## **Preface**

The Thana Plaun Hydro-electric Project was conceived in the year 2009 and was proposed to be constructed without constructing tunnels by Himachal Pradesh Power Corporation Limited (hereinafter called HPPCL) a joint venture of Govt. of Himachal Pradesh and Govt. of India. Thana Plaun Hydro-electric Project and Triveni Mahadev Hydro-electric Project are two cascading hydropower projects proposed on Beas river in the Mandi district of Himachal Pradesh. The project is to harness the hydel potential of Beas River between the Pandoh dam and Pong dam.

The Thana Plaun Hydro-electric Project has been proposed with a new proposal and design for minimum land acquisition and socio-economic impacts. The dam site is located on river Beas near Thana village in Mandi districts of Himachal Pradesh. The project holds a potential of generating 367.50 GWh of electric energy in a 90 per cent dependable year by construction of a 82.50 metre high concreted gravity dam on Beas river. The project would affect 709 landowners spread over in twenty-one villages of twelve panchayats at the project site. Around 432.67 hectares of and will be required for the project activities. Out of the total, 24.88 hectares of private land and the rest is government & forest land. This Report pertains to Social Impact Assessment undertaken by AFC India Ltd. at the instance of Himachal Pradesh Social Impact Assessment Unit, Shimla. The structure of the Report is in accordance to Form II & III of HP SIA Rules-2015. We trust that the findings of the Report which also contains “Social Impact Management Plan” would benefit all policy and decision-makers.

Date: 1st September, 2018

AFC India Ltd., New Delhi

## Glossary

- **Act** refers to “Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013”.
- **Acquisition of lands** means the land(s) proposed to be acquired under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 for the proposed Thana Plaun Hydro Electric Project in Mandi district of Himachal Pradesh.
- **Administrator** means an Officer appointed for the purpose of rehabilitation and resettlement of affected families under sub-section (1) of Section 43 of the Act.
- **Affected Area** means such area as notified by the Government of Himachal Pradesh under the land acquisition rules for the purposes of land acquisition for TPHEP.
- **Affected Family means:**
  - i. A family whose land or other immovable property has been acquired for TPHEP.
  - ii. A family which does not own any land but member(s) of such family may be agricultural labourers, tenants including any form of tenancy or holding of usufruct right, share-croppers or artisans or who may be working in the affected area, since three years, prior to acquisition of the land, whose primary source of livelihood stand affected by the proposed acquisition of land;
  - iii. The scheduled tribes and other traditional forest dwellers who have lost any of their forest rights recognized under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 due to the proposed acquisition of land;
  - iv. Family whose primary source of livelihood since three years prior to the proposal for acquisition of the land is dependent on forests or water bodies which also includes gatherers of forest produce, hunters, fisher folk and boatmen and such livelihoods which are affected due to the proposed acquisition of land;

- v. A member of the family who has been assigned land by the State Government or the Central Government under any of its schemes and such land is presently under acquisition.
  - vi. A family residing on any land in the affected area for preceding three years or more prior to the proposed acquisition of the land or whose primary source of livelihood since three years prior to the acquisition of the land is expected to be affected by the acquisition of such land;
- **Agricultural Land** means land(s) being used for the purpose of:
    - (i) Agriculture or horticulture;
    - (ii) Dairy farming, poultry farming, pisciculture, sericulture, seed farming breeding of livestock or nursery growing medicinal herbs;
    - (iii) Raising of crops, trees, grass or garden produce; and
    - (iv) Land used for the grazing of cattle;
  - **Below poverty line or BPL Family** refers to families falling below the poverty line as defined by the Planning Commission of India, from time to time, and as well as those included in the BPL list of Himachal Pradesh State in force.
  - **Central Government** refers to Government of India.
  - **Compensation** refers to the amount to be paid as compensation under various provisions of the Act 2013, for private property, structures and other assets acquired for the project, including rehabilitation and resettlement entitlements as per this policy.
  - **Cost of acquisition** includes:
    - (i) Amount of compensation, which includes solatium (compensation or consolation), any enhanced compensation ordered by the “Land Acquisition and Rehabilitation & Resettlement Authority” or the Court, interest payable thereon and any other amount determined as payable to the affected families by such authority or court,
    - (ii) Demurrage to be paid for damages cost to the land and standing crops in the process of acquisition,
    - (iii) Cost of acquisition of land and building for settlement of displaced or adversely affected families,

- (iv) Cost of development of infrastructure and amenities at the resettlement areas,
  - (v) Cost of Rehabilitation and Resettlement, as determined in accordance with the provision of the Act 2013,
  - (vi) Administrative cost that includes:
    - a. Expenditure incurred for acquisition of land, including both in the project site and outside of project area , not exceeding such percentage of the cost of compensation as may be specified by the Government of Himachal Pradesh,
    - b. Expenses to be incurred for rehabilitation and resettlement of the owners of the land and other affected families whose land has been acquired or proposed to be acquired or other families affected by such acquisition.
  - (vii) Cost of undertaking the SIA study.
- **Cut-off Date** is the date of Notification under Section 11 (1) of Act, 2013.
  - **Displaced Family** means any affected family, who on account of the proposed acquisition of land has to be relocated and resettled from the affected area to the resettlement area.
  - **District Collector** means the officer appointed by the State Government as a Collector of a District.
  - **Encroachers** are those persons who have extended their building, business premises or work places or agriculture activities into government lands,
  - **Family** means a person, his or her spouse, children, brothers and sisters dependent on him/her, provided that widows, divorcees and women deserted by families shall be considered as separate families.
  - **Land** includes benefit to arise out of land, and things attached to the earth or permanently fastened to anything attached to the earth.
  - **Land acquisition** means acquisition of land under the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 and Government of Himachal Pradesh Rules, 2015 as well as other relevant orders.
  - **Land Acquisition Collector** means the Deputy Collector or any other officer designated as Land Acquisition Officer by the State Government to perform all or any of the functions of the Collector under the Act 2013.

- **Landless** means such person or class of persons as may be specified by the Government of Himachal Pradesh.
- **Land owner** includes-
  - (i) Whose name is recorded as owner of the land or building or part thereof, in the records of the concerned authority,
  - (ii) Any person who is granted with forest rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 or under any other law for the time being in force,
  - (iii) Who is entitled to be granted Patta rights on the land under any law of the State including assigned lands; and,
  - (iv) Any person who has been declared as such by an order of the court or authority.
- **Marginal farmer** means a cultivator with an un-irrigated land holding up to one hectare or irrigated land holding up to one-half hectare,
- **Market value** means the value of land determined in accordance with Section 26 of the Act 2013.
- **Minimum Wages** means the minimum wage of a person for his/her services/labour per day as per notification published by Department of Labour, Government of Himachal Pradesh.
- **Non-Perennial Crop** means any plant species, either grown naturally or through cultivation that lives for a particular harvest season and perishes with harvesting of its yields.
- **Notification** means a notification published in the Gazette of India, or as the case may be, the Gazette of a state and the expression “notify” shall be constructed accordingly.
- **Perennial Crop** means any plant species that live for years and yields its products after a certain age of maturity.
- **Project** means the Thana Plaun Hydro Electric Project.
- **Public purpose** means the activities specified under sub-section (1) of Section 2 of the Act 2013.

- **Rehabilitation and Resettlement (R & R)** means carrying out rehabilitation and resettlement as per RFCTLARR Act 2013 and HP RFCTLARR Rules 2015, benefits to be provided to the affected families/area.
- **R&R Entitlements** means the benefits awarded as per the RFCTLARR Act 2013 of the Government of India.
- **Requiring Body** here means HPPCL.
- **Scheduled Areas** means the scheduled areas as defined in section 2 of the provisions of the Panchayats (Extension to the Scheduled Areas) Act, 1996.
- **Small farmer** means a cultivator with an un-irrigated land holding up to two hectares or irrigated land holding up to one hectare, but more than the holding of a marginal farmer.
- **Social Impact Assessment** or **SIA** means an assessment made under subsection (1) of Section 4 of the HP Rules 2015.
- **Social Impact Management Plan** or **SIMP** means the plan prepared as part of Social Impact Assessment Process under sub-section (1) of Section 4 of the HP Rules 2015.
- **State Government** refers to the Government of Himachal Pradesh
- **Tenants** are those persons having bonafide tenancy agreements for three years prior to the acquisition of the land, with a property owner with clear property titles, to occupy a structure or land for residence, business or other purposes.
- **Vulnerable groups** includes persons such as differently abled, widows, and women headed household, persons above sixty years of age, Scheduled Caste and Scheduled Tribes and other groups as may be specified by the State Government.
- **Women Headed Household** means a family headed by a woman and does not have a male earning member. This woman may be a widow, separated or deserted woman.

\*\*\*\*\*

# **Executive Summary**

## Executive Summary

Himachal Pradesh is blessed with vast hydroelectric power potential in its five major rivers. Gurgling rivers and their tributaries with steep gradient continue to challenge planners and engineers for optimal exploitation of hydropower potential. Number of hydro-electric projects are under execution by the Govt. of India, State Government, Joint ventures and by Private sector in the State. The only strategy followed in Himachal Pradesh for exploitation of hydro-electric power resources is to produce as much energy as possible and as fast as possible at minimal cost coupled with minimum environmental negative impacts.

As per the current development plan of river Beas, the river potential of 535 MW in a distance of approx. 150 KMs between the Pandoh dam and Pong dam is proposed to be harnessed in a systematic development by implementing three cascading hydro-electric projects namely Thana Plaun HEP, Triveni Mahadev HEP and Dhaulasidh HEP.

According to the Pre-feasibility report prepared in June 2011, Thana Plaun HEP was envisaged as a storage scheme with 82.50 m high Concrete Gravity dam with an installed capacity of 141 MW comprising of 3 units of 47 MW each which will generate 367.50 GWh in 90% dependable year.

The proposed Thana Plaun HEP is a storage scheme and the water conductor system of the project is on the left bank of river Beas. This scheme involves utilization of the waters of Beas River and available head in between Mandi town and confluence of Son Khad (a left bank tributary) with River Beas located in district Mandi, Himachal Pradesh. The project envisages the construction of concrete gravity dam across river Beas  $\pm 106.70$  m high above foundation level. The discharges are diverted on the right bank by 2 nos. of feeder tunnels leading to an underground power house through steel lined pressure shafts which are bifurcated near the power house.

The total private land area to be acquired under Thana Plaun HEP is 249 Bigha 19 Biswa and 14 Biswansi. The planned land acquisition will take place in twenty-one villages of twelve Gram Panchayats of Mandi district.

The applicable laws on land acquisition, rehabilitation and resettlement for the proposed acquisition of Thana Plaun Hydro Electric Project are:

- Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RTFCTLARR Act 2013).
- Himachal Pradesh Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Social Impact Assessment and Consent) Rules, 2015. (HP RTFCTLARR Rules2015).

The Act 2013 defines eight types of land acquisitions as public purpose, one of which is “Acquisition of land for railways, highways, ports, power and irrigation purposes for use by government or by government controlled corporations” (also known as public sector companies) and the Act using particular phrase 'accruing general benefits to the public', 'public interest' will satisfy even if private industry acquires land for one of the said projects provided general benefits accrue to public.

The land acquisition for this project will be carried out as per the Act 2013 and HP Rules 2015. As per section 4 of the Act 2013, a Social Impact Assessment is required to be carried out before initiating land acquisition notifications under section 11 of the Act.

The Himachal Pradesh Social Impact Assessment Unit assigned the task of undertaking Social Impact Assessment of Thana Plaun Hydro Electric Project (TPHEP) to AFC India Limited. The study area was spread over in twenty-one villages of Mandi district of Himachal Pradesh. The construction of Thana Plaun Hydro Electric Project involved acquisition of 249-19-14 Bighas of private land from the identified twenty-one villages of four tehsils. The number of landowners who are likely to be affected due to land acquisition as per the land records is 709, resulting in some of them losing substantial portion of their land while others marginally. The Study was undertaken during March, 2018 to June, 2018.

Social Impacts are the changes that occur or likely to take place in the lives of individuals, communities and environment as a result of land acquisition which is externally-induced change. These are the consequences of such public actions to human populations that alter the ways in which people presently live, work, relate to one another, individually and socially organize to meet their needs, and also function as members of society. The social impacts also include cultural impacts involving changes to the norms, values, and beliefs that guide their cognition of themselves and their society.

Acquisition of land proposed for the hydro-electric project will have a direct bearing on livelihood, employment, income, production, health & well-being and quality of life of the community, socio-cultural systems and environment. It will raise doubts and fears about property rights and aspirations. Generally, development projects affect different groups differently. Some people tend to benefit while many others loose. Often, impacts are particularly severe for vulnerable groups viz. tribal community, women-headed households, elderly persons, landless persons and the poor.

Consultation with the affected landowners was the starting point to address involuntary issues, concerning resettlement. People affected by this project may have apprehensions regarding their loss due to land acquisition. Their participation in planning and managing resettlement helps to reduce their fears and gives the landowners an opportunity to participate in key decisions that affect their lives.

During the Household Survey, the respondents shared that there would be some positive impacts due to the Thana Plaun HEP activities. These includes an increase in the employment and income opportunities- within the project and in the ambit of the forward and backward linkages. The increase in the value of land is another big positive according to the respondents. Majority of them also believed that it will create scope for increase in business opportunities. Also, some of them are hopeful that the travel time would be reduced as a result of a better road network and increased frequency in the transportation services.

As per the provisions of Section 4 (6) of The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act of 2013 and Sub Rule (4) of Rule 3 of the Himachal Pradesh Rules, 2015, a Mitigation Plan listing the ameliorative measures required to be undertaken for addressing the impact of the project. After detailed study, consultation and concerns put forwarded by the stakeholders, following mitigations are suggested in the report-

Afforestation, Lift irrigation system, safe drinking water Supply, Hospital of appropriate level, Engineering college/DAV College having facility of all streams, Scholarships, ITI, All Weather Roads, Free Power Supply to the Project Affected Families, Promotion of Sports, Awareness Camps relating to Health, Education and Financial literacy etc., building infrastructural facilities to support loss of Social Capital and to accommodate the pressure of in-migrating populating, establishing Plant Protection, Quarantine and Storage Centers,

promotion of Tourism, forming and strengthening Self-Help Groups (SHGs), Food Processing Units and Cold Storage, Institutional linkages for income restoration, Project-based Employment, promoting and establishing Model Villages, Seed banks, Gau-shala and Regulated Mandi.

Information collected during the survey is based on the interviews of the respondents and the information provided by them is considered true but it is not the authentic version of ownership entitlement. The total private land area sums up to 249-19-14 Bighas for which, on the basis of the computation formula, the tentative land compensation (excluding compensation for standing crops) works out to Rs. 1163022862/- (Rupees hundred and sixteen crores thirty lakhs twenty-two thousand eight hundred and sixty-two only). At 12 percent rate of interest on the compensation of land, an amount of 139562743.4/- (Rupees thirteen crores ninety-five lakhs sixty-two thousand seven hundred forty-three and forty paise only) has been estimated for payment as per Section 30 (3) of Act 2013.

The compensation for trees is estimated as 58537000/- (Rupees five crores eighty-five lakhs thirty-seven thousand only). However, the number of the trees will be enumerated and the actual value will be assessed by the competent authorities.

This estimation of compensation for land acquisition doesn't include compensation for standing crops. The cash compensation against crops will be provided at market cost of mature crops based on the average production.

#### Details of Total Costs for Land Acquisition, Rehabilitation and Resettlement

S. No.	Details of the costs	Amount
1	Compensation for land**	1163022862
2	12% interest on the compensation (land) amount	139562743.4
3	Compensation for trees	58537000
4	Rehabilitation and Resettlement costs***	6428000
5	Total Cost	1367550605
6	Miscellaneous (10% of the total cost)	136755060.5
	<b>Total (5+6)</b>	<b>1504305666</b>

\*\*The compensation for land acquisition doesn't include compensation for standing crops, which will be calculated by the competent authority

\*\*\*The compensation does not include compensation of Gharats, which will be calculated by the competent authority

The entitlements for R&R expenses are totalling to Rs. 6428000/- (Rupees sixty-four lakhs twenty-eight thousand only). The total cost for land acquisition including R&R is estimated

as Rs. 1504305666/- (Rupees one hundred fifty crores forty-three lakhs five thousand six hundred and sixty-six only). However, the final compensation amount for the land acquisition and structures will be determined by the Competent Authority as per the Act 2013. The traditional forest-dwellers may also be compensated as per the provision for the Schedule -2 of Act 2013. Further, the cost of the Mitigation Plan has not been included in the said computation.

As per the act 2013, where land proposed to be acquired is equal to or more than 100 acres, the government shall constitute a “Rehabilitation and Resettlement Committee” under the chairmanship of the Collector. This committee would aim to review the progress of implementation of Rehabilitation and Resettlement Schemes or plan and to carry out the post-implementation Social Audit in consultation with the Gram Sabha.

A Monitoring and Evaluation plan needs to be developed to provide feedback to the project authorities. Monitoring and Evaluation of R&R gives an opportunity to reflect on the success of the R&R objectives, strategies and approaches and to assess the efficiency and efficacy in implementation of R&R activities, their impact and sustainability. Monitoring will give particular attention to the project affected vulnerable families and groups such as Scheduled Castes, Scheduled Tribes, BPL families, women headed households, widows, old aged and the physically or mentally challenged persons.

# **Chapter 1 : Detailed Project Description**

## 1. Detailed Project Description

### 1.1. Background of the Project

Thana Plaun Hydro-electric Project and Triveni Mahadev Hydro-electric Project are two cascading hydropower projects proposed on Beas river in the Mandi district of Himachal Pradesh. Government of Himachal Pradesh vide its letter no. MPP(F)2-1/2008 dated 22<sup>nd</sup> September, 2009 has allocated these projects to Himachal Pradesh Power Corporation Limited (hereinafter called HPPCL) for their implementation and development.

As per the current development plan of river Beas, the river potential of 535 MW in a distance of approx. 150 kms between the Pandoh dam and Pong dam is proposed to be harnessed in a systematic development by implementing three cascading hydro-electric projects namely Thana Plaun HEP, Triveni Mahadev HEP and Dhaulasidh HEP.

As per the Pre-feasibility report prepared in June 2011, Thana Plaun HEP was envisaged as a storage scheme with 82.50 m high Concrete Gravity dam with an installed capacity of 141 MW comprising of 3 units of 47 MW each which will generate 367.50 GWh in 90% dependable year. Triveni Mahadev HEP was envisaged as a run-of the river development with a 33m high barrage and an installed capacity of 78 MW comprising of 2 units of 39 MW each generating 203.88 GWh in 90% dependable year.

Consequently, the Himachal Pradesh Social Impact Assessment Unit assigned the task of undertaking Social Impact Assessment of Thana Plaun Hydro Electric Project (TPHEP) to AFC India Limited. The study area was spread over in twenty-one villages of Mandi district of Himachal Pradesh. The construction of Thana Plaun Hydro Electric Project involved acquisition of 249-19-14 bighas of private land from the identified twenty-one villages of four tehsils. The notification is attached in Appendix 3 with the details of private land by Khasra Number. The number of landowners who are likely to be affected due to land acquisition as per the land records is 709, resulting in some of them losing substantial portion of their land while others marginally. The Study was undertaken during March, 2018 to June, 2018.

## 1.2. Rationale of the Project

In the context of achieving higher economic growth, accelerating urbanization and increasing population, India needs to address the higher demand of electricity in the coming few decades. The gap in the electricity demand-supply situation is highlighted by the fact that the country experienced a peak deficit of 5.2% and energy deficit of 4.2% in FY 13-14<sup>1</sup>, with the surplus western and eastern regions unable to compensate for the severely deficit northern, southern and north-eastern regions.

With almost 60 percent of its installed capacity being contributed by conventional thermal power plants, the country is keen to move towards low-carbon energy sources. Fortunately, India is rich in fast-flowing rivers that are fed by the glaciers in the mighty Himalayas – the vast water towers of Asia - and have huge potential for generating clean and renewable energy. But, building hydropower projects in the fragile, geologically-young Himalayas is not easy, and only a fourth of India's enormous hydropower potential has been harnessed so far.

Himachal Pradesh is blessed with vast hydroelectric power potential in its five major rivers. Gurgling rivers and their tributaries with steep gradient continue to challenge planners and engineers for optimal exploitation of hydropower potential. Number of hydro-electric projects are under execution by the Govt. of India, State Government, Joint ventures and by Private sector in the State. The only strategy followed in Himachal Pradesh for exploitation of hydro-electric power resources is to produce as much energy as possible and as fast as possible at minimal cost coupled with minimum environmental negative impacts. The speedy exploitation of hydro-electric power potential will definitely improve the economic health of the State because 12 percent free power plus 1% LADF on all new installations will increase the resources of the State to a significant extent.

Exploitation of this immense hydel potential can make Himachal Pradesh as one of the prosperous States in the Country and can turn the State into an electricity industry which will be able to provide adequate, reliable and quality power at competitive rates to match with the new globalized economy. The Thana Plaun Hydro-electric Project is one of the dams undertaken to generate 191 MW on river Beas in District Mandi. The exploitation of the hydroelectric potential and infrastructure development in this region will not only accelerate

---

<sup>1</sup> CEA, Load Generation Balance Report, 2014-15

the power development in the country but also extend benefits of power availability to the people of this region leading to increased industrialization, better communication and overall economic development.

### 1.3. Details of the Project

The project layout comprises of a very short water conductor system on the right bank leading to an underground power house cavity located just downstream of the toe of the dam. Thana Plaun Hydro-electric Project is conceived as storage cum run-of-the-river scheme on the Beas River with a live storage capacity of 44.93 MCM to enhance the peaking benefits during the lean months. The live storage capacity is proposed to be created up by constructing a 106.70 m high (from deepest foundation level) and 225.93m long Concrete Gravity Dam near village Thana. The head works are located approximately 40 km downstream of Pandoh Dam in Mandi district of Himachal Pradesh, about 1 km downstream of Kunkatar bridge. The design discharge is diverted through power intakes to 2 nos. of headrace tunnels leading to an underground power house through steel lined pressure shafts which are bifurcated near the power house.

Figure 1.3.1: Satellite picture of the Project location

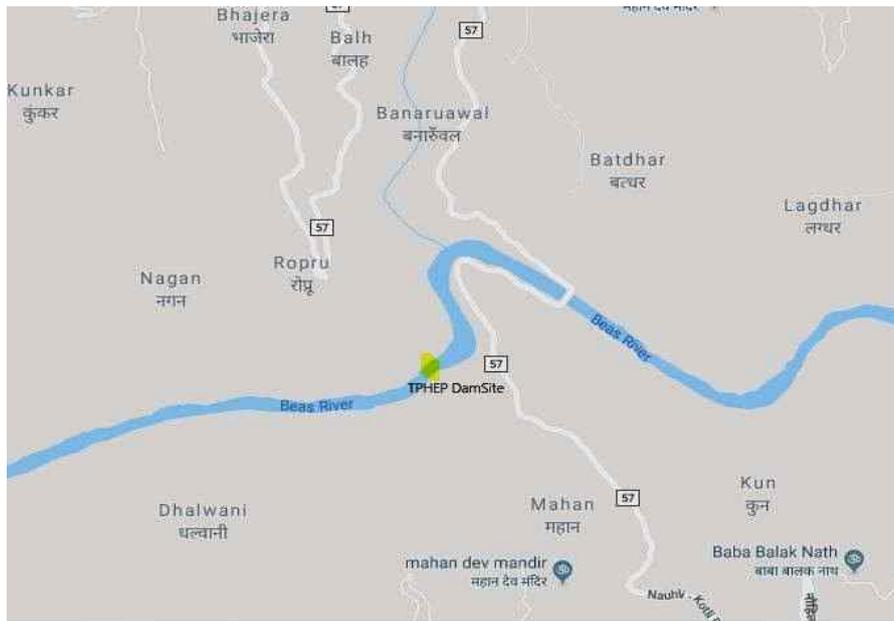

Figure 1.3.2: Map of the Project location (not to scale)

The power house cavity comprises of 3 nos. of main units of 50.33 MW each and 2 nos. of environmental units of 20 MW each with a total installed capacity of 191 MW. The water coming out of the turbines is discharged back into the Beas river through 2 nos. of short tail race tunnels. The normal tail water level at the power house location is EL 634.00m with a gross head of 75.67m. The annual energy generation will be 668.07GWh in 90% dependable year at 95% machine availability.

Utilization of the water available for power generation during 90% and 50% dependable years are divided into (i) mandatory environmental flows to be released from the environmental units accommodated in the main power house itself and (ii) the balance to be utilized at the main power house. The diverted flows for power generation would be the assessed by water available minus the environmental flows to be released from the Environmental units. The environmental releases are proposed to be utilized for power generation through 2 nos. of environmental units located in the Main Underground Power house.

#### 1.4. Examination of the Alternatives

M/s SMEC India took up the feasibility studies of Thana Plaun HEP in Dec., 2011. The techno-economic studies for Thana Plaun HEP were carried out in number of stages in

order to select the most optimum alternative layout for DPR studies. After detailed deliberations and discussions, three alternative layouts were selected for the feasibility study to finalize the most desirable scheme on techno-economic considerations.

**Alternative I** –This alternative comprises of a 106.70 m high Concrete Gravity dam at village Thana approximately 1 km downstream of Kunkatar Bridge (575 m downstream of confluence of Arnodi Khad with Beas River) in district Mandi where the bed level of the river is EL 634.0m. The water will be diverted through an intake on the right bank through 6.46 km long horse shoe shape HRT leading to an open to sky restricted orifice surge shaft proposed near village Neri. From the surge shaft, the water is conveyed through penstock to a surface power house at village Guini on the right bank and then ultimately to Beas river through a short Tail race channel.

**Alternative II** –This alternative is also a development on the right bank with all the power diversion components at the same location as in Alternative -1 except that the surge shaft and power house have been shifted upstream and located on the right bank, 600 m upstream of Kandapatan Bridge. The length of HRT is 4.2 km leading to the surge shaft and power house is underground releasing the discharges back to the river through a short tail race tunnel.

**Alternative III** –This alternative is more as a dam toe type arrangement on the right bank with a short HRT of about 400 m length. The proposal comprises of head works at the same location as in Alternative -I. The HRT leads directly to pressure shaft and underground Power house located just downstream of dam and the water is discharged back into the Beas river through a short TRT of about 100 m length.

An abstract of the studies of alternatives at different stages has been described in the table 1.4.1 below. The details study of each stage is added in Appendix 2.

Table 1.4.1: Abstract of the studies of alternatives at different stages

PARAMETER	STAGE NO.	STAGE-1	STAGE-2	STAGE-3	STAGE-4	STAGE-6	STAGE-8
<b>INSTALLED CAPACITY (MW)</b>	ALT-1	105	92	--	144	159	159
	a) Main Units	(3 x 35)	(2 x 46)	--	(3 x 48)	(3 x 53)	(3 x 53)
	b) Environmental Units	--	8	--	24	26	26
			(2 x 4)	--	(2 x 12)	(2 x 13)	(2 x 13)
	ALT-3	85	94	141	141	144	144
	a) Main Units	(2 x 42.5)	(2x47)	(3x47)	(3x 47)	(3x48)	(3x48)
	b) Environmental Units	--	8	10	10	34	34
			(2 x 4)	(2 x 5)	(2 x 5)	(2x17)	(2x17)
<b>TOTAL PROJECT COSTS (CRORES)</b>	ALT-1	2116.61	--	--	2195.44	2201.93	2390.45
	ALT-3	1762.85	--	1934.13	1764.31	1789.69	1789.69
<b>ANNUAL ENERGY GENERATION (GWh)</b>	ALT-1	405.5	358.44	--	467.81	626.56	626.56
	a) Main Units	--	46	--	75.94	87.5	87.5
	b) Environmental Units						
	ALT-3	320.81	321.4	409.9	409.9	517.62	517.62
	a) Main Units	--	46	58.36	58.36	113.97	113.97
	b) Environmental Units						
<b>TARIFF FOR 90% DEPENDABLE YEAR (Rs/KWh)</b>	ALT-1	11.23	--	--	8.69	6.59	7.27
	ALT-3	11.81	--	8.96	8.09	5.96	5.96

From the above series of studies carried out to finalize the layout to be adopted for DPR and based on optimum techno-economic benefits, it emerges that ALT 3B (Dam near village Thana with a short water conductor system) with underground power station housing the main as well as the environmental units is the most techno- economically viable layout (with lowest tariff) and recommended to be adopted for completing the DPR.

### 1.5. Phases of Project Construction

It was planned to complete the construction and commissioning of the TPHEP excluding pre-construction activities in a period of 58 months. The essential pre-construction activities viz. financial closure, award of works, and access roads/camps required for start of the work was proposed for completion within 18 months after the DPR approval.

Selection of the construction equipment had been made to achieve the objective of completion of the water conveyance system in the least possible time. The method of construction and the equipment planned for various components of the project would ensure

that all construction activities after the start of the pre-construction activities such as mobilization, construction of access roads and establishment of the construction camp, would be completed within a period of 81 months allowing 6 months' time for filling and testing the water conveyance system and carrying out pre-commissioning tests on all the units. However, the construction planning would be finally carried out by the contractor suiting to the site conditions after award of the works.

### 1.6. Core Design Features

The proposed Thana Plaun HEP is a storage scheme and the water conductor system of the project is on the left bank of river Beas. The project envisages the construction of concrete gravity dam across river Beas  $\pm 106.70$  m high above foundation level. The discharges are diverted on the right bank by 2 nos. of feeder tunnels leading to an underground power house through steel lined pressure shafts which are bifurcated near the power house. The power house cavity comprises of 3 nos. of main units of 50.33 MW each and 2 nos. of environmental units of 20.00 MW each. The water is discharged back into the Beas River through a short tail race tunnel. The gross head at this location is 75.67m. Utilization of the water available for power generation during a 90% and 50% dependable years are divided into (i) mandatory environmental flows to be released from the environmental units accommodated in the main power house itself and (ii) the balance to be utilized at the main power house.

The Beas river in this reach flows in a deep gorge with sparsely inhabited area, hence most of the submerged land shall be Govt. land/Forest land with a minimum of the private land. The land required for the execution of various project components including infra structure facilities is partially private and mostly forest land. The extract salient features of the project from the DPR are reproduced in the following table 1.6.1.

