Sr. No.	Description	Reply
l.	Statutory compliance	
i.	The project proponent shall obtain Forest Clearance under the provision of Forest (Conservation) Act, 1986 in case of the diversion of forest land for non-forest purpose involved in the project.	
li.	The project proponent shall obtain Clearance from the National Board for Wildlife, if applicable.	NA
(ii.	The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan/Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the sixmonthly compliance report. (in case of the presence of schedule-I species in the study area)	NA
iv.	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water ( Prevention & Control of Pollution) Act, 1974 from the concerned State pollution Control Board/Committee.	Needful will be done.
v.	NOC shall be obtained from National Commission of Seismic Design Parameters (NCSDS) of CWC.	-
vi.	Necessary approval of CEA shall be obtained for those projects having the project cost more than Rs. 1,000 crore.	NA
II.	Air quality monitoring and preservation	
i.	Regular monitoring of various environment parameters viz., Water Quality, Ambient Air Quality and Noise levels as per the CPCB guidelines at designated locations shall be carried out on monthly basis and a detailed database of the same shall be prepared and recorded. This shall be used as a baseline data for post construction EIA / Monitoring purposes.	Agreed Needful will be done.
ii.	Appropriate Air Pollution Control (APC) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed standards.  Necessary control measures such as water	Agreed.  Needful will be done.  Agreed

	sprinkling arrangements, etc. be taken up to arrest fugitive dust at all the construction sites.	Necessuary measures will be taken.
111.		
i.	Water quality monitoring and preservation  Conjunctive use of surface water to be planned in the project to check water logging as well as to increase crops productivity. The field drains shall be connected with natural drainage system.	Needful will be done as per site conditions.
ii.	Remodelling of existing natural drains (link drains) and connecting them with irrigated land through constructed fields drains, collector drains, etc. are to be ensured on priority basis.	
iii.	Before impounding of the water, Cofferdams for both at the upstream and downstream are to be decommissioned as per EIA/EMP report so that once the project is commissioned; cofferdam should not create any adverse impact on water environment including the rock mass and muck used for the Cofferdam.	Surgani Sundla HEP is a proposal to use Tail race water of Berra Suil HEP of NHPC.
iv.	As the reservoir will be acting as balancing reservoir and there would be fluctuation of water level during peaking period, efforts be made to reduce impact on aquatic life including impacts during spawning period both at the upstream and downstream of the project.	There is no reservoir in this proposed project. As submitted above, Project proponents will use TRT silt free water. Project Proponents shall release 15% minimum water discharge as per State Government policy to avoid any adverse impact in downstream area.
V.	Water depth sensors shall be installed at suitable locations to monitor e-flow. Hourly data to be collected and converted to discharge data. The Gauge and Discharge data in the form of Excel Sheet be submitted to the Regional Office, MoEF & CC and to the CWC on weekly basis.	Agreed. Needful will be done.
vi.	Mixes irrigation shall be practiced and necessary awareness be given to all the farmers and trained in the use of such systems. Proper crops selection shall be carried out for making irrigation facility more effective.	NA
vii.	On Farm Development (OFD) works like landscaping, land levelling, drainage facilities, field irrigation channels and farm roads, etc. should be taken up in phased manner prior to the start of irrigation in the entire command area. The Command Area Development Plan should be strictly implemented as proposed in the EIA/EMP report.	NA
