 2014 at Pooh and Nako on 16<sup>th</sup> August at Tabo. Consequent upon this meeting on the demands of the stakeholders and villagers of various Villages DOE has been requested to hold a another meeting in the presence of panel of experts involved in the preparation of these reports and DOE has arranged another meeting with Stakeholder at Reckong Peo on 8<sup>th</sup> Dec 2014 and 9<sup>th</sup> Dec 2014 at Pooh . consequent upon the above facts the committee has submitted the draft report on CEIA of Satluj basin to DoE and DoE has placed the same in its official web site of DoE and ICFRI has submitted the final report to MoEF for approval. EAC of MoEF&amp;CC has proposed a physical meeting later as in line with the EAC 41<sup>st</sup> meeting of EAC of river valley and Hydro Electric Projects of MoEF&amp;CC GoI held on 01.02.2023 and 18.10.2023</p> <p>comments/suggestion/observation from concern HEP's were requested from project proponents. Rest status remains same as Previous compliance Report.</p>
12	The user agency shall carry out the muck disposal at pre-designated sites in such a manner so as to avoid its rolling down.	Project proponent will abide this condition and committed to comply. All the necessary steps to prevent rolling down of muck are being taken by constructing/raising retaining walls, Gabions & other structures through its

[Type the document title]

		main contractor i.e. M/s Patel Eng Ltd. The detail muck statement is being submitted to HPSPCB regularly. During the reporting period project proponent has constructed 315 no. of crates through its main contractor at various dumping sites.
13	The dumping area for muck disposal shall be stabilized and reclaimed by planting suitable species by the user agency at the cost of project under the supervision of State Forest Department. Retaining walls and terracing shall be carried out to hold the dumping material in place. Stabilization and reclamation of such dumping sites shall be completed before handing over the same to the State Forest Department. In a time bound manner as per Plan.	<p>A detailed Muck Management Plan (MMP) has been prepared as part of EMP (Chapter-6) which prescribes for engineering and biological measures for stabilization of dumped muck. The MMP is being implemented diligently. As already submitted, its implementation is also being monitored strictly by the State Pollution Control Board.</p> <p>Total nos.315no of wire crate were being constructed during Oct.2023 to March.2024. with an expenditure amounting to Rs 26,36,230/- were incurred</p>
14	The user agency to consult other organization having experience in construction of roads in hilly areas such as BRO to avoid frequent road blocked due to landslides etc. and shall provide breast walls and retaining walls wherever necessary.	The user agency i.e. HPPCL is sister concern of Himachal Pradesh State Electricity Board Ltd.(HPSEBL) which have sufficient experience in construction of roads and related civil works. However, the agency like BRO, GREF and HPPWD etc. are also being consulted for proper construction of roads as and when required.
15	The Forest Department shall regenerate equivalent amount of degraded forest area, in addition to the condition no. 2. As the user agency does not have qualified manpower and control on the forest area to execute the same, they have paid for the same to the CF, Rampur. The Forest Department shall implement the same and submit a compliance report.	Total of Rs. 1,36,73,737/- have been deposited with D.F.O, Kinnaur for regenerating equivalent amount of degraded forest area, in addition to the condition no. 2 ( <b>Copy of the progress report submitted by the DFO Kinnaur has already conveyed to MoEFCC with previous compliance as Annexure-XI</b> ) during the FY 2016-17 & 2017-18 total progress of

[Type the document title]

		Rs 1,36,74,200/- has been received from forest Deptt. <b>This issue stand closed.</b>
16	The User Agency shall submit annual self monitoring report indicating status of compliance to the conditions stipulated in the approval, to the state government and the concerned Regional Office of the Ministry.	HPPCL is committed to abide by and comply with the condition. Last compliance report has been submitted to MoEF, Regional Office Dehradun & Integrated Regional Office Shimla on 20.05.2023 ( <b>submitted with previous compliance reports</b> ).