Table 1.6.1: Salient Features of Thana Plaun HEP

LOCATION	
State	Himachal Pradesh
District	Mandi
River	Beas River
Location of Dam	Latitude: 31°49'28.22" (N) Longitude: 76°50'20.53" (E)
Nearest Rail head	Narrow Gauge Rail Link at Jogindernagar and Broad Gauge Rail Link is at Pathankot

Nearest Airport	Gaggal in district Kangra
<b>HYDROLOGY</b>	
River Basin	Beas
Catchment area at Dam Site	7378 sq.km
Average Discharge at dam site	107.60 cumec
Annual Runoff	5416 MCM
Standard Project Flood	10,530 cumecs
Probable Maximum Flood	16,150 cumecs
Average Annual Rainfall	1642 mm
<b>RESERVOIR</b>	
Maximum water level (MWL)	718.75 m
Full reservoir level (FRL)	716.00 m
Minimum draw down level (MDDL)	697.00 m
Gross storage at FRL	78.56 MCM
Live storage	44.93 MCM
Dead Storage + Sediment Storage + Inactive Storage	33.63 MCM
Area under Submergence at FRL	316.77 Ha.
<b>DIVERSION TUNNEL</b>	
Shape	1 No. D-shape on Left Bank
Diameter	11.0 m
Length	453.503 m
Lining Thickness	300mm (upto Springing Level)
Invert Elevation	635.50m <b>Inlet</b> , 631.0m <b>Outlet</b>
Diversion discharge (1 in 25 Years)	951 cumecs
<b>COFFER DAM</b>	
Type	Colcrete (U/S) Rockfill (D/S)
Max. Height (Upstream)	16.00 m high
Crest Elevation (Upstream)	651.00 m
Length (Upstream)	65 m
Max. Height (Downstream)	8.0m high
Crest Elevation (Downstream)	639.00 m
Length (Downstream)	42 m
<b>DIVERSION DAM</b>	
Type	Roller Compacted Concrete Dam (RCC)
Dam Top	719.00 m
Max. Height of dam above Foundation Level	106.70 m
River Bed Level	634.00 m
Deepest Foundation Level	612.23 m
Total length of dam at top	225.93 m
<b>MAIN SPILLWAY (SLUICES)</b>	
Design flood	15,640 cumecs (Routed Flood)
Type	Breast Wall Sluice Spillway
Length of spillway	85.00 m

Number of bays	5 Nos. Undersluices
Crest level of spillway	670.0 m
Spillway gates	11 m (W) x 15.2 m (H)
Bucket Invert Level and Radius	650.0 m with 35 m Radius
Energy dissipation type	Ski Jump Bucket
<b>AUXILLIARY SPILLWAY</b>	
No. of bays	1
Width of bay	4 m
Size of gate	4.00m (W) x 4.70m (H)
Design flood	37.20 cumecs
Crest level of spillway	713.00 m
Energy dissipation type	Stilling Basin
Features	Cistern Level 653.50m and 44m Length
<b>INTAKE</b>	
Type	Reservoir Intake
Shape	Bell mouth
Maximum Design Discharge	<b>Intake-1</b> – 143.78cumec <b>Intake-2</b> - 160.503 cumec (Each considering 5% overload discharge)
Invert level	684.00 m
Number of Reservoir Intakes	2
Intake gate size	<b>Intake 1</b> - 6.30 m(W) x 6.30 m (H) <b>Intake 2</b> - 7.30 m(W) x 7.30 m (H)
Trash rack in each intake	<b>Intake -1</b> - 5.0m (W) x 11.52m (H); 3 openings <b>Intake -2</b> - 5.0m (W) x 13.17m (H); 3 openings.
Intake Structure Height	35.0 m

**HEAD RACE TUNNEL**

Shape	Horse Shoe
Diameter	<b>HRT-1</b> - 6.30 m <b>HRT-2</b> - 7.30 m
Length	<b>HRT-1</b> - 108.17 m <b>HRT-2</b> - 146.89 m
Design discharge	<b>HRT-1</b> - 136.93 cumecs <b>HRT-2</b> - 152.86 cumecs

**PENSTOCK/PRESSURE SHAFT**

Type	Underground
Number	<b>Pressure Shaft-1:</b> 5.7 m dia. bifurcating into 2.65 m and 5.00 m dia. which further bifurcates into two branch penstocks of 4.25 m and 2.65 m Dia. <b>Pressure Shaft-2:</b> 6.0 m dia. bifurcating into two branch penstocks of 4.25 m Dia. each
Diameter	<b>Pressure Shaft-1:</b> 5.7m, 4.25 m and 5.00m and 2.65m <b>Pressure Shaft-2:</b> 6.0 m and 4.25 m
Length upto Bifurcation of main pressure shafts	<b>Pressure Shaft-1</b> :92m <b>Pressure Shaft-2:</b> 127 m

Grade of Steel	ASTM-537 Class II
Liner Thickness	<b>Pressure Shaft-1:</b> Varies from 16mm to 32 mm <b>Pressure Shaft-2:</b> Varies from 26mm to 34 mm
<b>POWER HOUSE</b>	
Type	Underground with Drainage Galleries
Installed Capacity	191 MW
Units	5 (3 x 50.33+2 x20.00)
Power house cavern size	145.0m (L) x 21.0 m (W) x 41.50 m (H)
Transformer Hall cavern size	127.0m (L) x 19.0 m (W) x 28.0 m (H)
C.L. of turbine	629.50 m
Type of Turbine	Vertical Francis
Design Discharge	
a) Main units	229.29 cumecs
b) Environmental Units	60.50 cumecs
Rated Head	
a) Main units	72.97 m
b) Environmental Units	73.17 m

<b>LEVELLISED TARIFF AT 50% DEP. YRS. (in Rs./KW hr)</b>	
After considering 12% free power & 1% for local area development (levelised)	6.70
<b>Period of Construction (excluding 18 months preconstruction activities)</b>	<b>58 months</b>

### 1.7. Applicable Legislations and Policies

This section discusses about the existing law and regulations of the country those are applicable to the proposed acquisition of the Thana Plaun Hydro Electric Project. It is pertinent to analyse the Acts and Policies to understand the legalities and procedures in implementing the project and to identify the gaps. Therefore, the legal framework in which the proposed acquisition will be implemented with respect to social issues has been

summarized. The applicable laws on land acquisition, rehabilitation and resettlement for the proposed acquisition of Thana Plaun Hydro Electric Project are:

- Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (RTFCTLARR Act 2013).
- Himachal Pradesh Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Social Impact Assessment and Consent) Rules, 2015.(HP RTFCTLARR Rules2015).

### **The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013**

The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act 2013, (RTFCTLARR Act 2013) replaces the Land Acquisition Act 1894, which existed from colonial times. The new RTFCTLARR Act is an attempt to revamp and make the land acquisition process more effective by addressing the major lacunae in the old Land Acquisition Act.

The Act seeks to harmonize the interests of land owners, industrialization / growth of real estate & infrastructure industries and bring in transparency in the process of land acquisition. The objective of the act is thus in line with the requirements of modern times. The Act, inter alia, contains provisions pertaining to mandatory rehabilitation and resettlement of those whose lands are acquired and release of payment towards fair compensation to them. Significantly, the Act provides for enhanced compensation to land owners in case of land acquisition by the government for public purposes or for Public Private Partnership (PPP) projects that may aggregate up to four times the market value in rural areas and up to twice the market value in urban areas. The Act has been hailed as beneficial and necessary to protect the interest of land holders and other affected persons.

The Act specifies provisions for land acquisition as well as R&R. Some of the major provisions are related to (A) The process of land acquisition; (B) Rights of the Project Affected Families; (C) Method of calculating compensation; (D) Rehabilitation and Resettlement, and, (E) Provisions for Infrastructural Amenities.

**(A) Process of Land Acquisition:**

- i. As per the Act, if Government intends to acquire land for a public purpose, it shall consult the concerned Panchayats in the affected area and carry out Social Impact Assessment (SIA) study, in consultation with them in rural areas. Thereafter, the SIA report shall be evaluated by an expert group. The expert group shall comprise two non-official social scientists, two experts on rehabilitation, and a technical expert on the subject relating to the project. The SIA report will be examined further by a committee to ensure that the proposal for land acquisition meets the stipulated conditions.
- ii. A preliminary notification indicating the intent to acquire land must be issued within 12 months from the date of evaluation of the SIA Report. Subsequently, the Government shall conduct a survey to determine the extent of land to be acquired. Any objections to this process shall be heard by the concerned District Collector (page 12, point 15 (2)). Following this, if the government is satisfied that a particular piece of land must be acquired for public purpose, a declaration to acquire the land is made. Once this declaration is published, the Government shall acquire the land. No transactions shall be permitted for the specified land from the date of the preliminary notification until the process of acquisition is completed.

**(B) Rights of Project Affected Families**

First Schedule of the Act has given several rights to Project affected families in terms of the market value of the land acquired. Apart from that, the Second Schedule of the Act safeguards the rights to PAFs in case of displacement through choice of selecting developed land, choice of annuity or employment, subsistence grant, interest on the compensation in case of delays, transportation cost, fishing rights etc.

**(C) Method of calculating Compensation**

The Act provides guidance on the method of calculating the compensation for the loss of land, structures, livelihoods due to the land acquisition. The minimum compensation is computed as a multiple of the total of the ascertained market value, plus value of the assets attached to the property, plus a solatium equal to 100% of the market value of the property including value of assets. The method for computation of compensation is elaborated in Chapter 8.

### **(D) Rehabilitation and Resettlement**

The RTFCTLARR Act requires R&R to be undertaken in case of every acquisition. Once the preliminary notification for acquisition is published, an Administrator shall be appointed. The Administrator shall conduct a survey and prepare the R&R scheme. This scheme shall then be discussed in the local bodies. Any objection to the R&R scheme shall be heard by the Administrator. Subsequently, the Administrator shall prepare a report and submit it to the District Collector. The Collector shall review the scheme and submit it to the Commissioner appointed for R&R. Once the Commissioner approves the R&R scheme, the Government shall issue a declaration identifying the areas required for the purpose of R&R. The Administrator shall then be responsible for the execution of the scheme. The Commissioner shall supervise the implementation of the scheme.

The following are the minimum R&R entitlements under this Act:

- i. Subsistence allowance of 3000 rupees per month per displaced family for 12 months;
- ii. The affected families shall be entitled to: (a) Where jobs are created through the project, employment for one member per affected family or (b) Rupees 5 lakhs per family; or (c) Rupees 2000 per month per family as annuity for 20 years, with appropriate index for inflation; The option of availing (a) or (b) or (c) shall be that of the affected family
- iii. If a house is lost in rural areas, a constructed house shall be provided as per the Pradhan Mantri Awas Yojana specifications. If a house is lost in urban areas, a constructed house shall be provided, which will be not less than 50 sq. mts in plinth area. In either case the equivalent cost of the house may also be provided in lieu of the house as per the preference of the project affected family;
- iv. One acre of land to each family in the command area, if land is acquired for an irrigation project if possible but the same shall be in lieu of Compensation;
- v. Rs. 50,000 for transportation;
- vi. A one-time Resettlement Allowance of Rs. 50,000.

Special Provisions for SCs and STs: In addition to the R&R package, SC/ST families will be entitled to the following additional benefits:

- i. One-time financial assistance of Rs. 50,000 per family;

- ii. Families settled outside the district shall be entitled to an additional 25% R&R benefits;
- iii. Payment of one third of the compensation amount at very outset;
- iv. Preference in relocation and resettlement in an area in the same compact block;
- v. Free land for community and social gatherings;
- vi. In case of displacement, a Development Plan is to be prepared; and
- vii. Continuation of reservation and other Schedule V and Schedule VI area benefits from displaced area to resettlement area.

**(E) Provisions for Infrastructural Amenities.**

As mentioned in the Third Schedule of this Act, for resettlement of populations, specific infrastructural facilities and basic minimum amenities such as all-weather roads, safe drinking water, proper drainage, Fair Price Shops, Panchayat Ghar, basic irrigation facility, burial and cremation ground, electricity supply to all houses, school facility, sub-health centre, etc. in the resettled villages should be provided by the requiring body.

**The Himachal Pradesh Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Social impact Assessment and Consent) Rules, 2015. (HP RTFCTLARR Rules 2015)**

The HP RTFCTLARR Rules 2015 based on the Central Act, 2013 lays out the procedure for carrying out the social impact assessment study for the purpose of land acquisition in the State of Himachal Pradesh. The highlights of the rules are (A) Conducting SIA and SIMP in accordance with Form II and III (B) Conducting Public Hearings (C) Consent

**(A) Conducting SIA and SIMP**

- i. Form II: The Social Impact Assessment Report shall be submitted to the State Government within a period of six months from the date of its commencement and shall include the views of the affected families recorded in writing. This form elaborates the structure and the content of the SIA report.
- ii. Form III: The Social Impact Management Plan enlists the ameliorative measures required to be undertaken for addressing the impact of the project and shall be

submitted along with the Social Impact Assessment Report. This form provides a guideline on the content of the SIMP.

The Form II and Form III are enclosed with this report in Appendix 4.

**(B) Conducting Public Hearing -**

- i. Public hearings shall be organised in the affected areas to bring out the main findings of the Social Impact Assessment, seeking feedback on the findings and to seek additional information and views for incorporating the same in the final report.
- ii. The date and venue of the public hearing will be announced and publicized three weeks in advance through public notifications and posters in all the villages within a radius of five kilo meters of the land proposed to be acquired, by advertisement in local newspapers, broadcasting in radio, and through direct communication with Gram Panchayat or Municipal Ward representatives besides uploading the information on the website of the State Government.
- iii. The Social Impact Assessment report and the Social Impact Management Plan shall be made available in both Hindi and English to the concerned Panchayat or Municipality or Municipal Corporation, as the case may be, at village level or ward level in the affected areas and in the offices of the District Collector, the Sub-Divisional Magistrate, Tehsildars and shall also be uploaded on the website of the State Government.
- iv. Representatives from the Requiring Body, designated Land Acquisition and Rehabilitation and Resettlement Functionaries, Public representatives, Local Voluntary Organisations and media shall also be invited to attend the public hearings.
- v. The proceedings of the public hearing shall be video recorded and transcribed accordingly. This recording and transcription shall be submitted along with the final Social Impact Assessment Report and Social Impact Management Plan.

**(C) Consent**

The State Government, through the concerned District Collector shall obtain prior consent of the affected land owners in Part-A of Form-IV. At the same time State Government shall take necessary steps for updating the records relating to land rights, title in the land and other revenue records in the affected areas, so that the names of land owners, occupants of the land and individuals be identified for initiating the prior consent process and land acquisition.

- a) Consent of the Gram Sabha–**
- i. The District Collector shall in consultation with the representatives of the Gram Panchayat notify the date, timing and venue for holding the meeting of Gram Sabha in the affected areas three weeks in advance and conduct public awareness campaigns to motivate members of the Gram Sabhas to participate in the said meeting.
  - ii. The names and signatures of all the members who attended the meeting shall be taken and kept in the records.
  - iii. The quorum shall be the same as prescribed in the Himachal Pradesh Panchayati Raj Act, 1994 (Act No. 4 of 1994), of the total members of the Gram Sabha for considering the consent as valid.
  - iv. A resolution shall be passed with majority, in Part-B of Form-IV giving or withholding consent for the proposed acquisition and the resolution shall contain the negotiated terms and conditions for Rehabilitation and Resettlement, compensation, impact management and mitigation that the Requiring Body has committed and which have been signed by the District Collector or by the designated district officer along with the representative of the Requiring Body.
- b) Consent of the Affected Land owners-**
- i. A signed declaration shall be obtained during affected land owners meeting in the presence of district officers, competent authority of requiring body and SIA team, whether he or she gives or withholds consent for the acquisition of land involved. This entire meeting will also be video recorded and complete proceedings will be documented in writing.
  - ii. The outcome of the consent process will be made available in the office of Gram Panchayat and on the web site of the State Government.

*Note: HPPCL, being a PSU of Govt. of India and land proposed for acquisition fall within the ambit of Section-2 (1), therefore, Section-2 (2) reads with Chapter III of HP Rules 2015 i.e. Consent Provision in this case is not applicable.*

\*\*\*\*\*

## **Chapter 2: Approach and Methodology**

## 2. Approach and Methodology

### 2.1. Study Objective and Approach

The study has been designed with a methodology using qualitative and quantitative analysis. All the landowners in the twenty-one villages of Mandi district comprising about 709 families having ownership rights over 249-19-14 bighas of private land that is proposed for acquisition were taken up for the study. For the purpose of household survey, a Survey Questionnaire was developed by the team and vetted by HP SIAU before adoption. The team commissioned by AFC collected and analysed both qualitative and quantitative data secured through primary and secondary sources. The study tools included Questionnaire for securing information at household level supplemented with Social Mapping, Focused Group Discussions (FGDs), Participatory Rural Appraisal (PRA) techniques at community level and conducting Key Informant Interviews with village level officials (Pradhans, Ex-Pradhans of affected Gram Panchayats).

**Aim of the Study:** The aim of the study is to conduct a social impact assessment study in accordance to Himachal Pradesh Right to Fair Compensation and Transparency in Land Acquisition Rehabilitation and Resettlement (Social Impact Assessment and Consent) Rules, 2015

**Study Objectives:** The objective of Social Impact Assessment (SIA) was to prepare a complete inventory of structures, project affected families and persons to identify social impacts. In order to capture data for the present exercise, numerous secondary data sources were consulted besides primary data secured from the field. A list of all stakeholders was prepared which would directly be affected by the project as per the Revenue Department's records. Thus the following were the main objectives of the study:

- a) Rationale for the project including how the project fits the public purpose criteria listed in the RTFCTLARR Act, 2013.
- b) Based on the land assessment, land records and field verifications, the Social Impact Assessment shall provide an estimate of the number of affected families and the number of displaced families among them and ensure that, as far as possible, the Social Impact Assessment team shall enumerate all affected families in the project area. Wherever

enumeration is not possible; a representative sample shall be done by the Social Impact Assessment Unit (SIAU).

- c) A socio-economic and cultural profile of the affected area to be prepared based on available data and statistics coupled with field visits and consultations as per Form-II of the aforesaid rules. The identified resettlement sites to be visited and a brief socio economic profile of the land and its current resident population shall be indicated.
- d) On the basis of the data collected through the processes listed above and in consultation with the affected families and key stakeholders, the social impact assessment of the proposed project shall identify and assess the nature, extent and intensity of the positive and negative social impacts associated with the proposed project execution and land acquisition.
- e) The social impact assessment process includes the preparation of a **Social Impact Management Plan**, which will present the ameliorative measures to be undertaken to address the social impacts identified in the course of the assessment.
- f) The project affected families remain at risk of being economically or socially worse, as a result of the said land acquisition and resettlement. The Social Impact Assessment provides a conclusive assessment of the adverse social impacts of the proposed project and land acquisition. The SIA also includes the mitigation measures and assesses whether the benefits from the proposed project exceed adverse social impacts of the proposed mitigation measures.

**Approach and Methodology:** The approach that was adopted to conduct social impact assessment and to prepare SIMP is described below and is structured on the scope of work as mentioned in the Term of Reference (TOR). The SIA has been prepared in accordance with the RTFCTLARR Act 2013 and HP RTFCTLARR Rules, 2015. Figure 2.1.1 below presents the approach and methodology of SIA study in the form of flow chart.

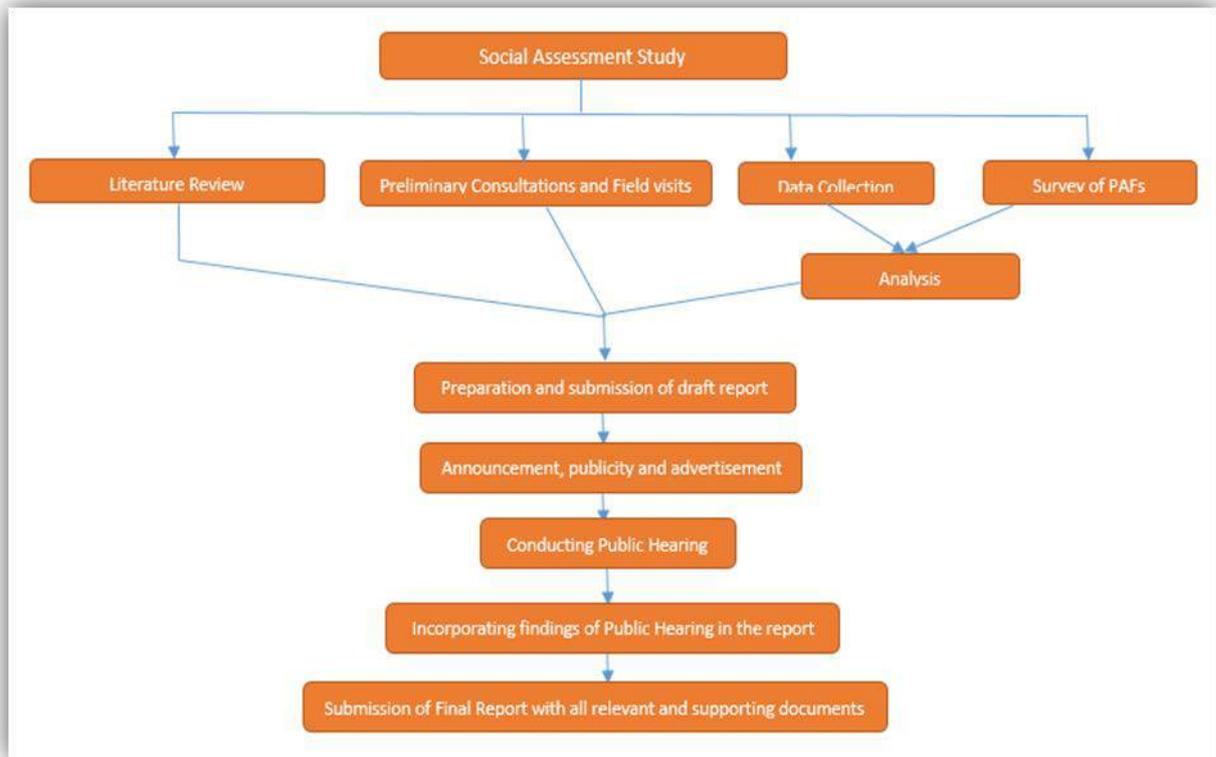

Figure 2.1.1: Approach and methodology

## 2.2. Execution of the Task

The process of preparing SIA prescribed in the RFCTLARR Act 2013 was followed through deployment of a dedicated team of investigators and enumerators in the field. A team of one Program Manager and eight Enumerators were deployed to collect the ground level data. The team was headed by a team leader having relevant experience of conducting SIA and the work was executed in close coordination with the officials of the Revenue Department.

**Desk Review:** Documents such as Revenue Maps, District Census Hand Book, District Gazetteer, District Statistics, maps and information on existing livelihood projects, Government Employment Schemes and service sectors in which people in the concerned districts/ blocks are largely involved were collected from government and non-government sources and reviewed. Collection and review of such pertinent data was primarily to develop understanding about the socio-economic conditions of the concerned area and availability of infrastructure facilities and service delivery system.

**Sampling Methodology:** For the study, the team aimed to cover all the PAFs as per the list obtained from the Revenue Department, Shimla. The primary data is generated using both quantitative and qualitative techniques:

**Quantitative Techniques:** Pre-tested structured questionnaires for Census and Socio-Economic Survey was canvassed among different PAFs.

**Qualitative Techniques:** The qualitative techniques included Participatory Rural Appraisal (PRA), construction of Vansabali (Family Tree), Livelihood Analysis, KII, Preference Ranking, Focus Group Discussion (FGD), Public Consultations etc. Public hearing was the key aspect of the whole exercise. Details of the tools and sample of respondents is given below in the table 2.2.1.

Table 2.2.1: Tools & Samples for the SIA

Tools administered	Type of respondents	Sample number
Household Survey Questionnaire	Head of the Household/Adult Member from Project Affected Families (PAFs)	878 respondents
Focus Group Discussion (unstructured)	Village Community	Three villages (Banroo Abal, Sadoh and Thana)
Key Informant Interviews (unstructured)	Village Pradhan, Women Groups and Community Leaders	In all the twelve Gram Panchayats

The total number of households to be directly affected by the land acquisition, as enlisted by the department, is 709 spread across twenty-one villages. Detailed interviews could be conducted with 878 landowners from 626 enlisted households. These 878 respondents are the current right-holders of the land to be acquired. The ownership of the land has been distributed among the children in case of death of the original right-holders. The rest landowners from 83 households could not be met since either they have migrated elsewhere, refused to participate in this survey or residing at far-off places for livelihoods sources. Details of both categories of the households (interviewed and not interviewed) are given in Appendix 3.

**Preparation of Study tools:** In order to prepare a sound resettlement plan with mode of execution and monitoring, it was pre-requisite to secure authentic information about the families that would be affected from the proposed project. For this purpose, socio-economic survey of the households in the project area was conducted along with census survey by using a detailed questionnaire containing structured and semi-structured questions (Enclosed as Appendix 1). The questionnaire covered wide range of information. Besides, some qualitative information was also collected to substantiate the quantitative information. A draft questionnaire was developed and submitted to the HP SIAU for suggestions and modification. The questionnaire was finalized after pre-testing in the field.

**Site Visit and Field Surveys:** The questionnaire was administered by professional surveyors/enumerators who were imparted with training by the team leader of SIA. They were taken to the project site for a day for knowing the project area/alignments. The emphasis was laid on quality of the data so that the conclusion arrived at would be authentic and reliable. Data generated from the survey was entered into computer on MS Excel after due scrutiny and logical checks for processing and production of output tables.

**Supervision of Data Collection and Ground Verification:** Supervision of data collection was undertaken by the Core team members and simultaneously ground verification was conducted for five to seven percent of the households covered under socio-economic survey. Survey data elicited the socio-economic conditions of the project affected households/families. Analysis of data was done on the basis of social category, gender, income category, possession of assets and consumer durables. Analysis of survey data was helpful in developing the guiding principles and entitlement matrix for different categories of Project Affected Families.

**Public Hearings and Consultations with Stakeholders:** One of the most important aspects of the study was identification and consultations with stakeholders, people's representatives, and community leaders. Consultations opened up the line of communication between various stakeholders and the requiring body, thereby aiding the process of resolving conflicts, if any, at an early stage of the project. Participation of community leaders, people's representatives, and others in the consultations helped in resolving issues.

**Social Impact Assessment & Mitigation Measures:** The SIA was prepared to address the social issues in the project area that will impact negatively on private / common / business/ cultural properties and on the people residing or doing business/ work over there. Project affected area included the area in which property/assets would be affected or from where land would be acquired for the project.

The SIA Team suggested cost-effective measures for minimizing or eliminating ill impact of the proposed project. Measures for enhancing beneficial impacts was also recommended. The cost of implementing these measures was estimated and presented wherever possible. The SIA included a plan of action, which will identify responsible key implementer, time frame and expected output.

**Information from Secondary Sources:** Information from secondary sources were collected from Census handbook, Statistical hand books, concerned Development departments and other literature available. The data secured from secondary sources complemented the facts collected through field survey from the affected households and other stakeholders. The data secured from secondary sources facilitated in getting a bird's eye-view about the physical, social, economic and cultural set-up of the community residing in the project area before undertaking detailed field investigations.

**Socio-Economic Survey:** The extent of impact on common property resources was secured during the visit to the project villages at the first instance. After enumeration of the structures likely to be affected in the project area, attempts were made to conduct household socio-economic survey to assess impact of the proposed project on socio-economic conditions of affected families. The household social survey was carried out with the help of a Household Questionnaire. The aspects covered in the questionnaire were identification particulars of PAFs, social profile, family details, occupation, source of income, family expenditure, document proofs, household assets, information on affected structure, commercial/self-employment activities, employment pattern, opinion and views of PAFs on project and resettlement and rehabilitation. Most part of the questionnaire has been pre-coded except those reflecting the opinion and views of PAFs, which have been left open-ended.

### 2.3. Team Composition

The composition of Social Impact Assessment team is given in following matrix who were assigned with the responsibility of carrying out the Social Impact Assessment. The Subject Matter Specialist possess vast experience of having undertaken similar type of work in the past.

Table 2.3.1: SIA Team Members

S. No	Name	Designation	Education and Experience	Responsibility
1	Dinesh Godiyal	Social Expert	M.Sc. in Anthropology  NABET Accredited professional for Cat. A Projects.  21 years of experience in conducting social research and surveys with various govt. and non – govt. organisation including ADB and World Bank	Overall coordination of survey, Public hearings, consultation, liaising with client and preparation of reports
2	Arijita Pal	Researcher and Team Leader	M.Phil in Regional Development.  12 years of experience in Social Development Projects with expertise in Monitoring & Evaluation and Gender Analysis	Overall coordination of survey, Public hearings, consultation, liaising with client and preparation of reports
3	Saurabh Porwal	Program Manager	MBA  15 years of experience in the Social Development and Market Research	Planning, execution and management of the data collection process, conducting FGDs, liaisoning with the stakeholders and organising consultations and public hearings
4	Ashish Kumar	Field Coordinator	B.A 15 years of field experience in Infrastructure Development, Social and Market research	Collection of data on land and structure, survey and organising consultations and public hearings
5	Md. Mahdul Shekh	Field Supervisor	B.A 8 years of experience in the field of Infrastructure Development, Social and Market research	Collection of data on land and structure, survey and organising consultations and public hearings

6	Trilok Nath Mohanto	Field Investigator	M.A 8 years of experience in the field of Infrastructure Development, Social and Market research	Collection of data on land and structure, survey and organising consultations and public hearings
7	Md. Javed Khan	Field Investigator	B.A 3 years of experience in the field of Infrastructure Development, Social and Market research	Collection of data on land and structure, survey and organising consultations and public hearings
8	Kuldeep Singh	Field Investigator	12 <sup>th</sup> 6 years of experience in the field of social development.	Conducting socio-economic survey-household interviews
9	Saurav Gupta	Field Investigator	B.A. 2 Years of experience in the field of social development.	Conducting socio-economic survey-household interviews

#### 2.4. Schedule of Activities and Deliverables

The study was completed within four months after receiving the work order from HPSIAU, Shimla. The activities undertaken and the deliverables are given in the following table 2.4.1.

Table 2.4.1: Activity Schedule and Deliverables

Year	2018																				
	April				May				June				July				August

## **Chapter 3: Land Assessment**

### 3. Land Assessment

This chapter focuses on the details of total land to be impacted by the Thana Plaun HEP including the location, total land requirement for various activities under the project and intended use of the land to be purchased under different panchayats. Available maps and primary sources including the household survey are used to explore the nature, present use and classification of the land. A brief description on the ownership pattern, transfer and use of land for the last three years would be helpful in assessment of the land under acquisition.

#### 3.1. Information from the Land Inventories and Primary Sources

The details of the purpose or intended use of the land to be acquired under TPHEP in different panchayats is given in the below table 3.1.1.

Table 3.1.1: Intended Use of Acquired Land

S. No	Name of Tehsil	Name of Panchayats	Intended Use/ Purpose of acquisition	
1	Kotli	Kot	Falls under Submergence area	
2		Dwhan		
3		Sadoh		
4		Tarnoh		
5		Khalanu		Submergence area, Dam Body, Road/Job work
6		Laghdhar		Dam Body and Roads/Job facility
7	Sadar Mandi	Tandu	Falls under Submergence area	
8		Bijni		
9		Bari Gummanu		
10	Joginder Nagar	Drubbal	Submergence area, Dam Body, Road/Job work	
11		Pipli	Falls under Submergence area	
12		Nauhli		
13		Dhar	Project Roads	
14		Langna	Dumping sites	
15	Padar	Silag	Falls under Submergence area	
16		Baridhar		
17		Kufri		
18	Dhrampur	Banal	Quarry sites	
19		Bharauri		
20		Tanehar		
21		Bahri		
22		Sidhpur		

The land under acquisition in Kot, Dwahan, Sadoh & Tarnoh in Kotli Tehsil, Tandu, Bijni & Bari Gummanu in Sadar Mandi Tehsil, Pipili & Nauhli in Joginder Nagar Tehsil and Silag, Badidhar & Kufri in Padar Tehsil would be submerged due to the storage dam. Five panchayats of Banal, Bharauri, tanehar, Bahri and Sidhpur in Dharampur Tehsil will be solely used as quarry sites. Land under proposed acquisition in panchayats of Khalanu, Laghdhar in

Kotli and Drubbal in Joginder Nagar will be used for multiple purposes including dam body, road/job work and submergence.

The proposed land under acquisition in Dhar panchayat will be solely used for Project Road construction and in Langna panchayat it will serve the purpose of a Duping site.

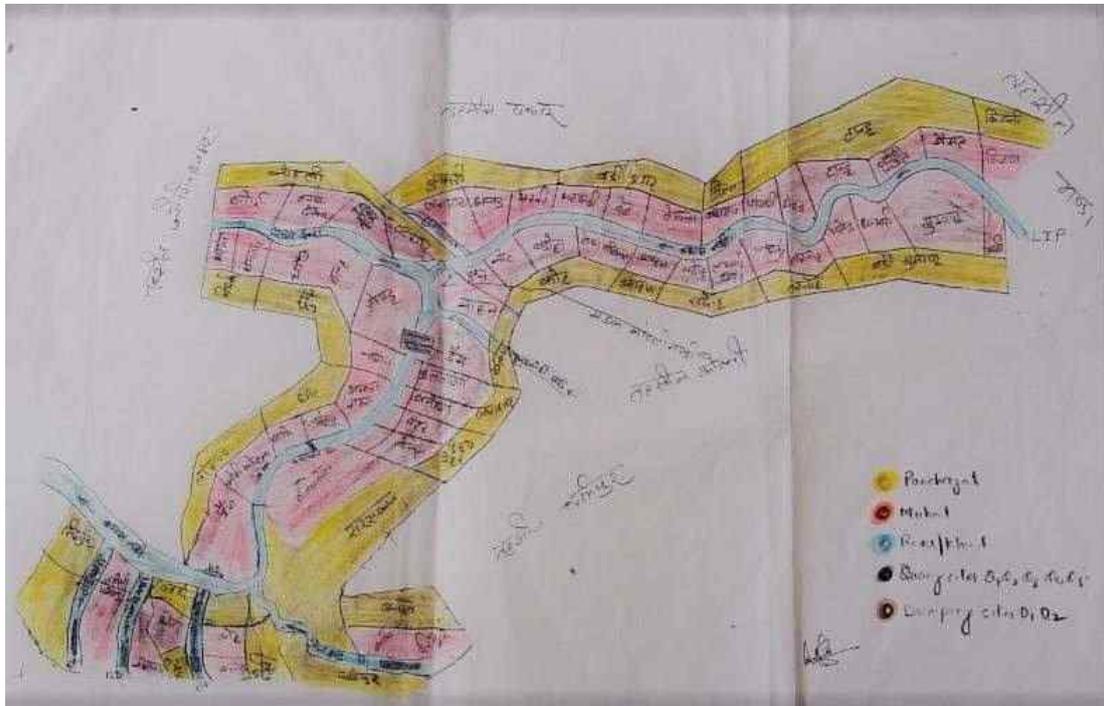

Figure 3.1.1: The location map of affected Panchayat and Muhals (hand-drawn)

The entire project affected area is picturized through the above hand-drawn map. The index of the map includes: Yellow colour represents the Panchayats, Pink represents the Muhals/Villages, Black Dots represents Quarry Sites and Dumping Sites.

Table 3.1.2: Village-Wise Distribution of Private Land (in Bigha-Biswa-Biswansi)

Name of District	Tehsil	Name of Panchayat	Name of Villages	Total Private Land (Bigha)
Mandi	Kotli	Dawahan	Dawahan	07-04-02
		Kot	Kot	04-01-07
			Koon	04-11-17
		Tarnoh	Jandrola	01-12-18
			Khadkalyana	00-02-09
		Sadoh	Sadoh	57-18-04
	Khalanoo	Mahan	21-10-11	
	Sadar	Tandu	Megal	02-17-06

Mandi		Mathanial	00-14-01
Joginder Nagar	Nohli	Banroo Dom	05-02-03
		Banroo Abal	23-18-15
		Banogi	00-02-08
	Pipli	Banwar	17-01-15
	Drubbal	Charonjh	00-00-12
		Ropru	41-13-15
Balh		20-08-04	
Padhar	Silag	Badagaon	07-16-13
	Badidhar	Wah	02-14-18
		Bewla	08-12-02
		Bhatwari	06-03-05
	Kufri	Jhannad	15-12-09
Dharampur	Forest and government land to be acquired only		
<b>Grand Total</b>			<b>249-19-14</b>

The total private land area to be acquired under Thana Plaun HEP is 249 Bigha 19 Biswa and 14 Biswansi. The land acquisition will take place in twenty-one villages of twelve Gram Panchayats of Mandi district. Private land was found to be owned by 709 landowners, the details of which are provided in Appendix 3. The distribution of the private land is given the following graph:

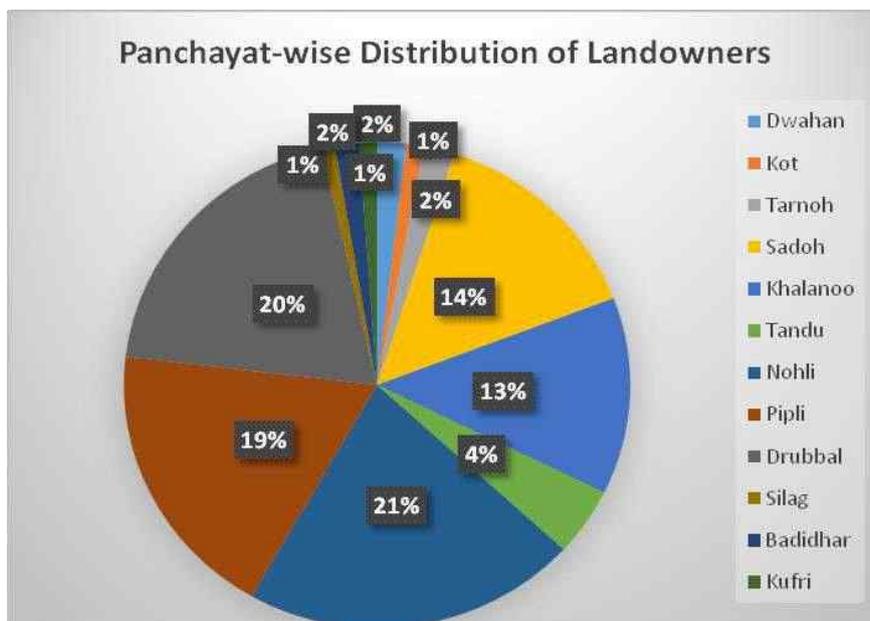

Figure 3.1.2: Panchayat-wise Distribution of Landowners

The total private land under proposed acquisition is spread over twelve Gram Panchayats. Nohli GP has the highest (21%) share of land under this Land Acquisition, followed by Drubbal (20%) and Pipli (19%). Each of Kufri, Kota and Silag GP almost possess 1% of the private land.

Table 3.1.3: Village-wise Distribution of Landowners

Tehsil	Gram Panchayat	Villages	Number of Landowners
Kotli	Dwahan	Dawahan	13
	Kot	Kot	2
		Koon	6
	Tarnoh	Jandrola	7
		Khadkalyana	7
	Sadoh	Sadoh	101
Khalanoo	Mahan	93	
Sadar Mandi	Tandu	Megal	18
		Mathanial	14
Joginder Nagar	Nohli	Banroo Dom	39
		Banroo Abal	92
		Banogi	21
	Pipli	Banwar	132
	Drubbal	Charonjh	3
		Ropru	53
Balh		83	
Padhar	Silag	Badagaon	6
	Badidhar	Wah	3
		Bewla	5
		Bhatwari	3
	Kufri	Jhannad	8
<b>Total</b>			<b>709</b>

Village wise distribution of landowners revealed that maximum number of 132 landowners belong to Banwar village, followed by 101 in Sadoh. On the contrary, there were only two landowners in Kot village and three landowners in villages of Charonjh, Wah and Bhatwari. The details are given in the above table.

### 3.2. Area of impact under the influence of the project

Apart from above-mentioned Panchayats the adjoining panchayats as per the table 3.2.1 would be indirectly affected by the construction activities despite not coming under any acquisition plan:

Table 3.2.1: Adjoining Panchayats affected by TPHEP

S. No	Name of Panchayats	Purpose / Reason of Affects
1	Hyun Paher	As this panchayat is adjacent to the Dhar panchayat, the noise pollution / dust due to movement of vehicle/ machinery for building roads will affect in the panchayat area.
2	Saraskan	This panchayat is located between quarry site and the dam site, hence noise pollution / dust due to movement of vehicle/ machinery will affect in the panchayat area.
3	Dharampur	This panchayat is adjacent to the panchayats having quarry sites hence it will also be affected by the vehicle movement.

Existing basic amenities like schools, hotels, health facilities and local shops would also be affected. However, most affected would be the land owners and the villages where land will be acquired.

### 3.3. Total land requirement for the project

The total land requirement for the Thana Plaun HEP is 432.67 hectares. Out of total, 62% is Forest Land, 31% is Government Land and only about 6% is Private Land. This is to be mentioned that after the final clearance of the State Government, the estimates may change.

Table 3.3.1: Total Land Requirement for Thana Plaun HEP (191 MW) (Land in Hectare)

S. No	Description	Total	Percentage
1	Forest	269.65	62.32%
2	Government (Deemed Forest)	135.8	31.39%
3	Private (Deemed forest Kiam vani)	1.34	0.31%
4	Private	24.88	5.75%
	Total	432.67	100.00%

### 3.4. Present use of any public, unutilized land in the vicinity

There is no public, unutilized land in the vicinity of the proposed dam site.

### 3.5. Land already purchased and intended use

At the time of the preparation of this SIA report, the Requiring Body has not purchased or taken lease of any land for the project activities.

However, the intended use of the proposed land for acquisition is provided in the table 3.5.1. More than 75% of the acquired land will be submerged. Almost 10% will be used for quarrying. Around 5% of the land will be used for Road or Job facility, 4% will be used for Dam body and its components, 2.39% land will be used for Dumping Site and 1.39% will be used for building the Colony. The share for each of the project activities may differ if the project activities or the requirements of the land alter.

Table 3.5.1: Intended Use of the Land under Planned Acquisition

S. No	Description	Land Required in Hectares	Percentage
1	Submergence	330.21	76.32%
2	Dam body and its components	17.34	4.01%
3	Road/ Job facility	21.83	5.05%
4	Quarry	45.94	10.62%
5	Dumping sites	10.35	2.39%
6	Colony	6	1.39%
	Total	432.67	100.00%

### 3.6. Quantity of land and Location proposed for the project

The proposed Thana Plaun Hydro-electric Project is located in Mandi district of Himachal Pradesh which intercepts an area of 7378 sq.km, lies between Longitude 76 degrees 15 minutes East to 77 degrees 45 minutes East and 35 degrees 45 minutes North to 32 degrees 30 minutes North. The entire catchment comprises of mountainous terrain with steep hill slopes and is very thinly populated.

The dam site is located at Longitude 76 degrees 50 minutes and 20.53 seconds (East) and Latitude 31 degrees 49 minutes 28.22 seconds (North). Project is located about 500 meters downstream at the confluence of Rana Khad with River Beas near village Thana and

Kunkatar Bridge (Figure 3.6.1) in Tehsil Jogindernagar, District Mandi Himachal Pradesh. Proposed layout has a dam toe type of arrangement. The complete project including the dam site and the underground power house location are presently accessible from the Joginder Nagar- Neri- Dharampur highway through existing metaled approach roads constructed by PWD. The Diversion dam and Power house are situated near village Thana in Gram Panchayat Drubbal of Tehsil Jogindernagar. The nearest Narrow gauge rail head is at Jogindernagar and Broad gauge rail head is at Una.

Figure 3.6.1: Kunkatar Bridge plays an important role in communication between the affected areas

### 3.7. Nature, Present use and Classification of the land

At an aggregate level, 65% of the total private land under proposed acquisition comprises of cultivated land. In the table below, the distribution of cultivated and non-cultivated land in each of the 21 villages is represented. In Bewla village, 97% of the land proposed for acquisition is cultivated, followed by 94% in Badagaon, Dawanhan, 93% in Kot, 92% in Koon and 91% in Jandrola, Wah and Bhatwari.

In cases of Khadkalyana, Mathaniul, Banaroo Dom, Banogi, Charonjh and Jhannad, the entire land under proposed acquisition is non-cultivated. The share of cultivated and non-cultivated land in each of the affected village presented in the following table.

Table 3.7.1: Village-wise Distribution of Land- Cultivated and Non-Cultivated

Tehsil	Gram Panchayat	Village	Cultivated	Non-cultivated
Kotli	Dwahan	Dawahan	94%	6%
	Kot	Kot	93%	7%
		Koon	92%	8%
	Tarnoh	Jandrola	91%	9%
		Khadkalyana	0%	100%
	Sadoh	Sadoh	79%	21%
Khalanoo	Mahan	47%	53%	
Sadar Mandi	Tandu	Megal	21%	79%
		Mathaniul	0%	100%
Joginder Nagar	Nohli	Banroo Dom	0%	100%
		Banroo Abal	61%	39%
		Banogi	0%	100%
	Pipli	Banwar	77%	23%
	Drubbal	Charonjh	0%	100%
		Ropru	69%	31%
Balh		49%	51%	
Padhar	Silag	Badagaon	94%	6%
	Badidhar	Wah	91%	9%
		Bewla	97%	3%
		Bhatwari	91%	9%
	Kufri	Jhannad	0%	100%
<b>Total</b>			<b>65%</b>	<b>35%</b>

#### Nature and Present Use-

The land under proposed acquisition is a mix of relatively plain land suitable for agriculture and land with rock outcrop or steeper rock-filled surface unsuitable for farming on both side of the river bank.

Presently, the land under acquisition is being utilized for residential purposes, cattle rearing, growing fruit-bearing and other trees, grazing etc.

#### Soil type-

The soil in the project affected area in general is quite shallow gravelly, impregnated with weathered fragments of parent rocks. The soils have developed under unique environment of natural forest vegetation. The surface layer is of dark brown to black colour, sandy with loose and un-decomposed organic matter and richer in humus with increasing depth.

Natural agents like water and in weathering rocks in various ways, resulting in soil formation. The mountainous soil found in Mandi district is brown in colour, medium in available nitrogen & potash and deficient in available phosphorous. The soil reaction is slightly acidic to neutral and texture in general varies from loam to sandy loam, except in low valley areas being heavy textured. The soil on the slope of the hills contains silt which is good for vegetation growth.

#### Irrigation Pattern-

The irrigation pattern for the district Mandi is given in the below tables 3.7.2 and 3.7.3. The first table reveals that the rain-fed area covers a large portion of the agricultural land, while the second table showcases the various types of irrigation methods practiced in the district. Irrigation through canals covers more than 76.2% of the irrigated land, while 19.3% of the irrigated land is benefitted from the lift irrigation method. Nonetheless, Bore Wells and Micro-Irrigation methods also contribute to the irrigation facilities significantly.

Table 3.7.2: Status of Irrigation

Status of Irrigation	Area ('000 ha)
Net irrigated area	15.1
Gross irrigated area	25.8
Rain-fed area	70.7

\*Source: District Mandi Statistical Report 2008-09

Table 3.7.3: Types of Irrigation Used

Type of Irrigation	Percentage of Net Irrigated Area
Canals	76.2%
Tanks	1.2%
Open wells	0.1%
Bore wells	2.9%
Lift Irrigation	19.3%
Pump-set	0.2%

Micro-irrigation	2.1%
------------------	------

\*Source: District Mandi Statistical Report 2008-09

Artificial irrigation is entirely from Kuhls or small water courses taking out from the minor streams and hill torrents. There is no irrigation from Beas river while the riverbeds of the main tributaries are usually too deep in their lower courses to permit of large areas being watered. Irrigation is one of the most important field of development under the agriculture programme to enhance the agriculture productivity. A sizeable part of cultivated area is not having the assured irrigation facilities and the agriculturists have to depend on the vagaries of weather in the district. The construction of Kuhls and undertaking lift irrigation schemes are being carried out under various plans. The lift irrigation has been introduced and shallow wells have been dug by employing German rigs supplied under the Indo-German Agriculture Projects in the valley areas.

The gravity irrigation schemes are also being executed making productive use of the stream flow. Sprinkle irrigation was introduced in Balh valley and the system has become popular and extends to lower areas. The tube-wells are also introduced in Balh valley. A more efficient system of irrigation with underground air-conditioned pressure pipes connected directly with the centrifugal pump and which lift out for irrigation protected with alfa-alfa valves has been introduced. <sup>2</sup>

#### Cropping Pattern-

In Himachal Pradesh, food-grains dominate the cropping pattern. During the household survey in the affected area, it was found that there are mainly three types of crop viz., Wheat, Maize and Rice, which are produced during different seasons in the project affected land. Wheat is sown during October-November. In case of rice and maize, the sowing is done during the rainy seasons and harvested in the winter months. Apart from the mentioned crops, many of the respondents shared that they grow seasonal vegetables and fruit trees like mango in the area.

---

<sup>2</sup> 2011. District Census Handbook, Mandi. Directorate of Census Operations, Himachal Pradesh

### 3.8. Size of Holding, Ownership Pattern, Land Distribution and Residential Houses

#### Size of Holding-

The share of marginal, small and semi-medium farmers is very high in Mandi district. There is a preponderance of small land holdings in the entire state. According to 2010-11 Agricultural Census, the holdings of less than one hectare accounted for 69.8 per cent of the total holdings whereas the area covered by these holdings formed only 28.6 per cent of the total area. If small farmers are also taken into account with marginal farmers, then the percentage of holdings comes to 88.0 whereas the area coverage upto 2.0 hectares' size-class is only 25.6 percent. The Average size of holding was 1.0 hectares in 2010-11<sup>3</sup>.

Table 3.8.1: Number of Operational Holdings by Size Class in Mandi District

Marginal (less than 1.00 hect.)		Small (1.00 to 2.00 hect.)		Semi-Medium (2.00 to 4.00 hect.)		Medium (4.00 to 10.00 hect.)		Large (10.00 hect.&above)	
No. of holding	Area (Hect.)	No. of holding	Area (Hect.)	No. of holding	Area (Hect.)	No. of holding	Area (Hect.)	No. of holding	Area (Hect.)
111710	48611	30301	41751	10735	28322	1519	7831	37	535

\*Source of data: 2015-16, Statistical Abstract of Himachal Pradesh

#### Ownership Pattern –

In Himachal Pradesh, land rights are only passed onto from one generation to the next. As per the state rules, any migrant cannot buy a land in the “Devbhoomi”. Therefore, the land here is an ancestral property and it only gets distributed to the children/wife equally unless their Will says otherwise.

In many cases, it is observed that the names of the present land owners not yet updated with the Revenue Department even after the demise of the original landowner.

#### Residential Houses-

A total of eight residential houses were identified which will be affected due to submergence or other project related activities. These eight residential houses are located in villages of Ropru, Banaroo Abal, Mahan and Sadoh. Out of these eight, five are pucca houses (permanent type- built with RCC and made into single/double story buildings) and three kachha houses (semi-permanent in its built, with tiled roof and cement floor) or huts

<sup>3</sup> 2015-16, Statistical Abstract of Himachal Pradesh, Directorate of Economics and Statistics

(temporary buildings made with mud/rick/wood and thatched or tin roof). Other than these, 12 cattle sheds were also identified which may be affected due to the submergence and other project activities. The details of these structures are given in the below table:

Table 3.8.2: Houses/cattle Sheds affected due to submergence/ TP HEP activities

Name of Villages	Pucca House	Kachha House	Cattle Shed
Ropru	3	1	2
Banroo Abal	0	1	2
Mahan	1	0	2
Sadoh	1	1	5
Dawahan	0	0	1
Total	5	3	12

#### Other Privately-owned Assets-

A total of 345 respondents shared that there is a structure in their land that will be affected by the project activities while the rest of the land doesn't have any structure. Here to mention that structures comprise of Houses, Huts, Gharats<sup>4</sup> and Cattle sheds. While the structures like houses, huts and cattle sheds are under individual ownership, the Gharats have multiple ownerships. Almost 8 (1% of 879) respondents shared that their structures in the affected land will be completely destroyed or submerged due to the project activities.

In total, a total of 38 Gharats and Kulhs spread across 14 villages in various working conditions are going to be affected by the proposed land acquisition. The details of Gharats (including Kulhs) to be submerged are as follows:

Table 3.8.3: Details of Gharats affected due to submergence/ TP HEP activities

Name of the Villages	Status of Gharats		
	Working	Non-working	Kulhs
Ropru	1	NA	NA
Balh	4	NA	NA
Charonjh	NA	1	NA
Banwar	4	3	1
Banogi	1	NA	1
Banaroo Dom	2	1	
Banaroo Abal	3	1	4

<sup>4</sup> Gharats are traditional watermills- a community-owned property, specific to the Himalayan region. These Gharats generally have with a large number of owners to whom ownership is passed on to from earlier generations.

Mahan	NA	2	NA
Sadoh	1	NA	NA
Dawahan	1	NA	1
Khadkalyana	1	1	1
Jandrola	NA	1	NA
Badagaon	NA	1	NA
Pakhri (Tandu) Govt land	1	NA	NA
Total	19	11	8

Out of 38, 19 Gharats are in working condition while 11 have stopped functioning in the recent past. There are eight Kulhs (water channels) existing within the land proposed for acquisition for TPHEP.

### 3.9. Land Prices and Recent Change in Ownership, Transfer and Use of land over the last 3 years

The circle rates for the last three years (2016-17, 2017-18 and 2018-19) were obtained from the Revenue Department for the below mentioned categories-

Category 1: 0-25 metres

Category 2: 25-50 metres (20% < Base Rate)

Category 3: 50-100 metres (40% < Base Rate)

Category 4: 100-1000 metres (50% < Base Rate)

Category 5: Above 1000 metres (60% < Base Rate)

The various rates are available for each sub-category of cultivated and non-cultivated lands situated at varied distance from the National Highway, State Highway or Other Roads.

The prices for cultivated and non-cultivated lands in different villages under the respective Patwar Circle are presented in the below table 3.9.1. The presented circle rates are in rupees per Biswansi of land and highest among the prevailing rates over the last three years.

Table 3.9.1: Land Type-wise Circle Rates of Land (Fig. in Rupees per Biswansi)

Highest Circle Rate in Three Years 2016-2018 by Location (Per Biswansi)														
Tahsil/Sub Tehsil	Patwar Circle	Panchayat	Village	Particulars	Category 1 (0-25 mtr)		Category 2 (25- 50 mtr)		Category 3 (50 - 100 mtr)		Category 4 (100 - 1000 mtr)		Category 5 (1000 mtr and above)

#### Recent changes in the ownership of land-

The SIA team has not come across any changes in the ownership over a period of last three years. As compared to the list provided by the HP SIAU, the only exception is in case of death of any landowner, the ownership of land has got automatically distributed to their children/wife equally. These changes in the ownership have not been recorded with the Revenue Department as yet.

Many of the current landowners shared that after the marriage of their sister/s, the brothers are the practical owners of the land as they are protecting the land and also producing agricultural products. According to many respondents, it is one of main sources of their livelihoods and dividing the land further would leave them economically vulnerable. They also shared that the sisters are engaged in farming of the land under the ownership of their marital family. Although in many cases, the sisters have verbally transferred the ownership to their brothers, none of the transfers has been registered with the Revenue Department yet.

\*\*\*\*\*

## **Chapter 4: Estimation and Enumeration of Project Affected Families and Assets**

## 4. Estimation and Enumeration of Project Affected Families and Assets

### 4.1. Directly affected (Land losers)

The directly affected panchayats are Dwahan, Kot, Tarnoh, Sadoh, Khalanoo, Tandu, Nohli, Pipli, Drubbal, Silag, Badidhar and Kufri. In these panchayats, there are a total of 709 land losers. The table 4.1.1. provides the distribution of families affected due to land acquisition. Nohli Gram Pachayat has the highest number (152) of directly affected families, followed by Drubbal (139) and Pipli (132).

Table 4.1.1: Distribution of families affected due to land acquisition

Tehsil	Gram Panchayat	Villages	Number of Landowners
Kotli	Dwahan	Dawahan	13
	Kot	Kot	2
		Koon	6
	Tarnoh	Jandrola	7
		Khadkalyana	7
	Sadoh	Sadoh	101
Khalanoo	Mahan	93	
Sadar Mandi	Tandu	Megal	18
		Mathaniual	14
Joginder Nagar	Nohli	Banroo Dom	39
		Banroo Abal	92
		Banogi	21
	Pipli	Banwar	132
	Drubbal	Charonjh	3
		Ropru	53
Balh		83	
Padhar	Silag	Badagaon	6
	Badidhar	Wah	3
		Bewla	5
		Bhatwari	3
	Kufri	Jhannad	8

During the household survey, it was found that in 12 villages, 127 landowners will lose 100% land. However, many of these landowners have ownership of land in more than one location. It should be mentioned here that, the final estimation of the land losers losing 100% land should be conducted by the competent authorities of the State govt.

Below are some specific categories of the affected families:

- A. No tenants in the land proposed for acquisition were reported during the interviews by SIA team in the surveyed villages. All the affected families use the houses for staying with their families and the land to be cultivated by themselves.
- B. There is only one ST respondent during the survey. However, traditional forest dwellers who may have lost their forest rights could not be identified in the surveyed villages.
- C. Most of the families depend on the common property resources such as the grazing land partially for the rearing of livestock while a few of them also collect firewood and leaves for household usage. Therefore, the planned land acquisition will not deprive them of their livelihoods fully.
- D. The SIA team has not come across any family living in a land assigned by the state government under any scheme and such land in under acquisition.
- E. Almost 34% of the respondents of household survey shared that they have been earning their livelihoods solely from agriculture. However, the dependence on land being acquired is huge even for the rest of the population as agriculture has been practiced as a tradition.

#### 4.2. Indirectly impacted by the project

As per the data available with the SIA team and study of the various acquisition related documents, following Muhals/Villages were identified to be affected indirectly by the project activities. However, there will be no acquisition of the private land from these villages.

Table 4.2.1: Villages and Panchayats indirectly affected by TPHEP

Tehsil	Panchayat	Village / Muhal
Kotli	Kot	Baroha
		Ropa Matyal
	Tarnoh	Tarnoh
	Laghdhar	Dhalwani
Joginder Nagar	Drubbal	Nagan
	Nohli	Bharmera
		Batdhar
	Dhar	Pabo
		Jamehar
Ambe-Ra-Gahra		

	Langna	Neri Kotla
		Prain
Padhar	Kufri	Lagdhar
		Tharki
Sadar Mandi	Tandu	Tandu
		Mehar
		Pakhari
	Bari Gumanoo	Dhanyari
		Bhaled
		Arthi
Dharampur	Banal	Banal
		Riyur
	Bharauri	Kot
	Tanehar	Tanehar
		Naraingarh
	Bahri	Balra
		Thati
	Sidhpur	Sidhpur
		Tatoli Pardana

All families residing in the above-mentioned (table 4.2.1) 29 Muhals/Villages of 15 panchayats spread over five tehsils will be indirectly affected due to the government/forest land to be acquired under TPHEP. In the most affected villages where private land will be acquired, other families will also be indirectly affected.

Besides above mentioned panchayats, there are three panchayats namely Hyun Paher, Saraskan and Dharampur which would also be affected due to various project activities. Although there is no private land acquisition proposed for these locations, residents of these panchayats will be affected due to the noise pollution, dust and frequent vehicle movements.

#### 4.3. Inventory of productive assets and significant lands

The details of productive assets are mentioned as below:

##### Common Property Resources-

The Lift Water Schemes are facilitated by the Agriculture department for the promotion of agriculture and diversification through subsidized water lifting equipment. Six of such

schemes in the villages of Banroo Abal, Banogi, Ropru, Balh, Banwar and Sadoh will be submerged due to the TP HEP activities. The details of the schemes and water sources are given in the following table:

Table 4.3.1: Lift Water Schemes to be submerged under TP HEP

Name of Panchayat	Villages	No. of Schemes	Source of Water
Nohli	Banroo Abal	1	Rana Khad
	Banogi	1	Rana Khad
Drubbal	Ropru	1	Rana Khad
	Balh	1	Rana Khad
Pipli	Banwar	1	Rana Khad
Sadoh	Sadoh	1	Beas River

There are three religious structures including one temple and two Hanuman sculptures that would be submerged due to the project activities. These are located along Rana Khad in Banogi village, Beas river in Khadkalyana village and Arnodi Khad in Mahan village. The details are given in the table below:

Table 4.3.2: List of Temples/Sculptures to be submerged under TP HEP

Name of Panchayat	Villages	Name of Temple/Sculpture	Nos.	Located by
Nohli	Banogi	Budda Banog	1	Rana Khad
Tarnoh	Khadkalyana	Sculpture of Hanuman	1	Beas River
Khalnoo	Mahan	Sculpture of Hanuman	1	Arnodi Khad

The affected villages are connected through a number of Ropeways, Suspension and Footbridges. These carry a lot of importance in the lives of the existing population as the road network is poor and takes hours to reach the other side of the valley by road. The lists of Ropeways and Bridges to be submerged due to the project are provided in the below tables 4.3.3 and 4.3.4:

Table 4.3.3: List of Ropeways to be submerged under TP HEP

Sr. No.	Name of Panchayats	Connecting Villages
1	Tarnoh & Badidhar	Khadkalyana & Bewla
2	Sadoh & Badidhar	Sadoh (Dolra Balh) & Wah

Table 4.3.4: List of Bridges to be submerged under TP HEP

Sr. No.	Name of Panchayats	Villages	Type of bridges
1	Khalnoo & Nohli	Mahan & Banroo Abal	Suspension bridge
2	Nohli & Drubbal	Banroo Abal & Ropru	Foot/ valley bridge
3	Nohli & Pipli	Bangoi & Banwar	Foot/ valley bridge

Beside these, there are 40 crematories which will also be submerged due to the proposed project activities. Out of the total cremation facilities, two have permanent structures while rest of these are open places.

As per the household survey, it was revealed that the total affected land possesses around seventeen thousand trees, 18% of which bear fruits in various seasons and the rest comprises of non-fruit bearing trees. The fruits comprise of Plum, Pear, Mango etc.

\*\*\*\*\*

# **Chapter 5: Socio-Economic and Cultural Profile**

## 5. Socio-Economic and Cultural Profile

### 5.1. Study area

Thana Plaun Hydro-Electric Project location lies in the Shiwalik range of Himalaya in the lower hills of Mandi district. The altitude of this area vary from 350 to 15000 meter and have sub-tropical climate. The socio-cultural landscape is homogeneous in nature.

Thana Plaun HEP proposes to acquire private land measuring to 249-19-14 Bigha from twenty-one villages under twelve Gram Panchayats of Mandi district in Himachal Pradesh. The affected area is predominantly agricultural and majority of the population are involved in farming. The total number of households to be affected by the proposed project is 709 as per the list obtained from the Revenue Department. Detailed interviews could be conducted with 878 landowners from 626 enlisted households. These 878 respondents are the current right-holders of the land to be acquired. The ownership of the land has been distributed among the children in case of death of the original right-holders. The rest landowners from 83 households could not be met since either they have migrated elsewhere, refused to participate in this survey or residing at far-off places for livelihoods sources. The data analysed in this chapter is based on 878 respondents interviewed by the SIA team.

### 5.2. Demographic Details

The list of landowners obtained from the Revenue Department shows that there are 709 land owners from twenty-one villages under twelve gram panchayats those will be affected by the project. The details of the basic population of these twenty-one villages are as follows:

Table 5.2.1: Population of the affected villages (as per Census 2011)

Village Name	Total Households	Total Population of Village	Total Male Population of Village	Total Female Population of Village	Total Scheduled Castes Population of Village	Total Scheduled Tribes Population of Village
Dawahan	197	885	410	475	241	0
Kot	175	730	334	396	229	0
Koon	89	417	188	229	158	0
Jandrola	99	429	218	211	0	0
Khadkalyana	54	229	111	118	15	0
Sadoh	160	673	321	352	66	0
Mahan	84	376	175	201	57	0
Megal	179	766	382	384	569	0

Mathaniual	93	460	232	228	406	0
Banroo Dom	30	132	67	65	0	0
Banroo Abal	23	104	49	55	0	0
Banogi	53	258	128	130	204	0
Banwar	42	205	107	98	73	0
Charonjh	28	111	53	58	0	0
Ropru	34	141	74	67	0	0
Balh	157	642	344	298	254	1
Badagaon	64	277	144	133	12	0
Wah	125	535	259	276	303	0
Bewla	25	113	61	52	0	0
Bhatwari	39	160	85	75	0	0
Jhannad	54	276	152	124	93	0
Total	1804	7919	3894	4025	2680	1

Table 5.2.2: Total Number of Family Members of All Respondents

S. No.	Details of Family Members	Number	Percentage
1	Male	1982	51.7
2	Female	1835	48.3
	Total	3835	100.00

The total number of members of the interviewed families is 3835, with number of male members being 1982 and female members being 1835.

Table 5.2.3: Literacy rate of Mandi district and Himachal Pradesh (as per Census 2011)

District/ State	Literacy Rate (in percentage) as per 2011 Census		
	Total	Male	Female
Mandi	81.53	89.56	73.66
Himachal Pradesh	82.80	89.53	75.93

As per the Census 2011, the male literacy was 89.56% and female literacy was 73.66% in the district Mandi. While the male literacy rate is close to the State average, the female literacy rate for Mandi was lower than the State average.

### 5.3. Poverty and Income Level

As per the household survey, almost 20% of the total respondents earn between 1 lakh to 2.5 lakhs rupees in a year. More than 14% earn less than fifty thousand in a year and another 14% earn between 2.5 lakhs to 5 lakhs rupees. A large share (27%) of the respondents could not share their annual income with the survey team.

Among the respondents, 92 hold a Below Poverty Line card issued by Himachal Pradesh government in the latest enumeration of BPL households.

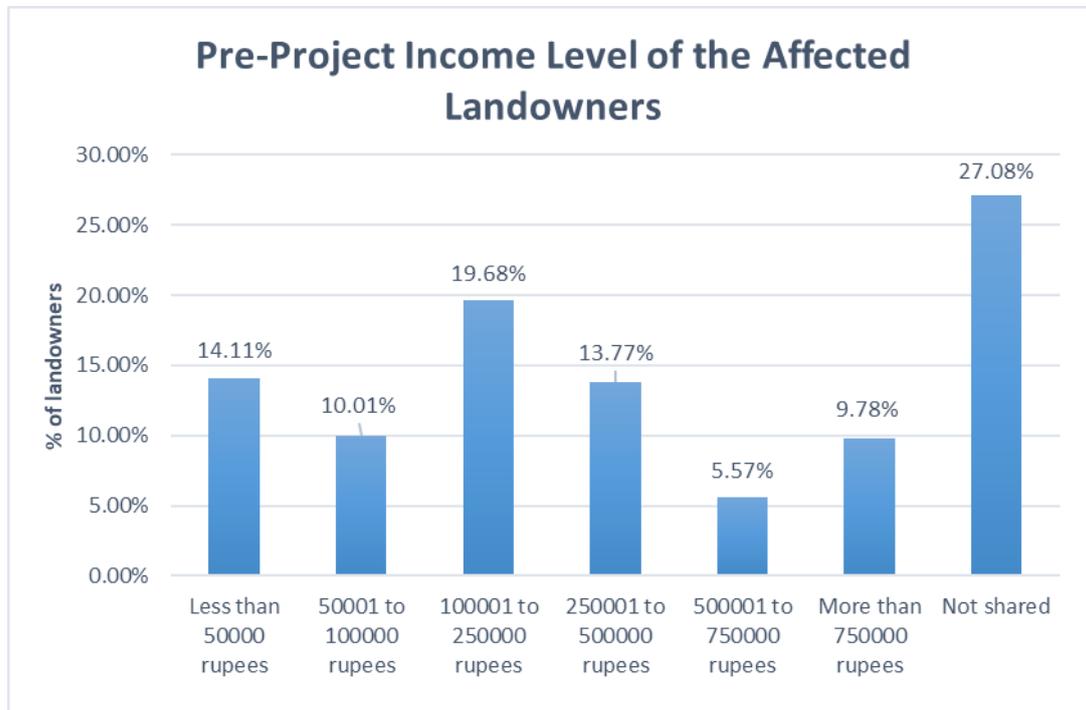

Figure 5.3.1: Pre-Project Income Levels of the Affected Landowners

#### 5.4. Social Category

The proportion of general category among the project affected households was 91%, 8% comprised of Scheduled Castes and only 1% belongs to Other Backward Classes (OBC). The SC respondents belong to Banogi, Banwar, Megal and Mahan villages while all the respondents belonging to OBC are from Mahan village. The lives of people are simple and close to the nature. They speak in a local dialect called Mandyali.

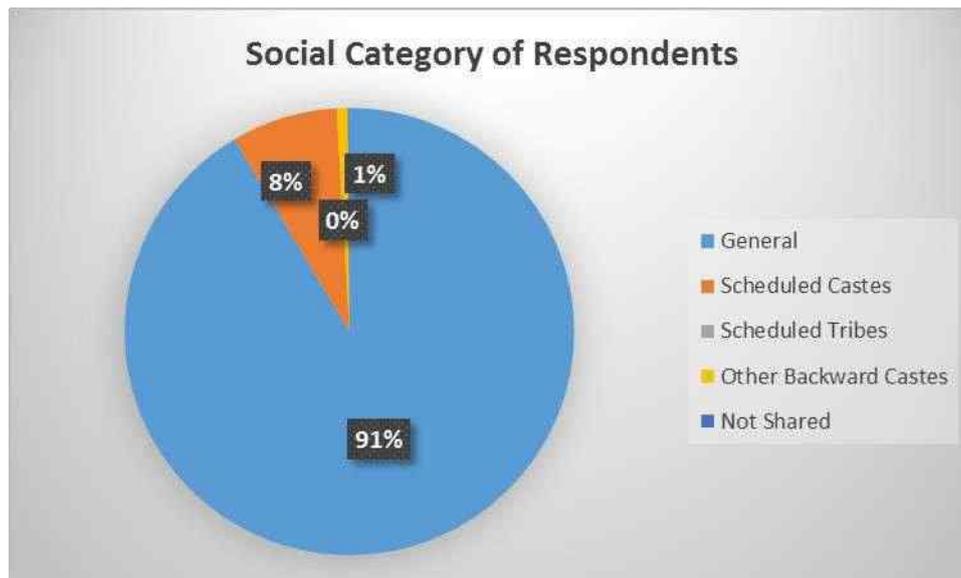

Figure 5.4.1: Composition of respondents by Social Category

### 5.5. Vulnerable Families

Out of all the families surveyed, 125 of the households are headed by women. From the survey, it was observed that 81 of the households hold BPL cards issued after the latest Himachal Pradesh government process of Below Poverty Line households enumeration. There are 52 widow/divorcee among the families surveyed. There are 16 physically/mentally challenged members and six minor orphans in the families surveyed (one each in Banroo Dom and Mahan, and four in Megal).

### 5.6. Religions

All of respondents of the survey belong to Hindu religion. Only one of the respondents did not share about the religious practices. The worship of Kuldevis and Devtas are traditionally common in the area. Besides special religious festivals, people gather in the religious places like temples to offer prayers and worship their respective deities regularly.

### 5.7. Sources of Livelihoods

About 34% respondents shared that their primary occupation is agriculture, while another 34.5% shared earn their livelihoods primarily from Service (govt./private). Almost 23% are either old or inactive and depend on their family members for household expenses. Around

4% depend on labour work for their livelihoods and another 3.8% are self-employed. Other than those who depend primarily on agriculture, many other partially depend on the agriculture as their secondary source of income or for household consumption.

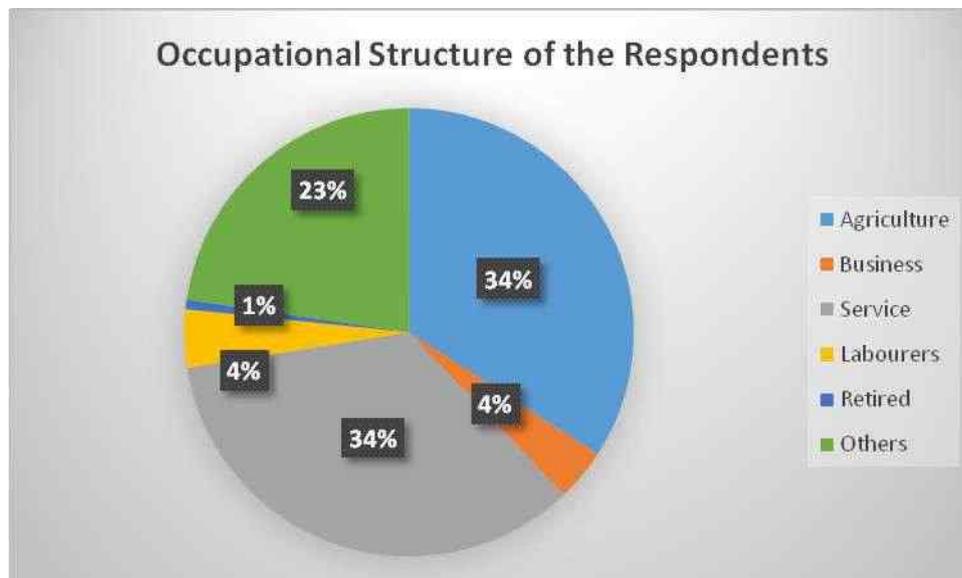

Figure 5.7.2: Occupation of the respondents

### 5.8. Family Composition

There are 51.7% male and 48.3% female in the surveyed households. Out of all surveyed families, 107 reported to be possessing unmarried boys aged above 21 years. And, 50 families stated to be possessing unmarried girls aged more than 18 years.

As observed, 34.5% of the respondents are engaged in the govt./private jobs, for which many of the service-holders stay away from their family. In such cases, the women, children and the old family members manage the household on their own.

### 5.9. Gender

In all households, women play a major role in managing the agricultural work, livestock rearing and taking care of the children and the old people. Almost 6% of the households have female members who are engaged in employment opportunities other than agriculture. In many of the households, the women take the entire responsibility of the farming- ploughing, sowing, irrigating, cutting, storing of the produce etc.

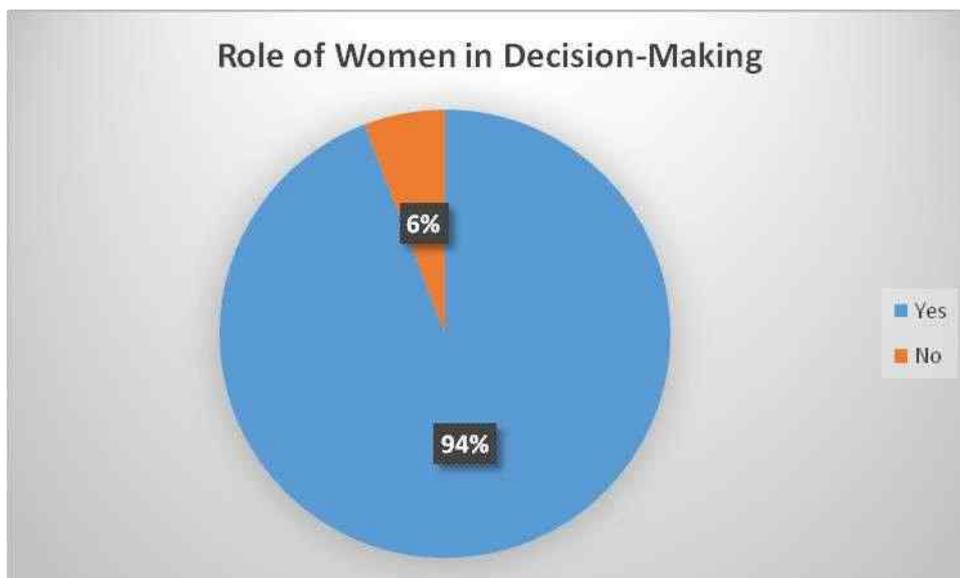

Figure 5.9.1: Families with Women Playing a Role in Decision-making

In 94% households, women play a major role in the decision-making, though, in many cases they do not initiate the decision making process. However, the process of decision-making is entirely taken care by the women in all the women-headed households (141). The male respondents shared that without the participation of the women, it will be difficult to run the activities related to household and agriculture.

### 5.10. Livelihoods Options

All respondents are hopeful to receive permanent or temporary employment opportunities as per the qualifications possessed by their family members under the direct payroll of HPPCL (the requiring body). They also shared that the affected family members should be given utmost priority for government job opportunities and small/medium service contracts. Some of the respondents expressed their interests in receiving assistance/loan from the project or other ongoing development schemes.

### 5.11. Healthcare, Water and Electricity

The major gap in the healthcare services is the lack of access to the hospital. The major barrier in accessing the healthcare is poor road network and lack of transportation services. More than 96% respondents depend on the Government Hospital (Rural Hospital) for the treatment of women, around 4% access Primary Health Centre or Sub-Centre in the nearby

village/town. Existence of private hospital in the affected area is almost nil. To access the nearest hospital (government), many a times the people have to travel 25-30 km one way, which involves higher time, spending more money and increases the risks for the patient.

As per the survey, women in the project affected area mainly suffer from common cold and fever, cough, jaundice, typhoid and allergy. The health issues like joint pain, diabetes, blood pressure, heart problems and urine related problems have seen a recent increase among women aged above 35 years.

When the women encounter with any of the health problems, 98% respondents prefer Allopathic treatment for faster recovery as compared to 2% who prefer Ayurvedic medicines. Rarely people go for Homeopathic treatment.

Majority of the households receive water through pipeline provided by Irrigation and Public Health department. For purposes of drinking and other activities, many depend on the natural water sources as well. All households have an electricity connection however the supply vary. Each household has a private toilet facility.

Table 5.11.1: Available medical facilities in the affected villages

Name of Panchayat	Name of Villages	District Hospital	Distance in Km	Zonal Hospital	Distance	PHC/CHC	Distance in Km
Dawahan	Dawahan	Mandi	31	Mandi	31	Dawahan	-
Kot	Kot		32	Mandi	32	Kotli	10
	Koon		30	Mandi	30	Kotli	8
Tarnoh	Jandrola		12	Mandi	12	Khadkalyana	3
	Khadkalyana		14	Mandi	14	-	-
Sadoh	Sadoh		16	Mandi	16	Khadkalyana	3
Khalanoo	Mahan		40	Mandi	40	Khalanoo	2
Tandu	Megal		12	Mandi	12	Mandi	12
	Mathaniual		13	Mandi	13	Mandi	13
Nohli	Banroo Dom		38	Jogindarnagar	28	Nohli	4
	Banroo Abal		37	Jogindarnagar	29	Nohli	4
	Banogi		40	Jogindarnagar	27	Nohli	3
Pipli	Banwar		90	Jogindarnagar	34	-	-
Drubbal	Charonjrh		95	Jogindarnagar	40	Makriri	18
	Ropru		97	Jogindarnagar	42	Makriri	20
	Balh		78	Jogindarnagar	25	Makriri	18
Silag	Badagaon		28	Mandi	28	Pali	5
Badidhar	Wah		38	Mandi	38	Badidhar	3

	Bewla	40	Mandi	40	Badidhar	2
	Bhatwari	41	Mandi	41	Badidhar	5
Kufri	Jhannad	45	Mandi	45	Padewan	6

The above table shows that the distance from each of the affected villages ranges from 12 km to 97 km. Some of the villages have access to CHC/PHC within a distance of 2 km to 20 km. This indicates the drudgeries of the population when it comes to access to healthcare facilities.

### 5.12. Indebtedness

The respondents shared that the indebtedness is low in the affected area. Only 12 people shared about taking loans for agricultural purposes, followed by eight respondents who took a loan for construction of their homes, six people took loan to buy Private/Commercial cars and one person has taken loan for his business primarily.

### 5.13. Awareness about Thana Plaun Hydro-Electric Project

During the household survey, 97% respondents shared that they received notification from the government officials while 2% came to know about the project and land acquisition from inhabitants of the adjacent villages. Almost 1% stated to be aware through print media.

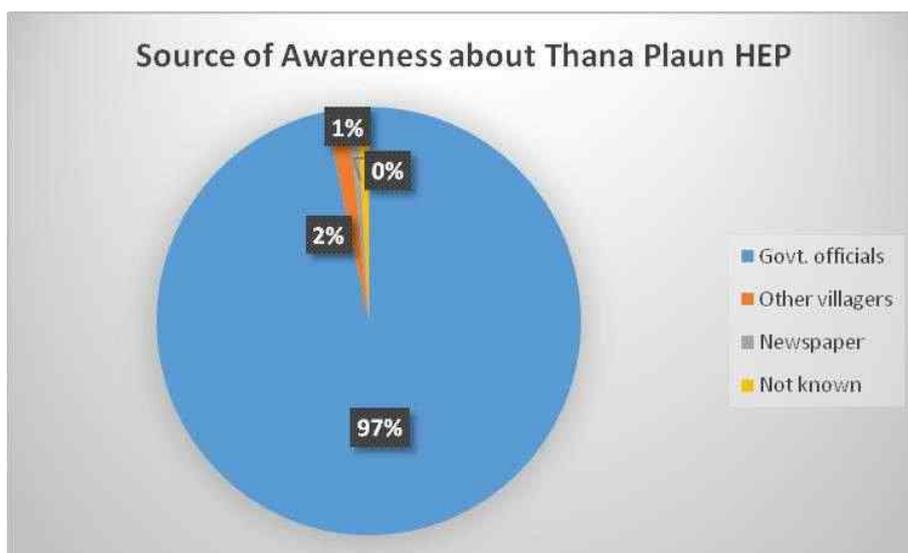

Figure 5.13.1: Source of Awareness about Thana Plaun HEP

#### 5.14. Administrative Organization

No administrative organization is functioning in the land proposed for acquisition. Administrative organization such as Sub Tehsil Office etc. is situated at considerable distance from the land proposed for acquisition.

#### 5.15. Political Organization

There is no political organization.

#### 5.16. Civil Society Organizations and Social Movements

During the survey, the team came across civil society organization like "Thana Plaun Vidyut Pariyojna Prabhavit Kisan Sabha" established by the affected land-owners of Gram Panchayat Drubbal, Pipli and Nohli. This kind of organization is set up for watch and ward the interest of land losers and environment though the organization does not have any asset in the land under proposed acquisition.

Other than this, there are few Self-Help Groups (SHGs), Mahila Mandals and Youth Mandals formed in the affected villages.

\*\*\*\*\*

## **Chapter 6: Social Impacts**

## 6. Social Impacts

### 6.1. Approach on Social Impacts

Social Impacts are the changes that occur or likely to take place in the lives of individuals, communities and environment as a result of land acquisition which is externally-induced change. They are the consequences of such public actions to human populations that alter the ways in which people presently live, work, relate to one another, individually and socially organize to meet their needs, and also function as members of society. The social impacts also include cultural impacts involving changes to the norms, values, and beliefs that guide their cognition of themselves and their society.

Acquisition of land proposed for the hydro-electric project will have a direct bearing on livelihood, employment, income, production, health & well-being and quality of life of the community, socio-cultural systems and environment. It will raise doubts and fears about property rights and aspirations. Development projects affect different groups differently. Some people tend to benefit while many others loose. Often, impacts are particularly severe for vulnerable groups viz. tribal community, women-headed households, elderly persons, landless persons and the poor.

The impacts can be positive or negative. In this project it has been noticed through surveys and discussions that the people expect that land acquisition will give them better value which will provide improvement in their well-being, though the affected families felt that the loss of land and livelihood etc. would be irreparable. The objective of the household survey was to generate an inventory of social impacts on the project affected families, type of property, ownership of property, type of impact and its magnitude and details of affected property. The major findings and magnitude of impacts are discussed in the following sections.

### 6.2. Impoverishment risks

Present project is likely to create impoverishment risks as part of the SIA exercise to identify adverse project impacts. The impoverishment risks analysis model adds substantially to the tools used for explaining, diagnosing, predicting, and planning for development. The most relevant impoverishment risks to the project affected people are as follows:

- **Landlessness:** The proposed land acquisition will remove the main foundation upon which peoples' agricultural productive systems, commercial activities and livelihoods are constructed.
- **Joblessness:** Loss of employment and wages may occur and the landless labourers may lose their main source of income.
- **Homelessness:** There are houses involved in land acquisition for the project. So, there will be negative impact on this count leading to homeless.
- **Marginalization:** Marginalization will occur when PAFs lose most of their cultivable land and ultimately their economic power. Middle-income farm households become small landholders. Economic marginalization which takes place due to fall in agricultural production is often accompanied by social and psychological marginalization and manifests itself in a downward mobility in social status.
- **Loss of access to common property:** Loss of access to commonly owned assets (forestlands, water bodies, grazing lands, and so on) is often overlooked and uncompensated, particularly for the asset less as they are considered to be providing indirect benefits to the community which could not be quantified. But absence of the same do affect the quality of life of the community.
- **Social dislocation:** Though there is not much of displacement but community dispersal affects structures of social organization and loss of mutual help networks. Although this loss of social capital is harder to quantify, it impoverishes and dis-empowers the affected persons.

### 6.3. Analysis of Impacts

The proposed project will have some impact on a section of landowners whose lands will be acquired. The anticipated negative impacts on these project affected population include the following:

#### i. Land Requirement and Acquisition

The proposed project requires land for catchment area, dumping area, roads, establishment of power sub-stations, construction of administrative buildings, etc. Acquisition of land may

make some of the affected families landless. Therefore, every effort has been made to keep land requirements to the bare minimum. It is expected that after meticulous planning, the land requirement is kept at minimum and particularly in places where the acquisition of private land could not be avoided. The proposed project requires the acquisition/ transfer of 249-19-14 Bighas of private land spread over in the twelve Gram Panchayats. Details of land requirement are summarized below in Table 6.3.1

Table 6.3.1: Village wise Private Land Requirement for the Project (In Bigha)

Tehsil	Name of Panchayat	Name of Villages	Land under proposed acquisition (Bigha)
Kotli	Dawahan	Dawahan	07-04-02
	Kot	Kot	04-01-07
		Koon	04-11-17
	Tarnoh	Jandrola	01-12-18
		Khadkalyana	00-02-09
	Sadoh	Sadoh	57-18-04
Khalanoo	Mahan	21-10-11	
Sadar Mandi	Tandu	Megal	02-17-06
		Mathaneeul	00-14-01
Joginder Nagar	Nohli	Banroo Dom	05-02-03
		Banroo Abal	23-18-15
		Banogi	00-02-08
	Pipli	Banwar	17-01-15
	Drubbal	Charonjh	00-00-12
		Ropru	41-13-15
Balh		20-08-04	
Padhar	Silag	Badagaon	07-16-13
	Badidhar	Wah	02-14-18
		Bewla	08-12-02
		Bhatwari	06-03-05
	Kufri	Jhannad	15-12-09

The anticipated impacts will be loss of land which will deprive the affected families of their agricultural income and alter the way of life. Further, the project involves construction work which will affect the adjacent landowners and others due to air and water pollution.

## ii. Loss of structures (residences, Gharats and cattle sheds)

Residential structures and cattle sheds located near the river channel would be affected due to the proposed construction activity or submergence. Other than these, almost 38 Gharats will also be submerged. During the survey, it was shared that the structures belonging to 345 landowners on their land under proposed acquisition are getting affected due to submergence or for undertaking construction work.

### iii. Loss of social capitals

A number of Ropeways, Footbridges and one Suspension Bridge will be submerged due to the project. That would create a sharp reduction in the accessibility to the main roads and the connectivity between the villages situated on the opposite side of the river bank. Loss of these resources would have a direct impact on the socio-cultural lives of the affected population. Besides this, there will be movement of men, material and equipment during construction activities. It will create an extra load on the available infrastructure which would have to be strengthened in advance.

### iv. Impact on Biodiversity and Environment

Biological resources are among the most important resources impacted by such huge projects. A detailed baseline study of these resources is essential to estimate the magnitude of potential impacts and to avoid or mitigate any loss caused by the proposed project. It is necessary to have separate detailed Environment Impact Assessment (EIA) done to identify the specific impacts on the flora and fauna in the forest areas of the proposed project.

### v. Impacts during Preconstruction, construction and post construction Phase -

Phase	Social Impacts	Economic Impacts	Cultural Impacts
Pre-construction	<ul style="list-style-type: none"> <li>• Doubts and fear of the upcoming changes.</li> <li>• High aspiration among youth.</li> <li>• Different interested groups start emerging and tries to influence the community and individuals.</li> <li>• Social organization will arise to save guard the interests of the PAFs and other local population.</li> </ul>	<ul style="list-style-type: none"> <li>• Very tiny livelihood options for local population such as hired vehicle, Opportunities in surveys etc.</li> <li>• Prices of land may go high and speculation starts.</li> <li>• Sudden change in financial condition of the PAFs meaning by high increase in purchasing capacity</li> </ul>	<ul style="list-style-type: none"> <li>• No Direct Impact on culture.</li> </ul>
Construction Phase	<ul style="list-style-type: none"> <li>• In-migration of construction workers and technical staff which will increase burden on existing health care centers, hygienic situation etc.</li> <li>• Migration will increase pressure on the Educational</li> </ul>	<ul style="list-style-type: none"> <li>• Increased Employment for the locals and PAFs.</li> <li>• Increased disposable income with the locals.</li> <li>• Increased economic activities and consumption patterns.</li> <li>• Due to increased</li> </ul>	<ul style="list-style-type: none"> <li>• Cultural diversity can be seen during the construction phase.</li> <li>• Due to In-migration people will come from other states and bring their own culture, beliefs, religious practices,</li> </ul>

	<p>Institutes also.</p> <ul style="list-style-type: none"> <li>Habitants of the project affected area will come across multi-cultural, multi-lingual, belief system.</li> <li>Better income level may result in development of good as well as bad habits among the locals.</li> <li>Improvement in living standard.</li> <li>Safety and security start becoming one of the concern for the local as so many unknown people are coming in the area.</li> <li>Conflict may rise with outsiders.</li> <li>Area can see rise in crime and anti-social activities which has direct effect on the area.</li> <li>The area may see rise in disease occurred due to construction, quarrying etc.</li> <li>heavy transportation during construction phase which will lead to increase in dust particles in the air and increased noise pollution in the adjoining villages.</li> </ul>	<p>outsiders' business like hotel, shops of different items like vegetable, milk, grocery items, liquor etc. cherish till the activities are going on in the area.</p> <ul style="list-style-type: none"> <li>Banking services may see sudden increase in the transaction.</li> <li>Need of More Banking counters and ATM may be seen.</li> </ul>	<p>clothing patterns etc. all this has both direct and indirect impact on the local community.</p>
Operational Phase	<ul style="list-style-type: none"> <li>Society would be more mature by this time and more adoptable in due course of time to the changing needs.</li> <li>Requiring body would be organizing various social empowerment activities which will result in overall social development.</li> </ul>	<ul style="list-style-type: none"> <li>There would be drop in the infrastructural activities, which would result in lesser job creation for the local as well.</li> <li>This has direct impact on the income level and further on the living standard.</li> <li>Due to funds like LADA area may see basic infrastructure development even after construction phase but not of that magnitude.</li> <li>PAFs and other local will get chance to interact with outer world and explore opportunity in local area as well as outside as well.</li> <li>New economical avenues may arise for the locals and PAFs in due course of time.</li> </ul>	<ul style="list-style-type: none"> <li>Cultural stability may be seen during this phase.</li> </ul>

## vi. Impacts at the time of hydro power plant operation

Project is not a Storage Dam rather it is a Run of the River scheme. Water will be stored for short duration for picking only, and accordingly released. Moreover, as per the conditions of the Ministry of Environment, Forest and Climate Change (GOI), water flow of a minimum of 20% in lean season, 30% in monsoon season and 25% in non-lean and non-monsoon season has to be maintained downstream of the Dam. To ensure the regular flow of water separate Dam Toe Power House has also been proposed to generate the power.

### 6.4. Impacts as Perceived by the Landowners

Consultation with the affected landowners was the starting point to address involuntary issues, concerning resettlement. People affected by this project may have apprehensions regarding their loss due to land acquisition. Their participation in planning and managing resettlement helps to reduce their fears and gives the landowners an opportunity to participate in key decisions that affect their lives.

During the Household Survey, the respondents shared that there would be some positive impacts due to the Thana Plaun HEP activities. These includes an increase in the employment and income opportunities- within the project and in the ambit of the forward and backward linkages. The increase in the value of land is another big positive according to the respondents. Majority of them also believed that it will create scope for increase in business opportunities. Also, some of them are hopeful that the speed of the vehicle as a result of a better road network and increased frequency in the transportation services.

The tables 6.4.1 and 6.4.2 below captures the responses received during the household survey.

Table 6.4.1: Opinion of the Respondents Regarding Positive Impacts of TPHEP

S. No.	Positive Impacts	Numbers
1	Increase in employment opportunity	761
2	Increase in land price	699
3	Increase in business opportunity	589
4	Increase in vehicle speed	100

The respondents also seemed to be worried about some of the negative impacts. The main among these was the loss of land. This in itself carries a huge impact on their livelihoods, way of live and social relationships. Next impacts are related to the influx of in-migrants from different parts of the state or from different states- that would instigate conflict between the locals and the outsiders, an intrusion to their culture and social life, more pressure on the existing natural resources and on the infrastructure. The increase in the vehicle speed and more cars on the roads would lead to more road accidents. Few of the respondents also opined that the chances of contracting HIV/AIDS and risks of trafficking would be increased.

Table 6.4.2: Opinion of the Respondents Regarding Negative Impacts of TPHEP

S. No.	Negative Impacts	Numbers
1	Loss of land	830
2	Conflict with outsiders	572
3	More visitors/population	541
4	Pressure on existing infrastructure	102
5	Increase in road accidents	3
6	Others (increase in incidents of HIV/AIDS and Trafficking etc.)	3

After conducting the household interviews, the study team secured feedback from the community through Focus Group Discussions held at villages viz. Banaroo Abal, Sadoh and Thana. This was done to ascertain facts stated by the individual households and to understand their perceptions and apprehensions about the project and to elicit suggestions from them, if any, on improvement of project design including the mitigation plan. The details of the three Focus Group Discussions conducted in this regard is given below-

**a. Village- Banaroo Abal, Tehsil- Joginder Nagar**

To understand the sentiments and perception of the community about the land acquisition for proposed Thana Plaun hydro-electric project, a focus group discussion was organized in village Banaroo Abal on 21<sup>st</sup> April, 2018. Female were also participating in the discussion along with man. SIA team member had separate discussion with female participants to register their voice too.

To begin with the Pradhan Smt. Rama Sharma introduced SIA team with all the participants of the discussion and shared the purpose of the SIA team. after the initial introduction with

each other and knowing the purpose of the assessment, affected land looser shared their concerns and expectations from the team.

According to them Mandi city is approximately 40 km. from the village and Joginder Nagar is approximately 30 km away, which is connected through motorable road and bridges and they only depend on to avail the educational, health and all other basic facilities.

During the discussion, it came out that the only bridge which connect Banaroo Abal to Mandi will be submerged along with roads. which will cut the village and they will have to come to Joginder Nagar to reach Mandi, which will increase the travel cost and time as well (Joginder Nagar to Mandi - Approximately 60 Km). Apart from that a pedestal bridge between Village Banaroo Abal and Drubal which is at other bank of the river (another affected villages) will also be submerged, making it more difficult for other side villagers to cross over. here to mention that there are about 3-4 villages which are connected through this only available bridge.

Another area of concern is regular drinking water supply in nearby villages as existing water pumping station would also be submerged. They are also concerned that existing natural water sources which are depleting due to which agriculture is also getting affected.

All the villagers reported huge number of wild monkey and pigs in the area. These wild animals are damaging the crops and adversely affecting the yield and interest in the agriculture.

Villagers demanded a community hall, scholarship for professional courses etc for the affected area and community.

Plants of herb and fruits can be one of the alternative for sustainable income sources, for which soil testing and as per climatic zone concern department can suggest and guide the locals. some of the participants also shown their interest in ploy house and floriculture.

Improved roads, health facilities and schools were other demands of the affected people.

A registered society is also functional by the name "Thana Plaun Vidyut Pariyojna Prabhavit Kisan Sabha" Gram Panchayat Drubbal and Nohli.

Discussion points with female group are as follows -

- Separate quota should be allocated for female in the project, of the affected families.

- Cottage industries such as agar-batti, dhoop-batti and pickle making should be promoted among females of the affected households.
- Females are much concerned about the fodder for their cattle as much of the area having grass etc. would be submerged and they may have to purchase the cattle feed from outside which will put pressure on the monthly budget.
- Security is one area which is a major concern among female group as in-migration will bring its adverse / ill effects. hence group wanted to have adequate security arrangements in the area and person deployed should be from the same area, who are aware of the culture and general systems.
- According to this group, there is dearth of transportation system, and very limited number of buses runs in the area, which should be increased.

Figure 6.4.1: Focused Group Discussion at Village Banaroo Abal with Project Affected Families

The list of participants of the Focus Group Discussion is as below:

Name	Details	Village
Smt. Rama Sharma	Pradhan - GP Nohli	BanarooAbal
Dilip Singh	Villagers	BanarooAbal
Ghanshyam		BanarooAbal
Gantu Ram		BanarooAbal
Labh Singh		BanarooAbal
Davku		BanarooAbal
Kahan Singh		BanarooAbal
Nekram		BanarooAbal
Devi Singh		BanarooAbal
Tek Chand		BanarooAbal

Pawna Devi		BanarooAbal
Smt. Karju		BanarooAbal
Smt. Rajo Devi		BanarooAbal
Smt. Narmo Devi		BanarooAbal
Smt. Ganpatu Devi		BanarooAbal
Devdatt		Banaroo Dom
Chunnilal		Banaroo Dom
Nityanand		Banaroo Dom
Shyam Singh		Banaroo Dom

#### **b. Village - Sadoh, Tehsil - Kotli**

Sadoh is another village which is going to be affected by the land acquisition for the proposed hydro-electric project in district Mandi. SIA team visited the village on 18<sup>th</sup> April 2018. although Pradhan ji was out of town for some reasons, team interacted with the opinion makers and elderly in the village and shared the purpose of our visit.

After the introduction of the SIA team, some of the villagers expressed their concern relating to the proposed hydro-electric project. some of the major concerns are as follows -

1. This Village uses Natural Source for Drinking water purpose. This source is on the other side of the river and villagers made arrangements to bring that water from the source to their homes without support from the government. after the construction of the dam the pipeline would be submerged and they may not be able to have the supply of water.
2. Some of them shared that the water will rise and due to loose soil on the upper side, it may erode and cause land slide as well. hence there should be mulching/retaining wall/ terracing as per the condition and suitability of the area.
3. There should be a road alongside river from Mandi to Dharampur for better reach of the affected villages. This road not only lessen the travel time but also will be beneficial for the students and the people seeking treatment.
4. Villagers are losing highly fertile land due to acquisition, and moreover, there will be less yield due to fog in the coming years. In order to restore the income level, tourism must be promoted in the area. There can be a boat route between Mandi to Dharampur which can provide employment as well as scope of brining tourist in the area.

5. Villagers are of the opinion that there is a dire need of bridge between Balh and Ropru as they have lands and relation on the other side of the river which will be affected badly, hence there must a motorable bridge between villages.
6. There will be scarcity of fodder for the cattle due to huge area of government land and private land is submerging, which should be compensated and alternate arrangement must be made for it.

Other than above mentioned issue following are the demands for upliftment of the area.

- Technical Institution for the students and youth having courses with high employability.
- Scholarship for the bright students and support in higher / technical education.
- Free electricity to the land losers.
- Infrastructure facility such as All Weather Road up to village, upgraded health facility, playground and school for the area should be developed.
- last but not the least Mahila Mandal Bhavan and Yuva Mandal Bhavan also required to be built in the village.

The list of participants of the Focus Group Discussion is as below:

<b>Name</b>	<b>Details</b>	<b>Village</b>
Khem Singh	Villagers	Sadoh
Chet Ram		Sadoh
Chand Ram		Sadoh
Nater Singh		Sadoh
Bhikham Ram		Sadoh
Kahan Singh		Sadoh
Puran Chand		Sadoh
Rudramani		Sadoh
Neela Devi		Sadoh
Inder Singh		Sadoh
Dhan Dev		Sadoh
Hem Singh		Sadoh
Roshan Lal		Sadoh
Govind Ram		Sadoh

### c. Village - Thana, Tehsil – Joginder Nagar

This village is just above the dam wall and this area is proposed to set up the power station. Though not many families reside here but whoever is living here will be displaced permanently.

One of them is Mr. Tirth Ram and his family. Other than them, his father and mother and brother will have to be displaced as their houses are also close to the proposed water level and can cause damage to the structures in a long term, if not during the initial acquisition. SIA team visited this village which is very difficult to reach and discussed the purpose of visit and asked them to share their concerns.

Figure 6.4.2: Bhagat ji with his wife Indri Devi

Some of the old females could not accept that they will have to shift from this place hence They were explained through a map of the dam site. They were very emotional as well by the thought of leaving this place, as most of their lives spent in this area only. While some of them shared their views, few denied to discuss anything.

- One family member from the affected families must get the permanent Job in the project or any government department.
- They should be compensated enough for every loss they may have, may it be house, land, cattle shed, fodder for cattle, trees etc.
- They also requested to the requiring body if possible they should not be displaced as their lives would be altered that cannot be compensated by cash or anything else.

The list of participants of the Focus Group Discussion is as below:

Name	Details	Village
Tirath Ram	Villagers	Thana
Bhagat Ram		Thana
Rajendra Singh		Thana
Des Raj		Thana
Jai Singh		Thana
Santoshi Devi		Thana
Radha Devi		Thana
Indravatu		Thana

Figure 6.4.4: The overview of the valley from Joginder Nagar Tehsil (above) and Tirth Ram’s House (Right) (ref: Case Story Page no 85)

## House at Stake

Tirth Ram has a beautiful house near the confluence of Beas River and Rana Khad. The house is at a steep 600 meter down from the main road near Thana Village. The house is accessible from the Banaroo Abal side of the river bank, after a descent from the main road (after the bridge) and crossing the river by foot; this route is only accessible during low water level.

He lives there with his wife Ambri Devi and two sons. Ambri Devi takes care of the agriculture and rearing of the goats besides managing the household chores efficiently. She takes the goats up and down the slope of the hills for grazing every day. The main house is two-storied; the kitchen has a separate structure where Ambri Devi makes wonderful wheat roti in the *chullah*. Tirth Ram also helps his wife in making food by chopping vegetables, making dough etc. The toilet is located further down the slope, close to the Bawdi (natural spring water source). The house was built ten years ago with great efforts to bring the raw materials on foot due to difficult terrain and lack of access to road.

A few step above is the house where his parents live. Tirth Ram's brother also stays close to their parents' house. The father, Bhagat ji, has lost the ability to move around due to a septic infection in his left leg and the recent paralysis attack. He needs to be carried by his sons from the veranda to the room. Besides taking care of him, Tirth Ram's mother Indri Devi takes care of the farm alone.

Almost 8 years ago, Tirth Ram was contacted by the company HPPCL which is going to develop the Thana Plaun Hydro-Electric Project and build a storage dam and a power house in and around his village. He was told about the project details, acquisition plan, surveys to be conducted, testing to be taken place etc. He was also approached by HPPCL for extending his support in gauging the water discharge near the bridge, providing assistance in the surveys and visits etc. Since then he has been working as a part-time (temporary) employee of HPPCL.

There were rounds of surveys in the nearby area for planning of the storage dam construction and the finalizing the power house location. After the proper survey of the submergence level, it was confirmed that his house will be fully submerged, while his father's house will be impacted if the water level reaches its maximum. Also, his brother's house is pretty close to the danger zone.

When the SIA team met Tirth Ram and made a visit to his house, he found to be nostalgic and shared that his fears are multi-layered. First, due to the displacement, their way of life is going to change completely. The distress of moving to a new place is visible on the faces of all the villagers. Secondly, he is unsure whether he will get the compensation against his house and other assets. While the house is in Tirth Ram's name but the land is still in his father's name. The father had already declared that the compensation for the house (including the cattle shed and kitchen and toilet) should be made to Tirth Ram directly. During an application process at HPPCL, Tirth Ram submitted the original and single-most copy of the declaration which was prepared by the Patwari at Drubbal Panchayat.

The land acquisition for the Thana Plaun Hydro-electric Project is inevitable and the displacement is on the cards too. While Tirth Ram feels helpless at one hand for letting go of such a beautiful house in such a serene environment, he is also hopeful that the project will bring prosperity and development in the area. He hopes that the company will make him a permanent employee which has been due for a long time. Besides these, his hope is also attached with the compensation against house, land, trees and other assets. Now, in absence of the original declaration of his father and in the given poor health condition of his father, Tirth Ram wants to be ensured by HPPCL and the State Authorities that the compensation for his house should be processed in his name only.

# **Chapter 7: Analysis of Costs & Benefits and Recommendations**

## 7. Analysis of Costs & Benefits and Recommendations

A Social Impact Assessment is contemplated under Rule 3 of the HP RTFCTLARR (Social Impact Assessment & Consent) Rules 2015 for the proposed acquisition of private land under Thana Plaun HEP.

In this chapter, an analysis including the opinions of the land losers expressed at different forums such as Public Hearings, Group Discussions and Personal Interviews is presented. This chapter also captures the tentative benefits of the proposed dam; not only for the directly affected landowners, affected panchayats and adjoining area, but also for the benefits of the State. On the basis of the perceived pros and cons of the proposed Thana Plaun HEP and the Dam Site at village Thana, the SIA team has drawn conclusion and recommendations, subject to the consideration of the Himachal Pradesh government.

### 7.1. Assessment of Public Purpose

The Govt. of Himachal Pradesh has allotted the Thana Plaun Hydro Electric Project 191 MW to the HPPCL for the construction and operation during 2015. Requiring Body is PSU of Govt. of India, joint venture of GOI and GO HP. Requiring Body being a PSU, proposed land acquisition falls under Section 1 of the RTFCTLARR Act, 2013. Thana Plaun HEP is a Public Purpose under Electricity Generation as notified by the GOI Ministry of Finance, Department of Economic Affairs, notification no. F. No. 13/1/2017 INF. dated 17 November 2017 (copy enclosed in Annexure 3), an updated Harmonized Master List of Infrastructure Sub-sectors. This State Govt. project will be beneficial to the state as a whole for a long term basis. This project is aimed at bridging the gap in power supply and increasing the State revenue by exploiting maximum energy resources with minimum hazardous and minimum social-environmental impacts on the local habitants.

Expected power generation of TPHEP in the would be 640 GWH per year. The total project cost is estimated to be 2223.59 crores. And the expected revenue for the State would be around 200 crores per year during the project is functional it its full capacity. During the pre-construction phase, during the construction and after the commencement of the project, employment would be generated for skilled, semi-skilled and unskilled labours. As per the HP govt. rules, 70% of the employment should be reserved for the residents of Himachal

Pradesh. In this case, PAFs would be given priorities for the employment generated at the project level.

### 7.2. Alternative for Less Displacement & Minimum Requirement of Land

After studying the alternative proposals with different geotechnical aspects, location, capacity, and nature, the present proposal with a capacity of 191 MW and the Dam site at the confluence of Arnodi Khad and River Beas has been selected. The current project design was chosen after a critical consideration of minimum requirement of land acquisition and most viable engineering design. The total land required for the TPHEP is estimated to be 432.67 hectares of which 24.88 hectares will be acquired from the private land owners. This is just 5.75% of the total land requirement. Hence all the efforts have been made to minimize acquisition of private land as well as minimal displacement (only 8 families) due to the project activities.

### 7.3. Nature and Intensity of Social Impacts

The survey reveals that along with loss of agricultural lands, trees, Gharats and other farm buildings, businesses and livelihood opportunities would be affected resulting in decrease in household income of the displaced families. The socio cultural impacts that would arise due to the project would include break-up of community cohesion, disintegration of social support systems, disruption of women's economic activities, loss of time, common and other cultural property.

Landowners expected negative impacts include loss of land, increase in pollution levels, sudden drop in activities dependent on the private and forest land, influx of outside population and resultant drop in the safety-security issues, rise in social conflict etc.

Apart from that access to common property resources like grazing land, important bridges, rope ways, places of cremation, play grounds etc. would be also affected that in turn will affect the normal lives of the residents of the affected panchayats.

Not only the land losers, the neighbouring households and landowners will equally face the menaces generated by the project activities. The residents of the affected panchayats shared

their concerns about the expected changes in the weather conditions and its impact on the agricultural yields and the fruits production.

The sense of security and attachment will be hurt with the acquisition of land and displacement of the house. Enough compensation would never be able to heal the wounds of this essentially agrarian community.

The impacts of the project will not only affect the current generation, but the next few generations as well. It will also alter the way of life in these affected panchayats and surrounding areas of Mandi district. Nonetheless, the landscape will undergo an everlasting change.

The social relations and bonding will also experience a sea change. The altered route of communication and transportation will have severe impact on how frequently the people of different panchayats come together for any social, cultural or religious practices. The altered access to the other side of the river bank will also see an impact on the ways marriages take place between residents of any two panchayats.

The economic impacts of the land acquisition include the loss of houses or businesses, or the loss of business income, be either temporary or permanent in nature. However, the actual valuation of these losses often proves to be a difficult process. The social and psychological impacts costs are more complex. Neighbourhoods will be disrupted and the villagers will be deprived of social cohesion and the informal support system.

The project will fetch a huge migrant population from outside the district, which will put pressure on the existing infrastructure and public utilities. The chances of social conflict and threats to the safety and security of the local population (especially of children, adolescents and women) may increase significantly.

The sudden flow of cash compensation may cause a havoc change in the expenditure pattern and financial decisions of the affected families. If unchecked, the young generation may come under the influence of substance abuse, irresponsible expenses on luxurious items and present a case of irresponsible financial management.

#### 7.4. Suggested Mitigation

As per the provisions of Section 4 (6) of The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act of 2013 and Sub Rule (4) of Rule 3 of the Himachal Pradesh Rules, 2015, a Mitigation Plan listing the ameliorative measures required to be undertaken for addressing the impact of the project. After detailed study, consultation and concerns put forwarded by the stakeholders, following mitigations are suggested in the report (Chapter 8)-

Afforestation, Lift irrigation system, safe drinking water Supply, Hospital of appropriate level, Engineering college/DAV College having facility of all streams, Scholarships, ITI, All Weather Roads, Free Power Supply to the Project Affected Families, Promotion of sports, Awareness Camps relating to Health, Education and Financial literacy etc., building infrastructural facilities to support loss of social capital and to accommodate the pressure of in-migrating populating, establishing Plant Protection, Quarantine and Storage Centers, promotion of Tourism, forming and strengthening Self-Help Groups (SHGs), Food Processing Units and Cold Storage, Institutional linkages for income restoration, Project-based Employment, promoting and establishing Model Villages, Seed banks, Gau-shala and Regulated Mandi (local marketplace).

For the women-headed households and physically/mentally challenged persons, periodical monitoring and linkages with relevant schemes for economic upliftment and betterment of life.

For SC/ST families, special provision provided in the Act 2013 should be implemented strictly.

In addition to the above, as per State Govt. policy 100 Unit free electricity after commissioning of project fort affected families for 10 years has to be provided by the project. As per revised LADA guidelines notified by HP Govt. during construction of the project 1.5% of the cost of the project shall be deposited to Chairman LADA of the concerned district with the objective to carry out local area developmental activities (i.e. road, water supply, education and health institution internal path, street lighting, sanitation, ropeways, rain water harvesting, buildings, schools, cement concrete link road, primary health centres, bus stand, hospital, college, training institutes etc.) so as to ensure viable additional benefit to local community in the project area. After commissioning of the project, families of the

project affected area would be provided annuity payment out of revenue generated from the sale of 1% free power provided to the state Govt. by the proposed project throughout the life. This provision enables to make them feel as a part of the project.

Requiring Body would not only the restrict to compensate the affected landowners, but during construction stage, if any damage to the crops would be ascertained due to construction activities, the affected farmers would be compensated as per the crop policy of the HP Govt.

## 7.5. Conclusion

Based on the above opinions and demands of the affected families, panchayats and community as a whole and considering different aspects of the project and the involvement of the state government, there are both positive as well as negative sides of the project. There are visible fear and apprehension in the community while there is also a hope of development of the area due to TPHEP.

Landowners expect negative impacts include loss of land, increase in pollution levels, sudden drop in activities dependent on the private and forest land, influx of outside population and resultant drop in the safety-security issues, rise in social conflict etc. Due to planned project activities, the residents of project affected villages and nearby area would face a great difficulty in access to road communication, which will in turn affect the social relations between people of different panchayats/villages. The families which will be displaced due to submergence

As per the landowners contacted during this study, the people in the affected area are hopeful about the increase in employment opportunities, land price, and scope for small and medium business ventures. They are also expecting better road network, higher frequency and better quality transportation services. The infrastructural facilities will be improved and the area will become a landmark in the HEP Map of Himachal Pradesh.

From the analysis of the information collected during SIA and Public Hearing proceedings (as attached in the Annexure 6), it can be concluded that the project benefits will be extended to the people of the affected area, district and state. The Mitigation Plan will address the social impacts and the adverse social costs will be overshadowed by the development activities to be carried out by the state/project authorities.

## 7.6. Recommendations

In view of the above, this section discusses the recommendations on land acquisition, rehabilitation and resettlement.

- I. Land acquisition and involuntary resettlement have been avoided as the selected project design among the proposed alternatives will have the least adverse impact on the PAFs and communities in the project area.
- II. Where the households (including communities) are losing assets, livelihoods or resources will be fully compensated and assisted so that they can improve, or at least restore to their former economic and social conditions.
- III. Compensation and rehabilitation support will be provided to the PAFs, that is, any person or household or business which on account of proposed project implementation would have his/ her/ theirs:
  - (a) Standard of living badly affected;
  - (b) Right, title or interest in any house, interest in, or right to use, any land including premises, agricultural and grazing land, commercial properties, tenancy, or right in annual or perennial crops and trees or any other fixed or moveable assets, acquired or possessed, temporarily or permanently;
  - (c) Income earning opportunities, business, occupation, work or place of residence or habitat adversely affected temporarily or permanently; or,
  - (d) Social and cultural activities and relationships affected or any other losses that may be identified during the process of resettlement planning.
- IV. All affected people will be eligible for compensation and rehabilitation assistance irrespective of tenure status, social or economic standard and any such factors that may discriminate against achievement of the objectives outlined above. Lack of legal rights to the assets lost or adversely affected tenure status and social or economic status will not bar the PAFs from entitlements to such compensation, rehabilitation or resettlement measures
- V. All PAFs residing, working, doing business and / or cultivating land within the proposed project impacted areas as of the date of the latest census and inventory of lost assets, are entitled to compensation proportionately for their lost assets (both land and non-land assets) and restoration of income and businesses; and will be provided

with rehabilitation measures sufficient to assist them to improve or at least maintain their pre-project living standards, income-earning capacity and production levels.

- VI. People temporarily affected and resettlement plans will address the issue of temporary acquisition.
- VII. Where a host community is affected by the development of a resettlement site in that community, the host community shall be involved in any resettlement planning and decision-making. All attempts shall be made to minimize the adverse impacts of resettlement upon host communities.
- VIII. The resettlement plans will be designed in accordance with the RTFCTLARR Act 2013 and the HP Rules 2015. The Resettlement Plan will be translated into Hindi for the reference of PAFs as well as for the sake of other interested groups.
- IX. Payment for land and/or non-land assets will be based on the principles laid in the RTFCTLARR Act 2013. Resettlement assistance will be provided not only for immediate loss, but also for a transition period needed to restore livelihood and standards of living of PAFs. Such support could be in the term of short-term jobs or providing subsistence allowance.
- X. The resettlement plan must consider the needs of those most vulnerable to the adverse impacts of resettlement and ensure they are considered during the resettlement planning and application of mitigation measures. Assistance as admissible under the R & R Policy of the acquiring body should be provided to help them improve their socio-economic status.
- XI. As part of the SIMP, the PAFs who lose cent per cent of their cultivable land or whose house is fully affected under the acquisition or PAFs with BPL status, women-headed land losers or physically or mentally challenged, the project authorities must provide employment to one of the members of such a project affected family wherever jobs are created.
- XII. PAFs or the village communities will represent in the process of developing and implementing resettlement plans and proposed mitigation measures for adverse effects.
- XIII. Adequate budgetary support will be fully committed and made available by the project authorities to cover the costs of land acquisition (including compensation and income restoration measures) within the agreed implementation period.

- XIV. Displacement must not occur before making provisions of compensation and of other admissible assistance required for relocation. Sufficient civic infrastructure must be provided in resettlement site prior to relocation. Acquisition of assets, payment of compensation, and the resettlement and start of the livelihood rehabilitation activities of PAFs, will be completed prior to any project construction activities. Livelihood and income restoration measures must also be in place but as these may take time, not necessarily completed prior to construction activities.
- XV. The Project authority must arrange administrative set up for the effective preparation and implementation of the resettlement plan prior to the commencement of the project activities. This means provision for adequate human resources for supervision, consultation, and monitoring of land acquisition and rehabilitation activities should be ensured.
- XVI. Appropriate monitoring and evaluation and grievance redressal mechanisms should be put in place as part of the resettlement management system. An external monitoring group which may include qualified NGOs or Institutions or Universities may be hired by the Project for evaluating the resettlement process and final outcome.

Having said that if requiring body and state government try to take appropriate measures to mitigate the various losses of the community at large, and, considering the positive development and in interests of the state, project can be commenced.

\*\*\*\*\*

# **Chapter 8: Social Impact Management Plan**

## 8. Social Impact Management Plan

This chapter focuses on the approach, ways and nature of mitigation to avoid, reduce and compensate the losses to be incurred due to Thana Plaun HEP. The strategies being presented in this chapter include the suggestions, requests made during the public consultations and interaction with key stakeholders. This chapter also provides an Institutional Framework for implementation including Monitoring and Evaluation.

### 8.1. Approach to Mitigation

Having identified the social impacts, the Social Impact Management Plan (SIMP) needs to be drawn up which would include the mitigation of the impacts and risks (low, medium, high) thereof and contain the strategies for managing the risks. This will help the project authority to ensure that mitigation and management strategies are aligned with those impacts upon the communities in 12 Gram Panchayats and management is governed to restore the income of the land-losers and provide necessary infrastructures for the communities. The mitigation and management strategies would also address the cumulative impacts identified during the social impact assessment where appropriate and as necessary.

### 8.2. Measures to Avoid, Mitigate and Compensate Impacts

Following are some of the mitigation measures

**1. Afforestation** – Due to proposed land acquisition in the area forest cover will be adversely affected. To restore the ecosystem and mitigate the ecological losses, afforestation can be undertaken in the government land. The process should involve the forest department, acquiring body and the community. These efforts will not only help in restoring the losses but also provide employment opportunity to local people.

Apart from that, plantation must be done in the susceptible area for soil erosion in the private land. It will check the loss of fertility of the soil and minimize associated risks.

**2. Lift irrigation system** - Agriculture is the main occupation of the people from top of the hill to the valley. Besides drinking purposes, the natural sources of water like rivers, streams etc. are used for irrigating the agricultural land round the year. In the recent

years, many of the natural sources of water started drying up. Due to the decreasing availability of water from these sources, the income from the agriculture is also getting affected adversely. As per the discussion with the locals, if the natural sources/ channels of water could be revived and river water be lifted to the hill top and flown through channels like Kuhls, farmers can irrigate their lands and agricultural practices can be restored in the long run.

Such technology can be searched within the country as well as out of the nation. A pilot project can be initiated in the area with a special financial provision made by local level administration, requiring body and concerned department. A separate study can also be conducted to assess the viability of such initiatives in the area and to present a cost-benefit analysis in the given context of the affected area.

**3. Drinking Water Supply** – From the discussion with the villagers and observation during the home visits in Balh village of Sadoh Gram Panchayat, it was found that the villagers made some arrangements to bring natural source water through pipe line at their house from other side of the river. As per the proposed plan of land acquisition under Thana Plaun HEP, this system will be submerged. Hence, before commencing the project activities, the villagers must be provided with alternate source/system for drinking water supply.

Similarly, there is a government water pumping station close to the river bank, which will also be submerged. It is imperative that all necessary arrangements are made prior to the construction phase of the project to ensure regular supply of safe drinking water in all the affected villages.

**4. Hospital** - As per the discussion with the villagers of the affected area, there are few government health facilities/centers established of different levels but the services offered are inadequate and the distances are huge.

As per the census 2011, the total rural population of the Kotli tehsil is 25860. The tehsil headquarter has one CHC which is level 2 facility and not very well equipped with essential services. The Zilla Hospital at Mandi is more than 25 km from Kotli and way more from the affected villages under different panchayats. Mandi and the affected areas are connected via serpentine road network that make the healthcare facilities less accessible.

Similarly, the rural population of Joginder Nagar is 84470 as per census 2011 and the functional CHC is of level 3. However, the distance from affected villages to this facility is more than 45 km without proper road network. Also, the distance of these villages of Joginder Nagar tehsil from Mandi varies between 50 km and more than 70 km.

Hence, the existing government facilities must be upgraded in order to provide adequate medical and health facility. The requiring body shall open a Level 3 health facility at a convenient location which is well connected to the affected villages and is equipped to cater the needs of the affected area. A Mobile Medical Van can also be stated in the area scheduled to visit on fixed days with essential test equipment and referral system. Apart from that, An ambulance service with toll free number (like 108 service of NHM) can be started, specifically for the pregnant ladies and infants/ old age people, so that timely referrals can be made.

**5. School and Scholarships** – To impart quality education for the children in the affected area, a school can also be started where the children of affected families should get the first priority during the admission. Children from the affected families may also be considered for fee concession. The requiring body shall also provide scholarships to students having highest score in the examination.

Requiring body shall help the students opting for higher education/ professional trades such as Engineering, Medical, Law and CA/CS etc. for which they can share a percentage of fees/accommodation cost of the student and later shall absorb them in the organization as per their skillsets. This could prove to be a long-term investment for the requiring body as well as a great help to the affected families who are making efforts for their children's higher education.

**6. Technical Institution** - Technical institutions can be established in the area or collaborated with existing technical institution, to offer courses like Food Preservation and Processing, Civil Construction, Vehicle Repair and related to Electrical fields. A survey can be done to understand the future needs of the area, available resources and interest of the project affected families before finalizing the trades offered by the technical institution.

**7. All weather Roads** – As per the SIA team’s observation and demand of the villagers, All Weather Roads and bridges must be built and maintained in the area. Some of them are as follows-

- Road connecting Banaroo Abal to Kotli will be submerged so a motorable bridge should be built to maintain the connectivity.
- There is no concrete road from village Charonj/Bajhera up to Banwar/Pipli.
- Village like Sadoh, Tarnoh also need to be connected through All Weather Roads.

Hence, All Weather Roads and bridges connecting to all the affected villages must be built to ensure better connectivity that has a direct impact on the development of this region. The government shall build these social capital under various development programs/scheme and departments like PWD should be given the charge of carrying out these construction work.

**8. Free Power Supply to the Project Affected Families** – After commissioning of the project each PAFs shall be provided with 100 units of free power per month. As per the suggestions of the affected families, the free supply of 100 units of electricity should not stop even after 10 years.

**9. Promotion of sports** – In order to promote physical fitness and sports, youths engaged in sports should be encouraged. The requiring body can organize Sports Competition in the affected panchayats and provide sports kits to the local Sports/Youth Clubs. Promising athletes can further be endorsed and provided employment opportunity in the project.

Sports complex can also be developed by converging with the district administration and concern departments, which may promote bright athletes and create employment for the locals.

**10. Awareness Camps** –Various awareness programs related to health, hygiene, nutrition, social rights etc. shall be organized frequently in the area. This will help the affected villagers to cope with the social changes brought in by the huge influx of population and anticipated changes in the pattern of health issues.

**11. Crematory place** - As per the respondents, there are almost 40 crematories at the river bank which will also be submerged due to proposed Thana Plaun Hydro-Electric

Project. Hence, electronic/alternative crematories shall be built in consultation with the residents of affected panchayat.

**12. Drainage System-** There is a need for developing proper drainage systems in the affected villages. The feasibility of the drainage pipes along the roads should be explored in the given terrain conditions.

**13. Model Villages-** There is a demand from the affected population that model villages should be developed in this area. “A model village is a sustainable community that is able to generate and maintain the resources necessary to improve its level of wellbeing by strengthening the sustainability pillars of livelihood, infrastructure and services.”<sup>5</sup> An assessment shall be carried out by the concerned departments to determine the feasibility in the affected villages.

**15. Bridge along with the river -** As per the discussion with residents of the project affected area, there will be loss of foot bridges in the different locations due to proposed dam. The affected families shared that these bridges have a great social value- villagers are well connected to their relatives living on the other side of the river, they can access roads and transportation services with little ease and they could gather easily to observe cultural programs.

SIA team visited two of such foot bridges which are as follows-

- Foot bridge which connect Banwar to Banogi.
- Foot bridge which connect Banaroo Abal to Ropru.

Figure 8.2.1: Pictures of the footbridge connecting to Banaroo Abal (Nohli) and Ropru (Drubbal)

<sup>5</sup> As defined by Drishtee, a social enterprise.

Hence, all alternative and suitable arrangements must be made for the affected panchayats/villages to restore the social connection and accessibility.

### **Income Restoration Initiatives under Mitigation Plan**

The hydro-electric project acquisition proposal covers panchayats predominantly dependent on agriculture for their livelihoods. This project will cause some positive and adverse impacts on the livelihoods of project affected families. Restoration of pre-project levels of income is an important part of rehabilitating such individuals, households, families in the project affected areas. Thus, the basic objective of income restoration activities is that all land-losers shall enjoy the quality of life as good as they enjoyed before the acquisition.

**A) Promotion of Horticulture and Herbal Plants:** The agro-climatic conditions of Mandi district are quite suitable for tropical and sub-tropical fruits. The places at higher altitudes produce apple, cherry, plums, apricot and lower areas produce mangoes, litchis, guava and citrus fruits. Citrus fruits like Kagzi Lemons, Kinnu and Orange can be propagated in the area. The Plant Protection, Quarantine and Storage Centers should also be established in the affected area. Herbal Plants shall also be promoted in the area with support from the concern department.

**B) Promotion of Tourism:** If adequate attention is paid by the administration, this area can be developed as a tourist destination as well as hub for water related activities /sports. River side camps and rafting can be promoted in the PPP mode which might generate regular income for the affected families.

**C) Promotion of Fisheries:** Mandi district is extensively crisscrossed by perennial rivers and streams (khads) which provide congenial conditions for development of fisheries. Training can be imparted in Pisciculture to the interested persons in the affected area. Interested people and traditional fishermen (from the affected families) can be supported in obtaining the fishing license from the concerned department.

**D) Animal Husbandry:** The livestock is the chief wealth next to agriculture to a major segment of affected population and every household invariably has cows or buffaloes, sheep, goats, and ponies in affected areas. Animal husbandry, which is helpful to small

and marginal farmers for increasing their income, can be commercialized. A milk cooperative can be promoted in the area which will benefit not only the project affected families but also the entire area.

**E) Forming and Strengthening Self-Help Groups (SHGs):** The requiring body should provide opportunities for women to come together and form SHGs and strengthen the existing ones with proper training and to earn their livelihoods through the bank loans offered to the registered SHGs. Handicraft, diary, shawl making, stitching and embroidery etc. can be introduced.

**F) Food Processing Units: Agro-based Food Processing Unit and Fishing and Related Processing Units** can be another area for sustainable income sources for the project affected families. Possibilities of establishing such units can be explored in consultation with the concerned departments/ district administration and entrepreneurs among the affected population.

**G) Institutional linkages for income restoration:** During the survey, it was observed that some of the eligible families for income restoration had been earning their livelihoods through horticulture, petty businesses and livestock. Requiring body can play a proactive role to mobilize affected family members to organize Self Help Groups (SHGs) to get some vocational/ skills training opportunities and also support in establishing forward and backward linkages for raw materials, inputs, besides marketing and credit facilities. District administration and other stakeholders in institutional financing and marketing shall prepare micro-plans for undertaking such activities. In case of creation of alternative livelihoods schemes, needs of the target population will be studied and prioritized in a participatory manner. Various poverty alleviation and income generation schemes sponsored by the state govt. and GOI shall be converged for offering income restoration options to the affected population.

**e) Project-based Employment:** Project-related employment opportunities such as work under the project construction and maintenance contractors shall also be open to the affected population.

**Development of Farmer & Community Oriented Set-up –**

- Seed banks can be established to safeguard the original/ indigenous seeds of the area and further promoted among farmers.

- There is a need of Financial Education for the project affected families, as it had been observed in many land acquisition for development projects- whenever the bulk cash compensation has been disbursed to the families, that money has not been utilized judiciously by the family members. The money is generally spent on the luxuries and not on necessary items and, therefore, it changes the spending patterns and lifestyle of the individuals/families. Sometime this also causes loss of traditional and cultural practices prevailed in the society. Many families are not aware of the financial management as a whole and savings in particular. Hence there is a concern that the money will not last for long and ultimately adversely affect the families as well as the society in the long run. It is advisable that acquiring authority must organize “**Financial Literacy Camps**” in affected project area with the help of external agency and educate the locals about Financial Management.

Nevertheless, the requiring body should consider preparing a detailed Mitigation Plan in accordance to the above mentioned suggestions, since it has been drafted from the specific feedback received from the local community and PAFs.

### **Local Area Development Fund**

LADF Contribution is 1.5% of the project cost during construction period of the project. Thereafter 1% shall be earmarked for the LADF to provide a regular stream of income generation and welfare schemes on a sustained and continued basis over the life of the project. The Govt. of HP may also provide matching 1% from its share of 12% free through plan/budgetary provisions to the LADF. These provisions need to be widely discussed with project affected families and for that, a Local Area Development committee (LADC) can be formed comprising various stakeholders such as government departments, members from project affected families and requiring body officials.

### **8.3. Measures included in R&R and Act 2013**

This SIA report will be beneficial for the requiring body to undertake land acquisition process and also to prepare a Plan of Action according to the aspiration conveyed by the project affected families and other stakeholders during public consultations and surveys. In the light

of the findings of the study, the following steps may be taken for mitigation of expected social impacts.

Table 8.3.1 Key Impacts due to Hydro Electric Project and Suggested Measures for Mitigation

S. No.	Assessed Impact	Suggested Mitigation Measure
1	Loss of Land: 249-19-14 Bighas of private land in 21 villages	The land acquisition will be undertaken in accordance with the Act 2013, and entitlement framework.
2	Impact on Livelihood/ income: 14.5% affected families will lose their occupation due to 100% loss of agricultural land	Some of the project affected family members may be provided with employment as per their skill (one per family). For others self-employment, opportunities may be arranged through skill upgradation as per the Schedule-2 of Act 2013
3	Loss of residential or commercial structures	Due compensation for eight residential structures and twelve cattle sheds to be provided
4	Loss of assets attached to land/ house	Due compensation to be given to the respective PAFs
5	Loss of Common Properties	All the cultural properties and common property resources being impacted due to the project should be relocated with prior approval of the concerned community before starting the construction
6	Loss of Public Utilities	All community utilities such as water supply stations, public roads, electric power supply lines, telephone and television cables are to be identified for relocation
7	Impact on vulnerable group, like.: 125 Women headed households; 50 unmarried daughter above age 18 years; and 52 widows/divorcees, 16 mentally/ physically challenged persons	Beside admissible compensation, they may be provided with special assistance like providing additional support in terms of skill development and income restoration to at least one member from each vulnerable family
8	Impact on Food Security: Loss of cultivable land are likely to be	Agriculture Department may be advised to assist the affected families to undertake intensive cultivation

	affected	in the remaining land
9	Noise and Air pollution	Development and implementation of a management plan to mitigate the increased levels of noise, traffic, dust may be taken up in consultation with local people, within the permissible limit.

#### 8.4. Outlay for SIMP implementation

The entitlement framework and the process of rehabilitation and resettlement have been furnished below in the backdrops of the legal provisions applicable for the project affected families.

An Entitlement Matrix has been developed in compliance with Laws, Rules and Policies framed by the Government of India and Government of Himachal Pradesh. The entitlement matrix summarizes the types of losses and corresponding nature and scope of entitlements.

Table 8.4.1: Entitlement Matrix

S.N.	Impact Category	Unit of Entitlement	Details of Entitlement	Remarks
<b>Loss of Assets - Titleholders</b>				
<b>Loss of Private Agricultural, Homestead and Commercial Land</b>				
1	Private Land	Land owner(s) /Titleholder	<p>(a) Cash compensation for the land at market value, which will be determined as per provisions of RFCTLARR Act, 2013</p> <p>(b) Amount equivalent to current stamp duty on compensation amount for replacement of lost assets.</p> <p>· Training Assistance</p> <p>(c) Loss of perennial and non-perennial crops and trees will be compensated in accordance with the provisions of Horticulture and Agriculture Department as applicable.</p> <p>(d) A Grant of Rs 25000 for replacement of cattle shed or petty shops.</p>	Compensation for land includes compensation for all assets attached to the land.

<b>Loss of Private Structures (Residential/Commercial)</b>				
<b>2</b>	Loss of structure (Residential or Commercial or Res-cum-Commercial)	Land Owner/Titleholder	<p>(a) Cash compensation determined on the basis of current rates as per admissible norms</p> <p>(b) Shifting allowance of Rs 50000 as per provisions of RFCTLARR Act, 2013 for the displaced families</p> <p>(c) Provision of free house as per RFCTLARR Act 2013, for completely displaced residential/commercial</p> <p>or</p> <p>Equivalent cost of the house may be offered in lieu of the constructed house</p> <p>(d) Subsistence allowance of Rs 36,000 for the displaced families (RFCTLARR Act 2013)</p> <p>(e) Resettlement allowance of Rs 50,000 for the displaced families (RFCTLARR Act 2013)</p>	
<b>3</b>	Tenants and Lease holders	Tenants and lease holders	Registered lessees will be entitled to an apportionment of the compensation payable to structure owner as per applicable local laws.	
<b>Loss of Residential and Commercial Structures - Non Titleholders</b>				
<b>4</b>	Encroachers	Affected Person (Individual/Family)	<p>(a) Encroachers shall be given advance notice of 2 months in which to remove assets/crops.</p> <p>(b) Right to salvage materials from affected structure</p>	
<b>Loss of livelihood – Title and Non-Titleholders</b>				
<b>5</b>	Loss of livelihood – Title holders, Agriculture labour and commercial	(Individual/Family)	One time grant of Rs 25,000 (value prescribed under RFCTLARR Act 2013)	For commercial squatters, the eligibility will become from the date of Census

	squatters			survey
6	Foreseeable and unforeseen impacts likely during the construction stage	Owner, affected person	Payment of damages if any to structures  Temporary access would be provided, wherever necessary	Such as temporary impacts on structures, temporary disruption to access or passage
7	Temporary loss of income of mobile kiosks, if any	Kiosk owner	Two months advance notice to vacate the area	
8	SC, ST		Assistance to include in government welfare schemes if not included, if eligible as per Government criteria; and  Additional benefits to SC and ST as per the provisions of RFCTLARR Act 2013 Second Schedule	
9	Unforeseen impacts		Any unforeseen impacts shall be documented and mitigated in accordance with the principles and objectives of the Act.	

Details of Cost of Resettlement and Rehabilitation has been worked out and given in tables 8.4.2. to 8.4.5

Table 8.4.2: Details of Estimated Compensation on Land

	1	2	3	4	5	6	7	8	9

The above estimate and the rate of the trees (fruit-bearing and non-fruit trees) are subject to change as per the enumeration, verification and valuation of the trees by the competent authority.

Table 8.4.4: Details of Estimated Rehabilitation and Resettlement Costs

Families displaced due to loss of housing unit	Details of Costs	Amount
A house will be provided under Pradhan Mantri Awas Yojana (PMAY). Each family will only get one house. If not opted for house, equivalent cost of the house would be offered.	Under PMAY 2016 notification of HP government, the allowance for each house would be 1.30 lakhs in hilly states 8 families x 130000 (tentative)=1040000	1040000
One-time payment of 5 lakhs per PAF or, under annuity policy, 2000/- per month per family for 20 years	8 families x 500000= 4000000	4000000
Subsistent grant of 3000/- for each family for one year**	8 families x 36000= 1944000	288000
One-time shifting cost of 50000/- per family	8 families x 50000= 2700000	400000
One-time "Resettlement Allowance" of 50000/- per family	8 families x 50000= 2700000	400000
PAFs with loss of cattle-sheds/ petty shops	12 families	
One-time grant financial assistance of minimum 25000/- to construct cattle-sheds or petty shops	12 families x 25000= 925000	300000
	<b>Total Estimation</b>	<b>6428000</b>

*\*\*In case of SC/ST, additional one-time grant of 50000/- should be given to each family for resettlement.*

The above estimation cost is calculated under provisions made under Act 2013.

Table 8.4.5: Details of Total Costs for Land Acquisition, Rehabilitation and Resettlement

S. No.	Details of the costs	Amount
1	Compensation for land**	1163022862
2	12% interest on the compensation (land) amount	139562743.4
3	Compensation for trees	58537000
4	Rehabilitation and Resettlement costs***	6428000
5	Total Cost	1367550605
6	Miscellaneous (10% of the total cost)	136755060.5
	<b>Total (5+6)</b>	<b>1504305666</b>

\*\*The compensation for land acquisition doesn't include compensation for standing crops, which will be calculated by the competent authority

\*\*\*The compensation does not include compensation of Gharats, which will be calculated by the competent authority

Information collected during the survey is based on the interviews of the respondents and the information provided by them is considered true but it is not the authentic version of ownership entitlement. The total land area belonging to the private comes to 249-19-14 Bighas for which, on the basis of the computation of compensation formula, the tentative land compensation (excluding compensation for standing crops) works out to Rs. 1163022862/- (Rupees hundred and sixteen crores thirty lakhs twenty-two thousand eight hundred and sixty-two only). At 12 percent rate of interest on the compensation of land, an amount of 139562743.4/- (Rupees thirteen crores ninety-five lakhs sixty-two thousand seven hundred forty-three and forty paise only) has been estimated for payment as per Section 30 (3) of Act 2013.

The compensation for trees is estimated as 58537000/- (Rupees five crores eighty-five lakhs thirty-seven thousand only). However, the number of the trees will be enumerated and the actual value will be assessed by the competent authorities.

This estimation of compensation for land acquisition doesn't include compensation for standing crops. The cash compensation against crops will be provided at market cost of mature crops based on the average production.

The entitlements for R&R expenses are totalling to Rs. 6428000/- (Rupees sixty-four lakhs twenty-eight thousand only). The total cost for land acquisition including R&R is estimated as Rs. 1504305666/- (Rupees one hundred fifty crores forty-three lakhs five thousand six hundred and sixty-six only). However, the final compensation amount for the land acquisition and structures will be determined by the Competent Authority as per the Act

2013. The traditional forest-dwellers may also be compensated as per the provision for the Schedule -2 of Act 2013. Further, the cost of the Mitigation Plan has not been included in the said computation.

### 8.5. Measures by Requiring Body as per HP Rules 2015

Standard R&R Plan for all HPPCL as received following Govt. of H.P. Notification up to 2<sup>nd</sup> April, 2012

<p><b>5. Resettlement Grant.</b></p> <p>5.1 The PAF rendered landless on account of acquisition of land shall be eligible for landless grant in the following manner.</p> <ol style="list-style-type: none"> <li>1. Families whose land before acquisition was more than 5 bighas and left with one biswa or no agriculture land after acquisition, Rs. 2.50 lac lump sum.</li> <li>2. Family whose land before acquisition was less than five bighas and is left with one biswa or no agriculture land after acquisition, Rs. 1.50 lac lump sum,</li> <li>3. Family whose land holding is left with more than one biswa and less than 2-10-0 bighas of land after acquisition, Rs. 1.00 lac lump sum.</li> <li>4. Family whose land holding is left with more than 2-10-0 and less than five of land after acquisition, Rs. 75,000/- lump sum.</li> <li>5. Other families whose land has been acquired and land holding left after acquisition is more than 5 bighas amount equal to the land compensation paid subject to a minimum of 5000/- and maximum of 50,000/-.</li> <li>6. Family whose cattle shed is acquired in the project area, shall get on time financial assistance of Rs. 10,000/-. In no case the grant shall exceed Rs. 25,000/-per family.</li> </ol> <p>5.2 Each PAF rendered landless as well as; houseless (both) or houseless will be provided an independent house with a built up plinth area of 150 Sqm. Alternatively, PAF can also be offered a plot of size 250 Sqm. which allows construction of built up house of 150 Sqm. plinth area plus construction cost of the house @ Rs. 4000 per Sqm. (limited to 150 Sqm. plinth area). A family which does not opt for house/plot but constructs a house at own cost with a plinth area of 150 Sqm or more shall be paid the construction cost of the house of Rs. 5000 per Sqm (upto a plinth area of 150 Sqm maximum). Options from such families will be asked at an appropriate time. In case any of such family constructs house of less than 150 Sqm. Plinth area on his own plot or plot offered by the Project then amount to be given will be worked out on pro-rata basis.</p> <p><b>This facility will be available in the event of acquisition of dwelling houses in the farm land (Dhogri) also.</b></p> <p>5.3 Displaced shopkeepers will be given shops in allotment in the market complex of the Project Township wherever (he Project constructs such market places. In addition, they will be entitled to one time displacement grant of Rs. 20,000/- The Commercial premises/ shops allotted to such displaced shopkeepers shall be utilized by them or their successors in interest for confide use only h. In case the project is unable to provide shops, displaced shopkeepers shall get financial assistance of Rs.2,00,000/-</p>
--

5.4 Infrastructure facilities in the Rehabilitation colony will include water supply, sewage drainage electricity, streets community centre, green area, park and approach path/roads at the project cost.

5.5 Transportation at the project cost will be provided for physical movement of all the PAFs, and displaced shopkeepers and their house hold goods/ shop goods, as soon as the houses/shop get constructed in the Rehabilitation colony or a sum of Rs. 20,000/~ in lump sum shall be paid, for which option will be invited from the affected families/ shopkeepers.

5.6 Stamp duty and other fees payable for registration shall be borne by the Project Authority. Rehabilitation grant shall be provided by the Project Authorities and placed at the disposal of the Deputy Commissioner, for disbursement to the eligible PAF's.

5.7 Transitional/ Subsistence Allowance based on 25x12 months minimum wages to each Project Affected Family will be paid if the family has become houseless and has to shift house or become landless and has to shift livelihood to a different location or change livelihood or has been involuntarily displaced.

5.8 Whereas it is not possible to provide land in exchange of land acquired but in case "7 some agricultural land is available for distribution, upto 5 bighas land will be given to each PAF by giving priority to landless. This land will be given only to such PAF's who are primarily dependent on agriculture and the livelihood is substantially affected by land acquisition. In no case will land to be given in excess of that acquired. Giving of agricultural land will not be a right and will be only a welfare measure to be given only, if possible.

If it is not possible to give land, a financial assistance at the rate of Rs. 50,000/-per bigha of cultivable land acquired and Rs. 20000/- per bigha for uncultivable land acquired will be paid as an additional assistance to the project affected family for purchasing land. This assistance will only be given if the Project Affected Family is able to prove that this will be utilized to purchase land of a value more than the money paid to the Project Affected Family under this clause (Clause-5.8). If waste land or degraded land is allotted under this clause, then a land development charge of Rs. 15,000/- per bigha will be paid. The PAF's who are allotted land or those who purchase agricultural land will also get Rs.10, 000/- cash for agricultural production. Each PAF which is displaced and has Cattle will be given Rs. 20,000/- for construction of cattle shed.

Each PAF who is an artisan, small trader or self-employed person and has been displaced shall get a one-time financial assistance of Rs. 50,000/- for construction of working shed or shop.

The families who have to shift house due to the project will be provided temporary accommodation at project cost for 3 to 6 months depending on their need.

5.9 Loss of income from Forest or Govt. Land: If PAF's have rights over minor forest produce like herbs, chilgoza etc. and acquisition of such Govt/Forest land will deprive them of income/benefit which they were deriving from their right they may be suitably compensated by a lump sum grant. If some portion of such land being acquired & not being submerged or used for construction and is to remain as such or as a buffer zone around the reservoir or around the project, the PAF's may be allowed to extract minor forest produce if it safe for them. NOTE: All the above grants shall be in addition to the compensation paid under Land Acquisition Act, 1894.

## **6. Employment**

One member of -each Project Affected Family rendered landless will be provided employment by the Project Authority in the category of skilled/ semiskilled/ unskilled workmen subject to fulfilling the requisite criteria/qualification and as and when any fresh recruitment is done in these categories, it would be ensured that land oustees eligible for employment as mentioned above are given chance first and normal recruitment would be made only if none are eligible & willing from amongst them.

However, persons who are allotted shops shall not be eligible for benefit of employment and vice versa.

The following criteria will be adhered to by the Deputy Commissioner concerned for providing of preference while sponsoring the names for employment to the Project Authority.

- i. Affected families whose entire land has been acquired.
- ii. Affected families who have become landless on account of acquisition of land by the project.
- iii. Other affected families.

Within these categories preference will be given on the basis of quantum of land acquired. Those who lose more land will come first.

**6.0 (a)** If there are some families who have lost their source of livelihood completely and do not have the capabilities or the financial strength to take on any other occupation and 'are not even provided alternator land. the project authorities may consider to provide direct employment to the members of such families as a special case on recommendation from the Deputy Commissioner and after due verification.

6.1 The main PAF who are eligible for direct employment but have not been provided employment will be given a special rehabilitation/employment grant equivalent to 1000days of minimum wage for labour per family. (The employment here wmm mean regular employment in the organization building of the project). The PAFs will be given option to opt for direct employment.

6.2 Annuity Policy will be arranged for each vulnerable PAF [disabled, destitute, orphans, widows, unmarried girls (with no financial support), abandoned women, or poor persons above fifty years of age (who are unsupported)] who are not provided or cannot immediately be provided with enervative livelihood and who are not otherwise covered as part of a family which will provide a pension of Rs. 1000/-PM to the family starting from a date 5 years after the dale of implementations of this plan and will continue for 10 years after that date. The Vulnerable PAF's will be those which are identified by the administrator under this plan.

6.3 Secondary Employment: The PAF's will be provided help to get employment other than direct employment in the project in the following manners:

6.3.1 Merit scholarship scheme for the wards of Project Affected Families (PAFs) and other residents of project affected zone who may be pursuing vocational or professional course will be introduced by the Project Authorities as per scheme to be drafted by the Project Authority in consultation with Government of Himachal Pradesh. The project authorities will also consider getting some special seats in ITI's for the project affected families and other residents of the project affected zone. Some schemes to provide apprenticeship or on the job training to increase the employability of the residents of the project affected zone will also be started. Merit scholarship scheme for school going students of project affected zone will be started.

6.3.2 The Project Authorities will also consider award of petty contracts to the cooperatives of eligible families^ on preferential basis so that some may be engaged in such jobs. Further, the Project Authorities will advise their contractor to engage eligible persons from amongst affected families on a preferential basis

wherever possible during construction stage. Other employment opportunities like hiring vehicles from PAF's will also be made available. Normally all contracts upto a value of Rs. 5 lakh will be given to PAF's and if PAF's are not available families living in project affected zone. All vehicles hired by the project will be from PAF's and if not available from PAF's then from residents of Project Affected Zone. The new vehicles hired from PAF's may be hired for 3+1 years.

6.3.3 The Project affected families (such as rural artisans/small traders and self-employed persons) will be assisted to start various suitable self-employment occupations, which include dairy farming, poultry, weaving, bakery handicraft, cottage industries unit/shops and hiring of vehicle to the corporation. The project Authority will provide a grant of Rs. 50,000/- per family towards seed capital. The grant will be given once only.

“Only those families who have not been provided with employment in the the project or have not been

allotted any shop will be eligible for this grant”

Families residing in the project affected area other than PAFs can also be considered this on merit and if any needy.

**Explanation:**

The Deputy Commissioner, will certify the effect on source of livelihood in case of rural artisans, small traders and self-employed persons for eligibility of the grant.

6.3.4 The PAF's and other fishermen having fishing rights in the river will also get fishing rights in the reservoir.

6.3.5 If any manpower is obtained by the project authorities through outsourcing at any time during construction or running of the project for services like housekeeping, gardening, typing, maintenance, computer work, office help etc first opportunity will be given to PAF's as contractors and also as personnel hired by contractor for their jobs. If PAF's are not willing, then other residents of project affected zone may be considered.

**7 R&R Benefits for PAF's belonging to ST & SC.**

7.1 In case the families loose access to forest due to the project a special plan will be formulated for development of alternate 'fuel, fodder and non-timber forest produce.

7.2 Each PAF of ST followed by SC categories shall be given preference in allotment of land if any land is available for allotment to PAF's.

7.3 Each ST family will get an addition one-time financial assistance of 500 days' minimum wages for labour for loss of customary right's or usage of forest produce.

7.4 ST. PAF's will be resettled as far as possible in the same schedule area in a compound block so that they can retain their ethnic, linguistic and cultural identity.

7.5 The resettlement area prominently inhabited by STs shall get 1000 Sq.m. Land free of cost for community and religious gatherings.

7.6 The ST's families resettled of the district will get 25% higher resettlement grant.

**8. Other benefits:**

8.1 Each PAP will be provided 100 units of electricity per month for a period of 10 years from the date of commissioning of the project, if the consumption of the PAF is less than that then the difference will be compensated in cash.

8.2 Medical fund: A medical fund will be created for the PAF's. This fund will be need for providing treatment to the member of PAPs in hardship due to illness or in extreme illness or accident cases. Medicines may also be provided to other residents in the area.

8.3 Free medical treatment will be provided to PAF's at the project medical Facility.

8.4 Medical camps will be organized in various places in the project affected zone from time to time.

8.5 In order to help the families living in the project affected zone and to improve their skills in their occupation Agriculture, Horticulture and animal husbandry training and awareness camps will be organized by the Project Authorities from time to time Training camps on other subjects like finance

and accounts, how to run a small business, alternatives for self-employment etc. will also be organized from time to time.

8.6 If it is felt that the fuel supply of the local residents is affected due to construction of the project, a scheme will be formulated to provide alternative fuel or fuel saving devices to the families whose fuel supply is affected.

8.7 Each PAF will be given an identity card which will have names of all the members of PAF.

8.8 The project authorities will set up one or more Project Information Officer for providing information and guidance to the local people particularly the PAF's.

8.9 Project authorities will set up a cultural fund for providing grants for organizing local fairs, festivals and functions.

### **9 Infrastructure Development:**

Construction of the project is a major development activity for the area. It will be ensured that the available infrastructure in the area improves with the project.

9.1 If any available infrastructure is damaged due to the project, it will be restored.

water supply, irrigation, roads, paths, schools, places of worship, community building etc.

9.2 The local people will be allowed use of the infrastructure created primarily for the project like roads, bridges, schools, etc.

9.3 A fund under the name LADF will be created for development of infrastructure in the project affected area. The project authorities will contribute 1.5% of the project cost towards the funds. This fund will be administered by a Local Area Development Committee in accordance with the orders of the appropriate Government. The 80% of the funds available in LADF will be divided amongst the Panchayats falling within the Project affected area on the basis of a formula giving equal weight age to 3 criteria i.e.

(i) Number of project affected families.

(ii) Area acquired.

(iii) Extent of underground works and disturbance in the area.

The remaining 20% funds may be used for common works or for works in the project affected zone or for completion of incomplete works.

9.4 The project authorities will also build infrastructure over and above LADF at their own which will benefit the local population.

### **8.6. Additional Measures by Requiring Body**

Regarding additional measures, there is no plan shared by the Requiring Body in response to the finding of the SIA process and the Public Hearing.

### 8.7. Institutional Arrangement for implementation of Rehabilitation and Resettlement Plan

As per the act 2013, where land proposed to be acquired is equal to or more than 100 acres, the government shall constitute a “Rehabilitation and Resettlement Committee” under the chairmanship of the Collector. This committee would aim to review the progress of implementation of Rehabilitation and Resettlement Schemes or plan and to carry out the post-implementation Social Audit in consultation with the Gram Sabha. The members to be involved in the process of implementation and social audit thereafter, may be as follows:

1. A representative of women residing in the affected area.
2. A Representative of SC population residing in the affected area.
3. A Representative of a voluntary organization (NGO) working in the area.
4. The Land Acquisition Officer of the Project.
5. The Chairperson of the Panchayat/s of the affected area or their nominee/s.
6. Member of Parliament and Member of Legislative assembly of the concerned area or their nominee. (GP Pradhan)
7. A Representative of Requiring Body.
8. Administrator for R&R as the Convener.

### 8.8. Grievance Redressal Committee (GRC)

Efficient grievance redressal mechanism shall be developed to assist the PAFs to resolve their queries and complaints. Grievances of PAFs shall be first brought into the attention of field level functionaries of the project. Grievances not redressed by then will be brought to the Grievance Redressal Committee (GRC). The composition of the proposed GRC may be the same as R&R Committee. This Committee may meet on the monthly basis or the case may be defined by the state Government.

The main responsibilities of the GRC may be:

- i. Provide support to PAFs on problems arising from land / property acquisition;
- ii. Record PAFs grievances, categorize and prioritize grievances and resolve them; and,

- iii. Report to PAFs on developments regarding their grievances and decisions of the GRC.

Other than disputes relating to ownership rights under the court of law, GRC will review grievances involving all resettlement benefits, compensation, relocation, replacement cost and other assistance. When any grievance is brought to the field level functionaries, it should be resolved within 15 days from the date of complaint. The GRC will meet every month (if grievances are brought to the Committee), determine the merit of each grievance, and resolve grievances within a month of receiving the complaint — failing which, the grievance will be referred to appropriate Court of Law for redress. Records will be kept of all grievances received including: contact details of complaint, date of the complaint, nature of grievance, corrective actions taken and the date these were effected, and final outcome. A flow chart of grievance redressal mechanism is indicated in Figure 8.8.1 below:

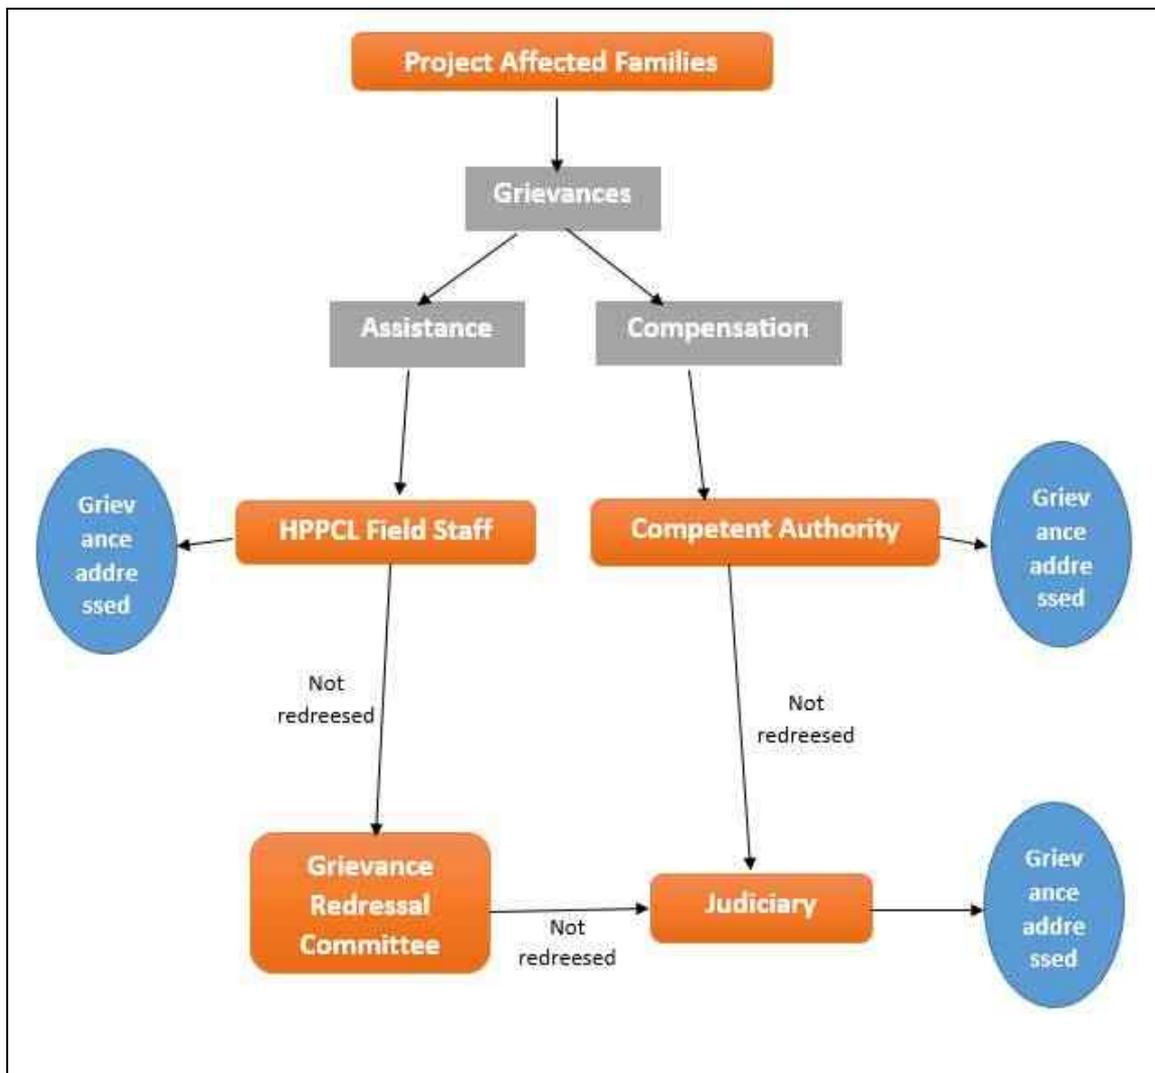

Figure-8.8.1: Stages of Grievance Redressal

## 8.9. Monitoring and Evaluation

Monitoring and Evaluation of the SIMP implementation is necessary as activities are to be executed by many agencies in a time bound manner. Monitoring involves periodic checking to ascertain whether activities are progressing as per the schedule whereas Evaluation is to assess the performance of the SIMP. For this purpose, a Monitoring and Evaluation plan needs to be developed to provide feedback to the project authorities. Monitoring and Evaluation of R&R gives an opportunity to reflect on the success of the R&R objectives, strategies and approaches and to assess the efficiency and efficacy in implementation of R&R activities, their impact and sustainability. Monitoring will give particular attention to the project affected vulnerable families and groups such as Scheduled Castes, Scheduled Tribes, BPL families, women headed households, widows, old aged and the physically or mentally challenged persons. An independent evaluation through third party is also necessary for mid and end term evaluation of SIMP implementation.

### 8.9.1 Internal monitoring

The internal monitoring for SIMP implementation will be carried out by the project authorities where main objectives will be to report progress against the SIMP schedule; check that agreed entitlements are delivered in full to affected families and people; identify any problems, issues or hardship resulting from the SIMP implementation and to take corrective actions; monitor the effectiveness of the grievance system and measure the satisfaction of PAFs. Internal monitoring will focus on measuring progress against the schedule of actions defined in the SIMP. Activities to be undertaken by the project authorities will include liaison with the Land Acquisition team, construction agencies and project affected communities to review and report progress; verification of land acquisition compensation delivery against entitlements in accordance with the SIMP; verification of implementation of agreed measures to restore income and living standards of PAFs; identification of any problems, issues, or hardship resulting from resettlement process; assess project affected families and peoples' satisfaction with resettlement outcomes; and redress grievances of PAFs to follow up that appropriate corrective actions. Field level officers of HPPCL, in charge of SIMP

implementation will track the R&R progress. For this purpose, the indicators suggested are as given in table 8.9.1.

Table 8.9.1: Indicators for monitoring of SIMP progress

Physical	Extent of land acquired, number of structures dismantled, number of families affected, number of families purchasing land and extent of land purchased, number of PAFs receiving assistance/compensation, number of PAFs provided transport facilities/ shifting allowance, extent of government land identified for house sites, number of land users and private structure owners paid compensation
Financial	Amount of compensation paid for land/structure, cash grant for shifting, amount paid for training and capacity building of PAFs.
Social	PAFs knowledge about their entitlements, communal harmony, morbidity and mortality rate, taking care of vulnerable population etc.
Economic	Number of Jobs provided to the entitled families, number of business re-established, utilization of compensation, house sites/business sites purchased successful implementation of Income Restoration Schemes implemented
Grievance	Number of community level meeting, number of grievance redressal meetings held, number of cases disposed by Project authorities to the satisfaction of PAFs, number of grievances referred and addressed by the concerned Authorities

### 8.9.2 Independent Evaluation

An Independent Evaluation Agency may be hired by the Project for mid and end term evaluation to achieve the following: (a) verify results of internal monitoring; (b) assess whether resettlement objectives have been met, specifically, whether livelihoods and living standards have been restored; (c) assess resettlement efficiency, effectiveness, impact and sustainability; (d) ascertain whether the resettlement entitlements were appropriate to meeting

the objectives and (e) this comparison of living standards will be in relation to the baseline information available. The following table 8.9.2 should be considered as the basis for indicators in external evaluation of the SIMP.

Table 8.9.2: Indicators for Project Outcome Evaluation

S. No.	Objectives	Risks	Outcomes
1	The negative impact on the persons affected by the project will be minimized	Resettlement plan implementation may take longer time than anticipated	Satisfaction of the landowners with the compensation and assistance paid. Type of use of compensation and assistance by the landowners Satisfaction of structure owners with compensation and assistance Type of use of compensation and assistance by the structure owners
2	Persons and families losing assets to the project shall be compensated as per the Act and Rules	Institutional arrangement may not function as efficiently as expected	Percentage of PAFs adopted the skills acquired through training as only economic activity Percentage of PAFs adopted the skills acquired through training as secondary economic activity
3	Affected persons and families will be assisted in improving or regaining their standard of living	Authorities implementing SIMP may not perform the task as efficiently as expected	Percentage of PAFs reported increase in income due to training Percentage of PAFs got trained in the skill of their choice Role of project authorities in helping PAFs in selecting trade for skill improvement Use of productive assets provided to PAFs under one-time economic rehabilitation grant
4	Vulnerable groups will be identified and assisted in improving their standard of living	Unexpected number of grievances may arise PAFs falling below their existing standard of living	Type of use of additional assistance money by vulnerable group Types of grievances received Number of grievances forwarded to Grievance Redressal Committee (GRC) and the time taken to solve them Percentage of PAFs aware about the GRC mechanism

			Percentage of PAFs aware about the entitlement framework Opinions of PAFs about the approach and accessibility of the project authorities

## SURVEY QUESTIONNAIRE

Social Impact Assessment, Hydro Electric Power Project  
Stage I, (210MW), Himachal Pradesh

- A. Project Name: ..... B. Name of the Respondent:.....
- C. Name of the Village: ..... D. Name of GP.....
- E. Block: ..... F. District: .....
- G. Thana No: ..... H. Plot No. ....
1. Ownership of the Land
1. Private    2. Government    3. Religious    4. Community    5. Others.. ....
2. Type of Land
1. Irrigated    2. Non-Irrigated    3. Barren    4. Forest    5. Others.....
3. Use of Land
1. Cultivation    2. Orchard    3. Residential    4. Commercial
5. Forestation    6. No Use/ Barren    7. Other (specify) .....
4. Affected area of the Land/Plot (in Acre): .....
5. Total Area of the affected Land/Plot (in Acre): .....
6. Total Land Holding of the Affected Person (in Acre)
1. Irrigated: ..... 2. Non-irrigated: .....
3. Other: ..... 4. Total: .....
7. Status of Ownership
1. Titleholder    2. Customary Right    3. License from Local Authority
4. Encroacher    5. Squatter    6. Other (specify): .....
8. Type of Private Ownership
1. Individual/Single    2. Joint/Shareholders    3. Other (specify): .....
9. Name of the Owner/Occupier (s): .....
10. Father's Name: .....
11. Rate of the Land (Per Acre)
1. Market Rate: ..... 2. Revenue Rate: .....
12. Any of the following people associated with the Land
- A. Agricultural Laborer    1. Yes    2. No
- Name (i)..... (ii) .....
- B. Tenant/Lessee    1. Yes    2. No .....
- Name (i)..... (ii) .....
- C. Sharecropper    1. Yes    2. No
- Name (i)..... (ii) .....
13. Any structure in the Affected Land    1. Yes.....    2. No.....
14. Distance of the main structure from center line of the road (in mtr.).....

15. Distance of boundary wall (if any) from center line of the road (in mtr.).....
16. Area of the affected structure (in Square Meter)  
 a) Length ..... b) Width ..... c) Height .....
17. Area of the boundary wall only (in Meter): a) Length .....b) Height .....
18. Area of the total structure (in Square Meter)  
 a) Length ..... b) Width ..... c) Height .....
19. Scale of Impact on structure  
 a) 25% b) 50% c) 75% d) 100%.....
20. Type of Construction of the Structure.....   
 1. Temporary (buildings with mud/brick/wood made walls, thatched/tin roof)  
 2. Semi-Permanent (buildings, with tiled roof and normal cement floor)  
 3. Permanent (with RCC, Single/ Double storey building)
21. Type of Construction of the Boundary Wall (use code from Question: 20)
22. Age of the Structure (in years): .....
23. Market Value of the Structure (in Rs.): .....
24. Use of the Structure (select appropriate code from below)
- A. Residential Category   
 1. House 2. Hut 3. Other (specify).....
- B. Commercial Category  
 4. Shops 5. Hotel 6. Small Eatery 7. Kiosk 8. Farm House  
 9. Petrol Pump 10. Clinic 11. STD Booth  
 12. Workshop 13. Vendors 14. Com. Complex  
 15. Industry 16. Pvt. Office 17. Other (specify).....
- C. Mixed Category  
 18. Residential-cum-Commercial Structure
- D. Community Type  
 19. Community Center 20. Club 21. Trust 22. Memorials  
 23 Other   
 (specify).....
- E. Religious Structure  
 24. Temple 25. Church 26. Mosque 27. Gurudwara 28. Shrines  
 29. Sacred Grove 30. Other (specify).....
- F. Government Structure  
 31. Government Office 32. Hospital 33. School 34. College  
 35. Bus Stop 36. Other (specify).....
- G. Other Structure  
 37. Boundary Wall 38. Foundation 39. Cattle Shed  
 40. Other (specify).....
25. Type of Business/Profession by Head of Household: .....
26. Status of the Structure

39. Income Restoration Assistance (fill codes in preferred order).....

1. Employment Opportunities in Construction work
2. Assistance/ Loan from other ongoing development scheme
3. Vocational Training
4. Others

40. Details of Family Members: (fill appropriate code)

Sl. No	Name of the Family Member	Age	Sex	Marital Status	Education	Occupation
		in years	1. Male 2. Female	1. Married 2. Unmarried 3. Widow 4. Widower 5. Others	1. Illiterate 2. Literate 3. Up to middle 4. Below metric 5. Metric 6. Graduate 7. Above Grad. 8. Below 6 years	1. Service 2. Business 3. Agriculture 4. Study 5. Housewife 6. Labour 7. Unemployed 8. Professional 9. Below 6 years 10. Old/inactive

41. A 1 Health Care Facilities - Existing System and Gaps

A2. What are the common diseases in the area?

-----  
-----  
-----

A3. How adequate is the healthcare facility?

-----  
-----  
-----

A4. What are the general gaps of health care services? (√ the appropriate reasons)

- 01 Poor Road                      02 Lack of Hospital/
- 03 Lack of Doctors            04 Lack of Nurses/
- 05 Lack of Medicine         06 Lack of facilitators
- 07 Lack of                        08 Poverty
- 09 Others, Specify

A5. Is there HIV/ AIDS/ STD prevalent in region?

Yes -1    No-2

A6. If yes, what measures can be taken to stop spread of STD/ HIV/ AIDS?

-----  
-----  
-----

**B. Education Facility – Existing system and Gaps – ICDS programe**

B1.	ICDS/ Anganwadi School in the village	Nos.	Males		Females		
B2.	Is attendance regular?		01	Yes		02	No
B3.	Is Mid Day Meal (MDM) available?		01	Yes		02	No
B4.	Is there any complain about MDM		01	Yes		02	No

B5. Kindly provide the following information of your village.

Education	No. of Village Children attending the school	Distance	Mode of Transport	Problems Faced
Primary School (upto Class V)				
Middle School (Class VI - VIII)				
Secondary School (Class IX - X)				
Higher Secondary (Class XI - XII)				
College				
University				
Technical Institute				

**C. Other Facilities**

C1. What is the main source of water?

For drinking -----for other usage-----

C2. Is there electricity supply in your house: Yes-1 No-2

C3. Is sanitation (toilet) facility available? Yes-1 No-2

C4. If yes specify: 1. Private 2. Public, 3. Pay and Use, 4. Open area, 5. Others

#### D. Gender

D1. Main Earning member in the family: 1.Male 2. Female

D2. Participation of women in agricultural activities:..... (%)

D3. Participation of women in allied agricultural activities:..... (%)

D4. Role of women in decision making 1. Yes 2. No

D5. How much travel distance covered on every day

D6. Common health problems associated with women

Types of Diseases	How many times in a year	Type of Treatment*	Treatment Centre Govt. Hospital/Private Doctor

1. Allopathic 2. Homeopathic 3. Ayurvedic 4. Unani 5. Treatment at home 6. Any other specify

#### E. Govt. Development Schemes

E1. Have you availed any benefit under Central or State Govt. Scheme 1. Yes 2. No

Scheme	CSS or State Govt.	Purpose	Amount Availed	Training
NREGA				

#### F. Income and Expenditure

Income		Expenditure			
Source	In Rupees	Items	In Rupees	Items	In Rupees
Agriculture		Food &		Electricity/Utilities	
Commercial		Cooking fuel		Water	
Service (Pvt./Govt.)		Clothing		Social events	
Livestock		Transport		Agriculture (labour/tools)	
Remittance (money order, etc)		Healthcare Medicines		Seeds/fertilizers/pesticides	
Others (Specify)		Education		Others (specify)	
<b>TOTAL</b>				<b>TOTAL</b>	

## G. Indebtedness

G1. Please indicate your borrowings during last one year

Source	Amount taken (in Rs.)	Purpose of Loan	Amount returned (in Rs)	Balance
Bank(sp. which bank)				
Private money lender				
Others (sp.)				

## H. Assets available with affected family

S.No.	Productive Assets	S.No.	Other Assets
1	Vehicle ( two / four wheelers)	1	Refrigerator
2	Machine if any	2	Washing machine
3	others (specify)	3	Ceiling Fan
		4	Radio / Television
		5	Computer
		6	Others (specify)

## I. Cropping Pattern (Ask for only Major Crops)

Season	Sl. No.	Crop Name	Area cultivated (ha / acres)	Production (Kg per ha/acre)	Rate (in Rs./Kg*.)
Autumn Plant Kharif (Nov.- Mar)	1				
	2				
	3				
Spring Plant Rabi (July-Nov.)	1				
	2

	3				
	4				

## J. Project Related Information

Are you aware of the proposed project		1	YES	2	NO
If yes what is the source	TV – 1	Newspaper - 2	Govt. officials – 3	Other villagers – 4	Other - 9
<b>Positive impacts perceived</b>			<b>Negative Impacts Perceived</b>		
Increase in employment opportunity	1	Loss of land			1
Increase in vehicle speed	2	Pressure on existing infrastructure			2
Increase in business opportunity	3	More visitors/population			3
Increase in land price	4	Conflict with outsiders			4

Better reach /access to towns	5	Increase in road accidents	5
others	9	Others (increase in incidents of HIV/AIDS and Trafficking etc. )	9

42. The degree of information about the right to land acquisition, rehabilitation and resettlement Act: (rate it on the scale of 0-5, where 0 stands for no idea and 5, profuse awareness)

43: Are you aware of the hydro Electric Power Project being set up in your area?  
 a. Yes b. No c. Somewhat yes d. others, please specify

44. Do you feel that by setting up the project, you would get improved information about health, hygiene and education?  
 a. Yes b. No c. Somewhat yes d. others, please specify

45. What do you expect from state government to improve upon your employment opportunities?

.....

46. Do you aspire for job opportunities in the plant?

.....

47. What are the major challenges you confront with after land being used by hydroelectric project?

.....

48. What is anticipated impact of project on women, children, disables and destitute workers?

.....

Signature of Interviewer

Signature of Respondent

## **Appendix 2**

### **Stage-1 study**

The three alternatives as mentioned above were studied in detail to finalize the most desirable scheme on techno-economic considerations. The power optimization studies for these three alternatives were carried out at this stage to arrive at the most effective and economical plant size consistent with the energy generation benefits.

Alternative I was proposed with 3x35 MW installed capacity whereas Alternative II was proposed with 2x46.50 MW installed capacity. Alternative III which is similar to dam toe arrangement was proposed with 2x42.50 MW installed capacity. The analysis was based on the Water Availability series derived from basic flow data and uniform 20% Environmental flows during the monsoon and the lean period.

The Feasibility Study Report was completed in August, 2012 indicating preference for **Alternative I** with an installed capacity of **105 MW (3 x 35 MW)**.

### **Stage-2 study**

The enhanced releases of Environmental flows proposed by the Expert Appraisal Committee, Ministry of Environment and Forests in its 60<sup>th</sup> meeting held on 7-8<sup>th</sup> September, 2012 for River valley and Hydro-electric projects to sustain the aquatic species during the lean season and for maintaining the flood pulses during the monsoon period, was adopted for Thana Plaun dam and the Power optimization studies for all the three selected layouts were worked out again. The study under **Alternative III** was

further sub-divided into three possible configurations as Options-I, II and III in respect of the utilisation of the mandatory environmental flows. The details of options are given below:

**Alternative III Option 1(2 x37 MW +2 x4 MW)** – The main underground power house located on the right bank, a dam toe surface power house for utilizing part of the environmental releases on the left bank, and the balance mandatory flows are released through the spillway gates during the monsoon period.

**Alternative III Option 2(2 x47 MW +2 x4 MW)** – A Surface Power house operating as above at the toe of the dam utilizing part of the environmental releases and the balance environmental flows also utilized for power generation at the underground power house proposed at Option 1. Only the monsoon surplus flows over and above the total flows utilized for power generation are released through the spillway gates. It will have to be ensured that one unit operates continuously at the Main Power house so that the required balance environmental releases are available at tail race outlet continuously which is 450m downstream of the dam/ or otherwise this part of the releases will have to be made through the spillway gates.

**Alternative III Option 3 (2 x53 MW)** –No surface dam toe power house is proposed and the main underground power house is designed for the entire assessed water available (including mandatory environmental flow). Only surplus river flows will be released through the sluice spillway gates. One Unit would have to be operated continuously for ensuring the environmental flows in the river. However, since the water available is not adequate to run one unit continuously at part load, this option may have to be dropped as continuous environmental releases are not possible.

The revised Power Optimisation studies were completed in Oct, 2012.

In order to utilise available surplus monsoon discharges, subsequently it was proposed to include the provision for an additional unit for operation during monsoon period.

### **Stage-3 study**

During this stage, studies were taken up for **Alternative III Option 2**, to explore the possibility of locating environmental units within the main underground powerhouse and study two alternative arrangements (i) independent reservoir intake and (ii) Dam Intakes through the dam body. On the basis of detailed drawings, estimate of cost and tariff calculations, **ALT-3 (3x47 MW + 2x5 MW)** with Reservoir Intake was suggested to be adopted incorporating the provision of an additional monsoon unit, as it was found to be techno-economically more desirable.

### **Stage-4 study**

During Dec, 2012 the dam axis was shifted back to the original axis as proposed in PFR since a syncline was encountered near the shifted dam axis. Further studies were taken up for finding out the optimum layout out of **ALT-1 (3x48 MW + 2x12 MW)** and **ALT- 3(3x47 MW + 2x5 MW)** with the shifted dam axis. **ALT-3** was also studied with three different layouts: **ALT-3A** (with chute spillway), **ALT-3B** (with independent reservoir intake), and **ALT-3C** (with dam intake). **ALT-2** was dropped since it was coming out to be expensive on techno-economic considerations.

The revised studies for **ALT-1** and **ALT-3** were completed and the results of the studies were presented. **ALT-3B** was suggested to be adopted being worked out as most techno- economically feasible layout.

### **Stage-5 study**

During this stage, it was suggested to explore the possibility of providing the configuration of 3x47 MW main units and 2x50 MW +2x4 MW environmental units for **ALT-1** by lowering the MDDL to 690.0 m. The reworked power potential studies for

**ALT-1** with MDDL at 690.0m were submitted and it was suggested to have a configuration of 3x48 MW main units and 2x12 MW environmental units.

The technical constraints in lowering of MDDL and results of revised power potential studies and other limitations of the configuration proposed are detailed in ***STAGE-5 Studies***.

### **Stage-6 study**

The Power Optimization Studies with MDDL at EL 697.0 m were revised based on the Water Availability Series cleared by CWC for **ALT-1** (3 x 53 MW + 2 x 12 MW) and **ALT-3** (3 x 48 MW + 2 x 17 MW). **ALT-3B** (with independent reservoir intake) was again recommended for DPR studies based on techno-economic considerations.

### **Stage-7 study**

The final recommendation for adopting the optimum alternative was presented to HPPCL in March 2013 on the basis of technical and economic justification and **ALT-3B** (with independent reservoir intake) was suggested for adoption.

### **Stage-8 study**

Subsequent, it was suggested to carry out the comparative costing and tariff calculations for **ALT-3**(3 x 53 MW + 2 x 12 MW) and **ALT-1** (2 x 61 + 1 x 75 MW +2 x 40 MW +2 x 4 MW) duly taking into consideration the poor geological conditions at part of the tunnel, surge shaft and the Power house locations. The outcome of the studies is described in ***STAGE-8 Studies***. On the basis of these studies **ALT-3B** was still found to be the most techno-economically viable layout and was recommended to be adopted for DPR.

*Abstract of the studies of alternatives at different stages\*\**

STAGE NO. PARAMETER	STAGE-1	STAGE-2	STAGE-3	STAGE-4	STAGE-6	STAGE-8
<b>INSTALL D CAPACITY (MW)</b>	ALT-1 a) Main Units	92 (2 x 46)	--	144 (3 x 48)	159 (3 x 53)	159 (3 x 53)

\*\*

- *At STAGE-1 no units were proposed for utilizing environmental flows.*
- *Alternative-2 was studied only at the first two stages and was ruled out from further studies due to techno-economic considerations, therefore, it is not mentioned in the above table.*
- *At STAGE-5 and STAGE-7 review studies of alternatives proposed were done, therefore, not mentioned in the above table.*
- *At certain stages optimization of alternatives on the basis of Power Potential Studies were done so tariffs at certain stages are not mentioned.*
- *At various stages a number of options were studied in Alternative 3 but the results for the recommended option in alternative 3 have only been described in the table.*

## **Appendix 3**

Mr Shukla

Government of Himachal Pradesh  
Department of MPF & Power

MPP-P(5)-3/2017

Dated: Shimla-171002, the

05-03-2018

NOTIFICATION

In exercise of the powers conferred by Section 4 of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act 2013 (30 of 2013) read with Rule 3 of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Social Impact Assessment and Consent) Rules, 2015, the Governor, Himachal Pradesh, is pleased to notify that a Social Impact Assessment in the affected areas is carried for the Thana- Plaun Hydro Electric Project (191MW) to be established by the Himachal Pradesh Power Corporation Limited (HPPCL) at river Beas basin in District Mandi and of land proposed to be acquired and required for the establishment of said Project and its submergence areas.

For Thana Plaun HEP (191 MW) Project and its submergence areas, total private land measuring 249 bighas 19 biswas and 14 biswanshi (particular of land given in Schedule attached herewith as Annexure-"A"), is proposed to be acquired at 21 Mohals/up Mohals in Tehsil Sadur Mandi, Kotli, Padhar and Jogindernagar of District Mandi, H.P.

Besides, 406-79-16 hectares Government land (which includes forest and non-forest land) will also be required for different components of the proposed Project at different villages of District Mandi, H.P.

The main objective of the project is to create additional capacity of hydro power in the State to meet the ever increasing demand of power. The proposed Social Impact Assessment shall consists of following aspects:-

- (i) An accurate estimate of affected families and the number of displaced families.
- (ii) A socio-economic and cultural profile of the affected areas.
- (iii) Data and statics including identification of resettlement site.
- (iv) Identification and assessment of the nature, extent and intensity of the positive and negative social impact associated with the proposed Project and land acquisition.
- (v) The Social Impact Assessment process includes the preparation of Social Impact Management Plan.

The Social Impact Assessment Unit shall hold consultations, survey and public hearings in the affected areas and shall prepare a Social Impact Assessment and Management Plan, strictly in accordance with the provisions of the said Act and Rules framed thereunder.

The Social Impact Assessment will be completed within a period of six months from the date of its commencement.

It is made clear that any attempt at coercion or threat during the period of Social Impact Assessment will render this exercise null and void.

Contact information of the Social Impact Assessment Unit is as under:

Sr. No	Address	Designation	Contact information
1	Director, Himachal Pradesh Public Institute of Public Administration Fairlawans Shimla	Chairperson	0177-2734777

अधिसूचना

नई दिल्ली, 14 नवम्बर, 2017

**फा. सं. 13/1/2017-इंफ्रा.**—सक्षम प्राधिकारी के अनुमोदन से अवसंरचना उप-क्षेत्रों की अद्यतन सुमेलित मास्टर सूची (अनुबंध-I) एतद्वारा अधिसूचित की जाती है। नई सूची में 17 अक्टूबर, 2017 की अधिसूचना में निम्नलिखित परिवर्तन सम्मिलित किए जाएंगे।

1. क्रम संख्या 1 में श्रेणी को विस्तृत करते हुए जिसे फिलहाल "परिवहन" के स्थान पर "परिवहन एवं लॉजिस्टिक्स" पढ़ा जाए। इसके अतिरिक्त "परिवहन एवं लॉजिस्टिक्स" की श्रेणी का पुनः नामकरण करते हुए स्थिति 8 में एक नई मद "लॉजिस्टिक्स अवसंरचना" को जोड़ा गया है जिसके साथ एक फुटनोट दिया हुआ है जो यह बताता है कि "लॉजिस्टिक्स अवसंरचना" में न्यूनतम 50 करोड़ रुपये के निवेश तथा 10 एकड़ के न्यूनतम क्षेत्रफल के साथ अंतर्देशीय कंटेनर डिपो (आईसीडी), 15 करोड़ रुपये के न्यूनतम निवेश तथा 20,000 वर्ग फुट के न्यूनतम क्षेत्रफल के साथ प्रशीतन श्रृंखला सुविधा तथा/अथवा 25 करोड़ रुपये के न्यूनतम निवेश तथा 1 लाख वर्ग फुट के न्यूनतम क्षेत्रफल के साथ भंडार गृह सुविधा सहित बहुविध लॉजिस्टिक्स पार्क सम्मिलित है।

एस. सेल्वकुमार, संयुक्त सचिव (आईपीएफ)

**अनुबंध-1****अवसंरचना उप-क्षेत्रों की अद्यतन सुमेलित मास्टर सूची**

क्र.सं.	श्रेणी	अवसंरचना उप-क्षेत्र
1.	परिवहन एवं लॉजिस्टिक्स	<ul style="list-style-type: none"> <li>सड़क और पुल</li> <li>पत्तन<sup>1</sup></li> <li>पोत कारखाना<sup>2</sup></li> <li>अन्तर्देशीय जलमार्ग</li> <li>एयरपोर्ट</li> <li>स्टेशन और समीपवर्ती वाणिज्यिक अवसंरचना सहित रेलवे मार्ग, सुरंग, सेतु, पुल, टर्मिनल अवसंरचना</li> <li>शहरी लोक परिवहन (शहरी सड़क परिवहन के मामले में रोलिंग स्टॉक के सिवाय)</li> <li>लॉजिस्टिक्स अवसंरचना<sup>3</sup></li> </ul>
2.	ऊर्जा	<ul style="list-style-type: none"> <li>विद्युत उत्पादन</li> <li>विद्युत पारेषण</li> <li>विद्युत वितरण</li> <li>तेल पाइपलाइनें</li> <li>तेल/गैस/द्रवीभूत प्राकृतिक गैस (एलएनजी) भंडारण सुविधा<sup>4</sup></li> <li>गैस पाइपलाइनें<sup>5</sup></li> </ul>
3.	जल और स्वच्छता	<ul style="list-style-type: none"> <li>ठोस अपशिष्ट प्रबंधन</li> <li>जल आपूर्ति पाइपलाइनें</li> <li>जल शोधन संयंत्र</li> <li>मलव्यय संग्रहण, प्रबंधन तथा निपटान प्रणाली</li> <li>सिंचाई (बांध, चैनल, तटबंध आदि)</li> <li>स्टोर्म वाटर निकासी प्रणाली</li> <li>पतले मसाले की पाइपलाइनें</li> </ul>

		<ul style="list-style-type: none"> <li>• प्रशीतन श्रृंखला<sup>9</sup></li> <li>• सस्ते आवास<sup>10</sup></li> </ul>
--	--	---

- 1 बड़े तलकपर्षण शामिल हैं।
  - 2 "पोत कारखाने" को तैरती हुई अथवा तटीय, घुमावदार बंदरगाह, लंगरगाह और डॉकिंग सुविधा, जलावतरण मंच और/अथवा पोत उठाव की आवश्यक विशेषताओं वाले जल पर अथवा भूमि पर स्थित सुविधा के रूप में परिभाषित किया गया है, और जो पोत निर्माण/मरम्मत/पोत तोड़ने के कार्यकलाप करने में सक्षम है।
  - 3 "लॉजिस्टिक्स अवसंरचना" में न्यूनतम 50 करोड़ रुपये के निवेश तथा 10 एकड़ के न्यूनतम क्षेत्रफल के साथ अंतर्देशीय कंटेनर डिपो (आईसीडी), 15 करोड़ रुपये के न्यूनतम निवेश तथा 20,000 वर्ग फुट के न्यूनतम क्षेत्रफल के साथ शीत श्रृंखला सुविधा तथा/अथवा 25 करोड़ रुपये के न्यूनतम निवेश तथा 1 लाख वर्ग फुट के न्यूनतम क्षेत्रफल के साथ भंडार गृह सुविधा सहित बहुविध लॉजिस्टिक्स पार्क सम्मिलित है।
  - 4 कच्चे तेल का महत्वपूर्ण भण्डारण शामिल है।
  - 5 शहरी गैस संवितरण नेटवर्क शामिल है।
  - 6 ऑप्टिक फाइबर/वायर/केबल नेटवर्क, जो ब्राडबैंड/इंटरनेट उपलब्ध कराते हैं, शामिल हैं।
  - 7 खेलकूद और खेलकूद संबंधी कार्यकलाप में प्रशिक्षण/अनुसंधान के लिए प्रशिक्षणशालाओं हेतु खेलकूद स्टेडियम और अवसंरचना का प्रावधान शामिल है।
  - 8 चिकित्सा कालेज, पैरा-चिकित्सा प्रशिक्षण संस्थान तथा नैदानिक केंद्र शामिल हैं।
  - 9 कृषि तथा संबद्ध उत्पाद, समुद्री उत्पाद तथा मांस के परिरक्षण अथवा भण्डारण हेतु खेत स्तर की प्री-कूलिंग हेतु प्रशीतन कक्ष सुविधा शामिल है।
  - 10 "सस्ते आवास" को एक ऐसी आवासीय परियोजना के रूप में परिभाषित किया गया जाता है जिसमें अधिकतम 60 वर्ग मीटर के कार्पेट क्षेत्रफल<sup>Ⓜ</sup> वाली आवासीय इकाई के लिए फर्श क्षेत्रफल अनुपात (एफएसआर)/प्लोर स्पेस इंडेक्स (एफएसआई) के कम से कम 50 प्रतिशत का उपयोग किया गया है।
- Ⓜ "कार्पेट क्षेत्रफल" का तात्पर्य वही होगा जो स्थावर संपदा (विनियम और विकास) अधिनियम, 2016 की धारा 2 के खंड (ट) में दिया गया है।

## MINISTRY OF FINANCE

(Department of Economic Affairs)

(INFRASTRUCTURE POLICY AND PROGRAMME SECTION)

### NOTIFICATION

New Delhi, the 14th November, 2017

**F. No. 13/1/2017-INF.**—With the approval of the Competent Authority, an updated Harmonized Master List of Infrastructure Sub-sectors (**Annexure-I**) is hereby notified. The new list incorporates the following change to the notification dated 17<sup>th</sup> October, 2017:

1. Widening the Category at serial no.1 which currently reads "Transport" to "Transport and Logistics". Further, "Logistics Infrastructure" is included by insertion of a new item at position 8 in the renamed category of "Transport and Logistics", with a footnote stating that "Logistics Infrastructure" means and includes Multimodal Logistics Park comprising Inland Container Depot (ICD) with minimum investment of Rs 50 crore and minimum area of 10 acre, Cold Chain Facility with minimum investment of Rs 15 crore and minimum area of 20,000 sft, and/or Warehousing Facility with investment of minimum Rs 25 crore and minimum area of 1 lakh sq ft.

S. SELVAKUMAR, Jt. Secy. (IPF)

**Annexure-I****Updated Harmonized Master List of Infrastructure Sub-sectors**

Sl.No.	Category	Infrastructure sub-sectors
1.	Transport and Logistics	<ul style="list-style-type: none"> <li>• Roads and bridges</li> <li>• Ports<sup>1</sup></li> <li>• Shipyards<sup>2</sup></li> <li>• Inland Waterways</li> <li>• Airport</li> <li>• Railway Track, tunnels, viaducts, bridges, terminal infrastructure including stations and adjoining commercial infrastructure</li> <li>• Urban Public Transport (except rolling stock in case of urban road transport)</li> <li>• Logistics Infrastructure<sup>3</sup></li> </ul>
2.	Energy	<ul style="list-style-type: none"> <li>• Electricity Generation</li> <li>• Electricity Transmission</li> <li>• Electricity Distribution</li> <li>• Oil pipelines</li> <li>• Oil/Gas/Liquefied Natural Gas (LNG) storage facility<sup>4</sup></li> <li>• Gas pipelines<sup>5</sup></li> </ul>
3.	Water and Sanitation	<ul style="list-style-type: none"> <li>• Solid Waste Management</li> <li>• Water supply pipelines</li> <li>• Water treatment plants</li> <li>• Sewage collection, treatment and disposal system</li> <li>• Irrigation (dams, channels, embankments, etc.)</li> <li>• Storm Water Drainage System</li> <li>• Slurry Pipelines</li> </ul>
4.	Communication	<ul style="list-style-type: none"> <li>• Telecommunication (fixed network)<sup>6</sup></li> <li>• Telecommunication towers</li> <li>• Telecommunication &amp; Telecom Services</li> </ul>
5.	Social and Commercial Infrastructure	<ul style="list-style-type: none"> <li>• Education Institutions (capital stock)</li> <li>• Sports Infrastructure<sup>7</sup></li> <li>• Hospitals (capital stock)<sup>8</sup></li> <li>• Tourism infrastructure viz. (i) three-star or higher category classified hotels located outside cities with population of more than 1 million, (ii) ropeways and cable cars</li> <li>• Common infrastructure for Industrial Parks and other parks with industrial activity such as food parks, textile parks, Special Economic Zones, tourism facilities and agriculture markets</li> <li>• Post-harvest storage infrastructure for agriculture and horticultural produce including cold storage</li> <li>• Terminal markets</li> <li>• Soil-testing laboratories</li> <li>• Cold Chain<sup>9</sup></li> <li>• Affordable Housing<sup>10</sup></li> </ul>

<sup>1</sup> Includes Capital Dredging

<sup>2</sup> “Shipyard” is defined as a floating or land-based facility with the essential features of waterfront, turning basin, berthing and docking facility, slipways and/or ship lifts, and which is self sufficient for carrying on shipbuilding/repair/breaking activities.

<sup>3</sup> "Logistics Infrastructure" means and includes Multimodal Logistics Park comprising Inland Container Depot (ICD) with minimum investment of Rs. 50 crore and minimum area of 10 acre, Cold Chain Facility with minimum investment of Rs. 15 crore and minimum area of 20,000 sft, and/or Warehousing Facility with investment of minimum Rs. 25 crore and minimum area of 1 lakh sq ft.

<sup>4</sup> Includes strategic storage of crude oil.

<sup>5</sup> Includes city gas distribution network.

- 
- <sup>6</sup> Includes optic fibre/wire/cable networks which provide broadband / Internet.
- <sup>7</sup> Includes the provision of Sports Stadia and Infrastructure for Academies for Training/Research in Sports and Sports-related activities.
- <sup>8</sup> Includes Medical Colleges, Para Medical Training Institutes and Diagnostics Centres.
- <sup>9</sup> Includes cold room facility for farm level pre-cooling, for preservation or storage of agriculture and allied produce, marine products and meat.
- <sup>10</sup> “Affordable Housing” is defined as a housing project using at least 50% of the Floor Area Ratio (FAR)/Floor Space Index (FSI) for dwelling units with carpet area<sup>@</sup> of not more than 60 square meters.
- <sup>@</sup> “Carpet Area” shall have the same meaning as assigned to it in clause (k) of section 2 of the Real Estate (Regulation and Development) Act, 2016.

## **Appendix 4**

**FORM-II(HP RTFCTLARR Rules, 2015)**

**Social Impact Assessment Report**

*[See sub-rule (3) of rule 3, sub-rule (5) & (6) of rule 7 and rule 14]*

**A. List of socio-economic and cultural parameters to be covered by the Social Impact Assessment**

1. Demographic details of the population in the project area

(a) Age, sex, caste, religion

(b) Literacy, health and nutritional status

2. Poverty levels

3. Vulnerable groups

(a) Women,

(b) Children

(c) The elderly,

(d) Women-headed households and

(e) The differently abled

4. Kinship patterns and women's role in the family

5. Social and cultural organization.

6. Administrative organization.

7. Political organization.

8. Civil society organisations and social movements.

9. Land use and livelihood

(a) Agricultural and non-agricultural use

(b) Quality of land – soil, water, trees etc.

(c) Livestock

(d) Formal and informal work and employment.

(e) Household division of labour and women's work

(f) Migration

(g) Household income levels

(h) livelihood preferences

(i) Food security

## 10. Local economic activities

- (a) Formal and informal, local industries
  - i. Access to credit
  - ii. Wage rates
- (b) Specific livelihood activities women are involved in

## 11. Factors that contribute to local livelihoods

- (a) Access to natural resources
- (b) Common property resources
- (c) Private assets
- (d) Roads, transportation
- (e) Irrigation facilities
- (f) Access to markets
- (g) Tourist sites
- (h) Livelihood promotion programmes
- (i) Co-operatives and other livelihood-related associations

## 12. Quality of the living environment

- (j) Perceptions, aesthetic qualities, attachments and aspirations
- (k) Settlement patterns
- (l) Houses
- (m) community and civic spaces
- (n) Sites of religious and cultural meaning
- (o) Physical infrastructure (including water supply sewage systems etc.)
- (p) Public service infrastructure (schools, health facilities, anganwadi centres, public distribution system)
- (q) Safety, crime, violence

## **B. Key impact areas**

### 1. Impacts on land, livelihoods and income

- (a) Level and type of employment
- (b) Intra-household employment patterns
- (c) Income levels
- (d) Food Security
- (e) Standard of living
- (f) Access and control over productive resources
- (g) Economic dependency, or vulnerability
- (h) Disruption of local economy
- (i) Impoverishment risks
- (j) Women's access to livelihood alternatives

## 2. Impact on physical resources

- (a) Impacts on natural resources, soil, air, water, forests
- (b) Pressure on land and common property natural resources for livelihoods

## 3. Impacts on private assets, public services and utilities

- (a) Capacity of existing health and education facilities
- (b) Capacity of housing facilities
- (c) Pressure on supply of local services.
- (d) Adequacy of electrical and water supply, roads, sanitation and waste management system
- (e) Impact on private assets such as bore wells, temporary sheds etc.

## 4. Health impacts

- (a) Health impacts due to in-migration
- (b) Health impacts due to project activities with a special emphasis on:-
  - i. Impact on women's health
  - ii. Impact on the elderly

## 5. Impacts on culture and social cohesion

- (a) Transformation of local political structures
- (b) Demographic changes
- (c) Shifts in the economy-ecology balance
- (d) Impacts on the norms, beliefs, values and cultural life
- (e) Crime and illicit activities
- (f) Stress of dislocation
- (g) Impact of separation of family cohesion
- (h) Violence against women

## 6. Impact at different stages of the project cycle

The type, timing, duration and intensity of social impacts will depend on and relate closely to the stages of the project cycle. Below is an indicative list of impacts

### (a) Pre-construction phase

- i. Interruption in the delivery of services
- ii. Drop in productive investment
- iii. Land speculation
- iv. Stress of uncertainty

### (b) Construction phase

- i. Displacement and relocation
- ii. Influx of migrant construction workforce

iii. Health impacts on those who continue to live close to the construction site

(c) Operation phase

- i. Reduction in employment opportunities compared to the construction phase
- ii. Economic benefits of the project
- iii. Benefits on new infrastructure
- iv. New patterns of social organisation

(d) De-commissioning phase

- i. Loss of economic opportunities
- ii. Environmental degradation and its impact on livelihoods

(e) Direct and indirect impacts

- i. Direct impacts will include all impacts that are likely to be experienced by the affected families (i.e. Direct land and livelihood losers)
- ii. Indirect impacts will include all impacts that may be experienced by those not directly affected by the acquisition of land but those living in the project area

(f) Differential impacts

- i. Impact on women, children, the elderly and the different abled
- ii. Impacts identified through tools such as Gender Impact Assessment Checklists, and Vulnerability and Resilience Mapping

(g) Cumulative impacts

- i. Measureable and potential impacts of other projects in the area along with the identified impacts for the project in question
- ii. Impact on those not directly in the project area but based locally or even regionally.

**B. Table of Contents for Social Impact Assessment Report and Social Impact Management Plan.**

Chapter	Content
<b>Executive Summary</b>	(a) Project and public purpose (b) Location (c) Size and attribute of land acquisition (d) Alternatives considered (e) Social Impacts (f) Mitigation measures

	(g) assessment of social costs and benefits.
<b>Detailed Project Description</b>	<p>(a) Background of the project, including developers background and governance or management structure.</p> <p>(b) Rationale for project including how the project fits the public purpose criteria listed in the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013.</p> <p>(c) Details of project size, location, capacity, outputs, production targets, cost, risks.</p> <p>(d) Examination of alternatives</p> <p>(e) Phases of project construction</p> <p>(f) Core design features and size and type of facilities</p> <p>(g) Need for ancillary infrastructural facilities.</p> <p>(h) Work force requirements (temporary and permanent)</p> <p>(i) Details of Social Impact Assessment or Environmental Impact Assessment if already conducted and any technical feasibility reports</p> <p>(j) Applicable legislations and policies</p>
<b>Team composition, approach, methodology and Schedule of the Social Impact Assessment.</b>	<p>(a) List of all team members with qualifications, Gender experts to be included in team.</p> <p>(b) Description and rationale for the methodology and tools used to collect information for the Social Impact Assessment.</p> <p>(c) Sampling methodology used.</p> <p>(d) Overview of information or data sources used. Detailed reference must be included separately in the forms.</p> <p>(e) Schedule of consultations with key stakeholders and brief description of public hearings conducted. Details of the public hearings and the specific feedback incorporated into the Report must be included in the forms.</p>

<p><b>Land Assessment.</b></p>	<p>(a) Information from land inventories and primary sources- Describe with the help of the maps.</p> <p>(b) Entire area of impact under the influence of the project (not limited to land area for acquisition)</p> <p>(c) Total land requirement for the project</p> <p>(d) Present use of any public, unutilized land in the vicinity of the project area</p> <p>(e) Land (if any) already purchased, alienated, leased or acquired, and the intended use for each plot of land required for the project</p> <p>(f) Quantity and location of land proposed to be acquired for the project</p> <p>(g) Nature, present use and classification of land and if agricultural land, irrigation coverage and cropping patterns</p> <p>(h) Size of holdings, ownership patterns, land distribution, and number of residential houses</p> <p>(i) Land prices and recent changes in ownership, transfer and use of lands over the last 3 years</p>
<p><b>Estimation and enumeration (where required) of affected families and assets</b></p>	<p>Estimation of the following types of families that are—</p> <p>(a) Directly affected (own land that is proposed to be acquired):</p> <p>(i) Are tenants or occupy the land proposed to be acquired</p> <p>(ii) The Scheduled Tribes and other traditional forest dwellers who have lost any of their forest rights</p> <p>(iii) Depend on common property resources which will be affected due to acquisition of land for their livelihood</p> <p>(i) Have been assigned land by the State Government under any of its schemes and such land is under acquisition;</p> <p>(ii) Have been residing on any land in the urban areas for Preceding three years or more prior to the acquisition of the land</p> <p>(iii) Have depended on the land being acquired as a primary source of</p>

	<p>livelihood for three years prior to the acquisition</p> <p>(b) Indirectly impacted by the project (not affected directly by the acquisition of own lands)</p> <p>(c) Inventory of productive assets and significant lands</p>
<p><b>Socio-Economic and cultural profile (affected area and resettlement site)</b></p>	<p>(a) Demographic details of the population in the project area</p> <p>(b) Income and poverty levels</p> <p>(c) Vulnerable groups</p> <p>(d) Land use and livelihood</p> <p>(e) Local economic activities</p> <p>(f) Factors that contribute to local livelihoods</p> <p>(g) Kinship patterns and social and cultural organisation</p> <p>(h) Administrative organisation</p> <p>(i) Political organisation</p> <p>(j) Community-based and civil society organizations</p> <p>(k) Regional dynamics and historical change processes</p> <p>(l) Quality of the living environment</p>
<p><b>Social impacts</b></p>	<p>(a) Framework and approach to identifying impacts</p> <p>(b) Description of impacts at various stages of the project cycle such as impacts on health and livelihoods and culture. For each type of impact, separate indication of whether it is a directly or indirect impact, differential impacts on different categories of affected families and where applicable cumulative impacts.</p> <p>(c) Indicative list of impacts areas include: impacts on land, livelihoods and income, physical resources, private assets, public services and utilities, health, culture and social cohesion and gender based impacts.</p>
<p><b>Analysis of costs and benefits and recommendations on acquisition</b></p>	<p>(a) Final conclusions on: assessment of public purpose, less-displacing alternatives, minimum requirements of land, the nature and intensity of social impacts, the viability of the mitigation measures and the extent to which mitigation</p>

	<p>measures described in the Social Impact Management Plan will address the full range of social impacts and adverse social costs.</p> <p>(b) The above analysis will use the equity principle described in Rule 9(10) as a criteria of analysis for presenting a final recommendation on whether the acquisition should go through or not</p>
<b>References and Forms</b>	For reference and further information

## Annexure 4.2

### **FORM-III(HP RTFCTLARR Rules, 2015)**

*(See sub-rule (4) of rule 3)*

#### **Social Impact Management Plan**

- 1) Approach to mitigation
- 2) Measures to avoid, mitigate and compensate impact
- 3) Measures that are included in the terms of Rehabilitation & Resettlement and compensation as outlined in the Act.
- 4) Measures that the Requiring Body has stated it will introduce in the Project Proposal.
- 5) Additional measures that the Requiring Body has stated it will undertake in response to the findings of the Social Impact Assessment process and public hearings.

The Social Impact Management Plan must include a description of institutional structures and key person responsible for each mitigation measure and timelines and costs for each activity.

## **Appendix 5**

## Tables Generated from the Survey Questionnaire

### 1. Social Category wise number of Landowners.

<b>Villages</b>	<b>General</b>	<b>OBC</b>	<b>SC</b>	<b>Not Shared</b>
Badagaon	10	0	0	0
Balh	79	0	0	1
Banaroo Abal	122	0	0	0
Banaroo Dom	58	0	0	0
Banogi	0	0	24	0
Banwar	130	0	20	0
Batwari	3	0	0	0
Bewla	30	0	0	0
Charonjh	7	0	0	0
Dawahan	17	0	0	0
Jandrola	6	0	6	0
Jhannad	8	0	0	0
Khadkalyana	67	0	0	0
Koon	6	0	0	0
Kot	2	0	0	0
Mahan	85	0	7	0
Mathaneeul	14	0	0	0
Megal	3	7	10	0

Sadoh	107	0	0	0
Wah	3	0	0	0
<b>Total</b>	<b>803</b>	<b>7</b>	<b>67</b>	<b>1</b>

### 2. Religion wise number of Landowners.

<b>S. No.</b>	<b>Religion</b>	<b>Number</b>	<b>Percentage</b>
1	Hindu	878	100.00
2	Others	0	0
	<b>Total</b>	<b>878</b>	<b>100.00</b>

### 3. Occupation of Landowners.

<b>S. No.</b>	<b>Type of occupation</b>	<b>Number</b>	<b>Percentage</b>
1	Agriculture	300	34.2%
2	Business	33	3.8%
3	Govt. /private job	303	34.5%
4	Labours	37	4.2%
5	Retired	6	0.7%
6	Others	199	22.7%
	<b>Total</b>	<b>878</b>	<b>100.0%</b>

4. Pre-project income level of the landowners

<b>Income Level of Landowners</b>	<b>Number</b>	<b>Percentage</b>
Less than 50000 rupees	124	14.12%
50001 to 100000 rupees	88	10.02%
100001 to 250000 rupees	173	19.70%
250001 to 500000 rupees	121	13.78%
500001 to 750000 rupees	49	5.58%
More than 750000 rupees	86	9.79%
Not shared	237	26.99%
<b>Total</b>	<b>878</b>	<b>100.00%</b>

5. Sex Ratio of the family member of the Landowners

<b>S. No.</b>	<b>Details of Family Members</b>	<b>Number</b>	<b>Percentage</b>
1	Male	1982	51.7
2	Female	1835	48.3
	<b>Total</b>	<b>3835</b>	<b>100.00</b>

6. Details of unmarried son/daughter and widow/divorcee among families of Landowners

<b>Villages</b>	<b>Unmarried son/brother above 21 yrs</b>	<b>Unmarried sister/daughter above 18 yrs</b>	<b>Widow/Divorcee</b>
Badagaon	0	0	0
Balh	7	3	11
Banaroo Abal	18	7	9
Banaroo Dom	2	2	2
Banogi	0	0	0
Banwar	9	3	13
Batwari	0	0	0
Bewla	16	4	2
Charonjh	0	0	0
Dawahan	1	1	0
Jandrola	3	0	1
Jhannad	0	0	2
Khadkalyana	15	7	3
Koon	3	1	0
Kot	2	1	0
Mahan	7	2	3
Mathaneeul	2	3	0
Megal	5	5	3
Ropru	7	1	4
Sadoh	10	10	6
Wah	0	0	1

7. Number of Landowners with various vulnerability status

S. No.	Vulnerability Status	Number
1	Woman headed household	135
2	Household below poverty line	92
3	Divorcee/widow	60
4	Physically/mentally challenged person	18
5	Minor orphan	6

8. Earning member in the family

S. No.	Earning member in the family	Number	Percentage
1	Male	796	90.56%
2	Female	50	5.69%
3	Not shared	32	3.75%
	Total	878	100%

9. Percentage of women's participation in the agriculture according to survey.

S. No.	Participation of woman in agriculture	Number	Percentage
1	0% - 25%	100	11%
2	25% - 50%	243	28%
3	50% - 75%	37	4%
4	Above 75%	498	57%
	Total	878	100%

10. Percentage of women involved in allied activities according to survey.

S. No.	Participation of woman in allied activities	Number	Percentage
1	0% - 25%	214	24.35%
2	25% - 50%	35	3.98%
3	50% - 75%	6	0.68%
4	Above 75%	623	70.99%
	Total	878	100.00%

11. Percentage of women involved in decision making

S. No	Role of woman in decision making	Number	Percentage
1	Yes	828	94.31%
2	No	50	5.69%
	Total	878	100.00%

12. Percentage of type of structure according to its construction

S. No.	Type of construction of the structure	Number	Percentage
1	Permanent (with RCC, Single/ Double storey building)	6	13.04%
2	Semi-Permanent (buildings, with tiled roof and normal cement floor)	36	78.26%

	Total	46	100.00%

13. Type of structures owned by affected landowners

Use of the structure	Number
House/Huts	8
Gharats	38
Cattle shed	12

14. Number of BPL families of Landowners

Villages	BPL families
Balh	6
Banaroo Abal	25
Banwar	9
Charonjh	2
Jandrola	1
Khadkalyana	9
Koon	1
Mahan	26
Mathaneeul	4
Megal	4
Ropru	5
<b>Total</b>	<b>92</b>

15. Number of fruit and non-fruit trees

S. No.	Trees in affected area	Number	Percentage
1	Fruit trees	3131	18
2	Non-fruit trees	14294	82
	Total	17425	100.00

16. Opinions regarding rehabilitation options

Options for rehabilitation	Number	Percentage
If displaced do you have additional land		
No	104	11.83%

Yes	755	86.01%
Not responded	19	2.16%
Total	878	100.00%
Compensation for Landowners		
Cash for land loss	851	96.93%
Land for land loss	23	2.62%
Not responded	4	0.46%
Total	878	100.00%
Compensation for structure loser		
Cash for structure loss	340	38.68%
Structure for structure loss	2	0.23%
Not responded	536	61.09%
Total	878	100.00%

17. Opinion of landowners on income restoration assistance

S. No.	Income restoration assistance	Number	Percentage
1	Assistance/loan from other ongoing development scheme	640	74.85%
2	Employment opportunities in construction work	186	21.75%
3	Vocational Training	22	2.57%
3	Others	7	0.82%
	Total	855	100.00%

18. Opinions of landowners on gaps of existing healthcare systems

S. No.	General gaps of health care service	Number
1	Poor road	373
2	Lack of hospital	522
3	Lack of doctors	653
4	Lack of nurses	619
5	Lack of medicine	619
6	Lack of facilitators	683
7	Lack of doctors, lack of hospital	42
8	Lack of medicine, lack of nurse	12
9	Lack of nurses/, poor road , lack of medicine	2

19. Sources of information about the LHEP

S. No.	Source of project information	Number	Percentage
1	Govt. officials	852	97%
2	Newspaper	6	1%
3	Other villagers	20	2%
	Total	878	100%

## 20. The details of BPL Landowners

<b>Sr. No.</b>	<b>Sr. No. as per Landowners List</b>	<b>Name of the Owner/Occupier (S)</b>	<b>Father's/Husband's Name:</b>	<b>Respondent Name</b>	<b>Village</b>

थाना प्लान हाइड्रो इलेक्ट्रिक परियोजना, 191 मेगावाट के शोसल इम्पेक्ट के बाद जनसुनवाई आयोजित की गई जिसके अध्यक्षता उपमंडलाधिकारी (ना) महोदय, सदर मंडी जिला मंडी द्वारा की गई जनसुनवाई के प्रारंभ में एसआईए टीम से अरिजिता ने एसआईए के तरीके सर्वे के तरीके और सर्वे के परिणामों को पीपीटी के माध्यम से सभी उपस्थित प्रतिभाग्यों के समक्ष प्रस्तुत किया प्रोजेक्ट से सम्बंधित जानकारी विशेषताएं एवं आर एंड आर के बारे में जानकारी दी।

सोहन सिंह	दवाहन
-----------	-------

पूर्व में महान में भी सम्मलेन हुआ था वहाँ पर मांगें रखी गई थी इन प्रोजेक्ट खुशी भी आती है साथ ही गम भी होता है रोजगार भी मिलता है घर उजड़ जाते हैं। इलेक्ट्रिसिटी से जुड़े कोर्स करेंगे तभी स्थानीय निवासियों को 70 प्रतिशत तक रोजगार मिल पायगा कुछ लोगों के माकन व गोशाला सर्वे में छुट गए हैं हमारी मांग है। कून से डागु बाड़े गुमानी व बल तक सड़क हो जिसमें पुल भी बनाया जाए उठाऊ सिंचाई पारियोजना पाने की पानी स्कीम चालू करना होगा। लाडा में हिस्सेदारी सभी को मिले दवाहन कून से वाया मटियाल रोड बने।

हेम सिंह	दवाहन
----------	-------

जमीन का रेट 700 रु लगाया गया है। जमीन का मुआवजा अच्छा मिलना चाहिए 8 बीघा उपजाऊ जमीन का केवल 40 लाख लगाया गया है। एक सीजन की 1.5 लाख रु की सब्जी बेच लेते हैं। मेरी जमीन समतल है। इसी तरह की 8 बीघा जमीन दिला दीजिये मुझे इसके इलावा कोई नहीं चाहिए आप ये पैसा मत दीजिये। दुनिया का विकास हो नाश न हो। इस तरह की परियोजनाओं को लेकर हमारे पुराने अनुभव बहुत बुरे रहे हैं। जिन लोगों का पूरा जमीन, मकान जा रहा है उन्हें पक्की नोकरी दी जाए ट्रेनिंग आदि का प्रावधान किया जाय। LADA का पैसा गाँव में ही लगाना चाहिए।

कहान सिंह	प्रधान कोट
-----------	------------

प्रोजेक्ट परियोजना का स्टेटस क्या है परियोजना कब तक चालु हो जायगी। क्षेत्र के बेरोजगार युवा प्रोजेक्ट को लेकर उत्साहित हैं परन्तु पुल, शमशानघाट आदि पानी में डूब जायंगे। पथर के लिए 70 किलोमीटर जाना पड़ेगा। तब वन क्षेत्र कम होगा, फसलों पर टेम्प्रेचर का प्रभाव पड़ेगा, पशुधन पर भी प्रभाव पड़ेगा, कठिनाइयों से पार पाने के लिए विस्थापित परिवारों को नोकरी दी जाए। प्रभावित परिवारों के युवाओं को रोजगार में प्राथमिकता दी जाए। महान से तरेड एवं मटियाल से कोटली तक बस योग्य पुल बनाना चाहिए। डोलरा के पास बस योग्य पुल एवं सड़को की व्यवस्था, लिंक रोड का देख रेख करना चाहिए। जल भराव के कारण मिट्टी कटाव एवं वन सम्पदा प्रभावित होगी। एसी जगह जहा पर नुकसान होगा उसे चिन्हित करें और उसकी व्यापक व्यवस्था करें। नालों पर चेक डैम की व्यवस्था की जाए। मिट्टी का कटाव कम हो व गाद डैम में न जा सके। झील के दोनों तरफ, जंगलो के फलदार पेड़ पोथे लगायें ओषधि पेड़ पोथो को लगायें जिससे जंगली जानवरों से होने वाले नुकसान कम हो वर्तमान में सड़क के किनारे भी प्लान्टेशन करें व जमीन करे। पशुधन व कृषि मुख्य है हर पंचायत को सिंचाई व्यवस्था दी जाए कमर्शियल क्रॉप व चारा उगाया जा सके जिससे कृषि आये बढे। सुंदर नगर का टेम्प्रेचर अलग था चाहे बिलासपुर ले लो। आने वाले समय में टेम्प्रेचर वैरिएशन होगा जिससे स्वास्थ्य पर प्रभाव पड़ेगा। हमें पालपुर इलाज के जाना पड़ता है वह बहुत दूर पड़ता है इसलिए पीएनसी खोली जाए व जोनल अस्पताल कोटली में बीयूडटी अस्पताल भी खोले जाये। पशुपालन द्वितीय मुख्य स्रोत है हमारी आय का इसलिए वेट हॉस्पिटल भी खोले जाए। प्रोजेक्ट कुछ स्कूलों को अडाप्ट करें। स्कोलोशिप भी दें। अच्छे अध्यापकों को प्रोत्सान दें। तुंगल में सीबीएसइ स्कूल खोलें ताकि बच्चों

को व युवतियों को मंडी न जाना पड़े | ताकि फायदा मिल सके | जागान अभियान - इस तरह की सक्रिय महिला मंडल को प्रोत्साहन किया जाए | पेयजल-सभी योजना डिफेक्टिव है हमारे लिए एकपम्प नही स्टैंड पम्प हाउसभी लगाया जाए | छठे दिन पानी को फ़िल्टर करने की कोई प्रबंध नही है पानी फ़िल्टर भी नही पम्प हाउस मे लगाया जाए | इससे स्वस्थाठीक पेयजल मिलेगा | टेक्नीकल इंस्टिट्यूट खोलें |

स्किल इंडिया के तहत लोगों को ट्रेनिंग मिले | ताकि वे इंस्टिट्यूट से निकलते ही नोकरी मे या एव रोजगार क्र सकें | कून से मंडी तक 37 किलोमीटर एवरेज द रिबर रोड 30 किलोमीटर पर्यटन बढेगा | झील का नजारा होगा व् आमदनी बढेगी | विभिन्न प्रभावित पंचायतों मे से एक-एक गाँव को माडल गाँव चयन कर विकास किया जाए | सड़क,लाईटों एवं नाली आदि का विकास हो | सभी आधुनिक व्यवस्था व् स्वच्छता हों | शमशान घाट बंद होने से पहले चिन्हित कर शमशान घाट का निर्माण किया जाए व् सड़क भी बनवाएं | समिहिक अलग अलग बनाय जाए | अन्य मिरिंग की जाए | महिला मंडल व युवाओं को जागरूकता बढाई जाए | मंडी मे 3 बिजली घर बने हैं | बिजली की स्थाई व्यवस्था बने | थाना प्लान से ही 220kv की लाईन मंडी तक जाय | डाऊना पर भी अतिभ्रबर है | इसके लिए विस्तार से चर्चा कीजिये 132-220 132 का सर्वसेशन | साईगुड से महुँ तक सब स्टेशन बनाया जाए | मंडी मे बिजली हमीरपुर सप्लाई देता है अतः मंडी से ही बिजली की व्यवस्था कि जाए | 35 kv लाइव गरोद को महान तक पहुंचाए ताकि सुचारु बिजली मिले | दम साईट पर पार्क हो, कूड़ादान,बैठने की जगह आदि | स्थानीय लोगों को रोजगार मिले दुकानें अल्लोट करें ताकि स्थानीय लोगों व अन्य लोगों को भी फायदा होगा | एडवंचर स्पाँट्स के लिये स्थानीय लोगों को परमिट दिया जाना चाहियें | उठाऊ सिंचाई परियोजना चालू की जाए जिसमे नदी के पानी को उपर उठा कर पहाड़ो के ऊपर से फिर से बहाया जाए ताकि खेती के लिये पानी उपलब्ध हो सके एवं गर्मी मे भी कृषि कार्य किये जा सके | लाडा का पैसा प्रभावित पंचायत क्षेत्रों मे ही लगाया जाए | रेस्ट हाउस की भी व्यवस्था की जाए ताकि पर्यटक एवं अधिकारियों को सुविधा हो | 2013 के एक्ट के मुताबिक 4 गुना मुआवजा मिले | पीएचसी खोली जाए और कोटली सीएचसी को जनरल अस्पताल का दर्जा दिया जाए | अस्पताल में सारे स्टाफ दिए जाए अस्पताल में चेक अप के लिए लैब भी खोली जाए और एक वेटनरी अस्पताल भी खोल जाए | CBSE स्कूल भी खोला जाए | स्ट्रीट लाइट भी लगाई जाए | LADA

दोलाराम	कोट
---------	-----

एनजीटी की परमिशन मिल गई है या नही ?

सुरेश	महान
-------	------

मार्च मे फंशन अटेंड किया प्रोजेक्ट के लिए के आयगी | लम्बे समय के रोजगार के लिए स्थानीय युवाओं का क्या होगा | गवर्नमेंट जाँब मिले वो आप बनायें जिसमे सुझाव डे सकें |

सेवक राम	त्रेहड
----------	--------

गाँव मे रोड व ब्रिज बनायें |

गोपालजी	प्रधान खालानू
---------	---------------

मे इसका विरोधी हूँ | ऐसे प्राकृतिक सुन्दरता नहीं | मेनेजमेंट व प्रशासन से निये वेदन है की ऐसी ही व्यवस्था प्रोजेक्ट बाद भी रहे | फसलों को नुकसान होगा प्रोजेक्ट राष्ट्रीय प्रॉपर्टी है | नेचर बना रहे फारेस्ट को बढ़ाया जाय | सड़क के अन्य व्यवस्था की जाय | महान से दूसरी साईट हरिजन बस्ती है उन्हें लेन्डलैस न होने दें |

सेन्ट्रल स्कूल से 70 प्रतिशत बच्चों को मंडी भेजा जाता है जो दुर्भाग्य पूर्ण है | यहाँ डीएवी खोला जाय | लोग जमील पशुधन व माँ बाप को छोड़ कर बच्चों को पढ़ाने के लिए कहीं और चले गए |

डेम साईट पर थाना चोकी,पएचसी खोली जाए | रोजगार के अवसर बढ़ाये जाए प्रोजेक्ट के बाद

हम कहाँ जाए | पूर्व में कड़वा अनुभव है आज भी लैंड स्लाइड हो रही है | 100 मीटर टनल है और जमीन बर्बाद हो गई है |

लाडा का पैसा जमीन के अधिग्रहण के हिसाब से वहीं अनुपात में दिया जाए |

जल भराव होगा माहन में लूस लैंड है पानी भरेगा तब दिवार बने जाए अन्यथा पानी में गाँव चला जाएगा |

हमें जमीन के बदले जमीन चाहिए | जमीन आस-पास में ही मिले |

पोलितेक्निक के इंस्टिट्यूट भी खोले जाए |

पालस राम	प्रधान डवाहन
----------	--------------

विकास भी आवश्यक है | कोटली में कालेज है वो दवाहन से 30 40 किलोमीटर दूर है | केवल आर्ट्स की क्लास है अतः प्रोजेक्ट की भागीदारी हो तो अन्य सब्जेक्ट भी हो। सदोह से पधर के बीच एक बनाया जाए बल्ह के आस पास |

गोपाल चंद	कोट
-----------	-----

कोट गांव सबसे ज्यादा प्रभावित है वो स्लाइडिंग एरिया है जमीन के लिए स्लाइडिंग ज़ोन प्लान बने |

देवकी देवी	महिला मंडल कोट
------------	----------------

रोजगार जरूर होना चाहिए | लोगों के लिए आईटीआई भी खुलना चाहिए अस्पताल भी बनना चाहिए |

मानभूमी का सम्मान हो अपमान पर प्रलय हो |

ठाकुर दर्गा दत्त जी	एक्स एमएलए कोट
---------------------	----------------

यह सौभाग्य की बात है कि थाना प्लान हाइड्रो इलेक्ट्रिक पावर प्रोजेक्ट है | इसके लिए सुनवाई में विस्तार से बात रखी।

इसे रिक्मेंड करता हूं। राष्ट्रीय धरोहर है हम इसका स्वागत करते हैं। यह 2009 में आरंभ है इसे गति मिले और टारगेट समय में पूरा किया जाए। पंडोह के प्रोजेक्ट में जो दिक्कतें आईं वो इस प्रोजेक्ट में ना आए।

विस्थापित परिवारों को का डर दूर हो।

कंपनसेशन एक्ट 2013 के आधार पर भुगतान हो। और चार गुना मुआवजा मिले क्यूकी वर्तमान जमीन काफी कम है।

परिवार में से एक को रोजगार मिले प्राथमिकता पिए एफ को मिले इस क्षेत्र से सात पंचायत हैं। अतः एस डी एम ज्यादा से ज्यादा प्रावधान दें।

विस्थापित होने पर पूरी व्यवस्था रहे। 6 महीने टेक्निकल कोर्स स्किल डेवलप स्कीम प्रोफेशनल कोर्स ताकि लोगों को रोजगार मिले। यह एरिया घुंघ से प्रभावित होगा इसका भी प्रावधान करे।

जी एम	एच पी पी सी एल
-------	----------------

स्लाइडिंग एरिया जेओलोगिकल सर्वे ऑफ इंडिया का सर्वे एरिया किया गया है। पोटेंशियली स्लाइडिंग एरिया पहचाना गया है।

एरिया रेसर्वेअर ट्रीटमेंट प्लान बनाया जाए। अत रेसर्वेअर से मालवा जाएगा जो डेम के लिए भी अच्छा नहीं है।

एंड्राइड एप के लिए HQ को बताएंगे।

स्कूल टेक्नीकल ट्रेनिंग, स्किल डेवलपमेंट में युवा ध्यान दें।

शकलोर्शिप आरएनआर प्लान के हिसाब से दिया जाए।

प्रपोजल भेजा है अप्प्रोवल के बाद लागू किया जाएगा।

कनेक्टिविटी पर भी कार्य किया जा रहा है।

पर्यटन के हिसाब से इस स्थल को भी विकसित किया जाएगा।

माहन में से एक कॉलोनी बनी प्रस्तावित हो।

माहन तक 33 केवीए की लाइन पहुंचाएंगे।

मंडी से बिजली की लाइन क्षेत्र तक लाने के लिए भी बात चल रही है।

शमशान घाट आदि स्थल एलएडीएफ से बनाये जाएंगे।

### एसडीएम महोदय का वक्तव्य

पुराने एक्ट में लैंड लूसर्स के लिए ज्यादा प्रधान नहीं थे वर्तमान एक्ट 2013 में सामाजिक प्रभाव एवम लैंड लूसर्स के लिए विशेष ध्यान रखा गया है। एसआईए की रिपोर्ट एएफसी द्वारा काफी डिटेल्स में बने गयी है। प्रोजेक्ट से सोशल स्टेटस एवम इकोनोमिकल स्टेटस बढ़ना चाहिए। लोग खुशकिस्मत हैं की लगभग 90 प्रतिशत भूमी सरकार की है और डेस्प्लेसमेंट भी बहुत कम है। हाइड्रो पावर में जमीं कम लगती है चुकी सरकार इस प्रोजेक्ट को स्वयं लगा रही है इससे फायदा सभी को होगा बहुत ज्यादा होगा

| कंपनी का आरएनआर प्लान एक जैओसा है और कोम्पनसेसन सरकार का रहेगा | एलएडीएफ में किए जाने वाले कार्य पंचायत के प्रमुखों से चर्चा कर के प्लान किए जाएंगे | सीएसआर में भी काफी सारे कार्य किए जाएंगे | रोड,ब्रिज आदि का कार्य किया जाएगा जो डूब जाने वाले है | पर्यावरण पर ज्यादा प्रभाव नहीं होगा जैसा की थर्मल और सीमेंट पप्लांट से होता है | ये प्रोजेक्ट राष्ट्रीय महत्व के हैं परन्तु जमीं से जो फिलिंग जुडी रहती है उसका कोई मुआवजा नहीं है | कोम्पसेसन इतना मिले की जीवन स्तर बना रहे और उसमे बढ़ोतरी हो | भूमि मालिकों को फियर कोम्पसेसन मिलेगा | साथ ही हिमाचल सरकार के नियमानुसार 70 प्रतिशत रोजगार स्थानीय लोगों को दिया जाएगा | इसमें लैंड लूसर्स को प्राथमिकता दी जाएगी | शैक्षणिक योग्यता एवम आवश्यकता के अनुसार रोजगार दिया जाएगा | रोजगार ठेकेदारों के माध्यम से भी रहेगा |

कंपनी आने वाले समय में हाइड्रो इंजीनियरिंग करने वाले बचो को स्पोसर करे महिलाओं एवम बच्चो के लिए सर्वसुविधायुक्त अस्पताल का विकास करे | एसएचजी को आवश्यकतानुसार फंडिंग करें | अन्गवादी को सुद्रण किया जाए | स्कूल एवम कालेजो का प्रोविसन किया जाए |

पंचायत तर्नोह स्थान पंचायत भवन दिनांक 24-08-18

थाना प्लान हाइड्रो इलेक्ट्रिक परियोजना,191 मेगावाट के शोसल इम्पेक्ट के बाद जनसुनवाई आयोजित की गई जिसके अध्यक्षता उपमंडलाधिकारी (ना) महोदय, सदर मंडी जिला मंडी द्वारा की गई जनसुनवाई के प्रारंभ मे एसआईए टीम से अरिजिता ने एसआईए के तरीके सर्वे के तरीके और सर्वे के परिणामों को पीपीटी के माध्यम से सभी उपस्थित प्रतिभाग्यों के समक्ष प्रस्तुत किया प्रोजेक्ट से सम्बंधित जानकारी विशेषताएं एवम आर एंड आर के बारे मे जानकारी दी |

खेम चंद	जन्द्रोला
---------	-----------

विस्थापित लोगों का दर्द बहुत ज्यादा है | तर्नोह गेरुबल से सड़क पहुँच गई है सिलग में चिरोँझ गाँव में सड़क है | 2007 में एक पुल प्रस्तैत था जो प्रोजेक्ट के आने के बाद रद्द कर दिया गया | गेरुबल से एक बस योग्य पुल एवम डोलर बल से एक बस योग्य पुल बनाया जाए | धार के पाद झुला है रोप वे बने | शमशान घाट इको टौरिसम एवम फिशरी को बढ़ावा देने के लिए नदी के किनारे एक्क सड़क बनाइ जाए |

झील बनने से लम्बे क्षेत्रों में पानी रुक जाएगा और इसके साथ ही फोग के कारण तमाम उम्र दर्द देखना होगा सुबह का सूरज नहीं दिखेगा चारा नहीं मिलेगा इसलिए मुआवजा सही मिलना चाहिए सिंचाई योजना का विकास किया जाना चाहिए |

तर्नोह में 5 वार्ड हे अतः सामुदायिक भवन का निर्माण किया जाए और रख रखाव की जिम्मेदारी भी परियोजना के लोगों की हो इसके साथ ही सभी प्रभावित पन्चयतो के प्रभावित परिवारों को 150 यूनिट बिजली प्रति माह प्रति परिवार मुफ्त दी जाए | ब्यास नदी पर कोई पुल नहीं है अतः पुल को बनाया जाए | सिंचाई का उचित प्रबंध किया जाए खेतों के लिए |

शेर सिंह	बल
----------	----

अधिग्रहण के बाद कई परिवारों की जमीन शेष बच जाएगी इसके लिए बची हुई जमीं पर सड़क निकली जाए अन्यथा इसे भी अधिग्रहित कर ली जाए

चंद्रमनी ठाकुर	पंचायत प्रधान तर्नोह
----------------	----------------------

खेम जी का समर्थन करते हैं इसके अलावा दो झूले झूले हैं जहाँ रोप ए बने डोलरा से बल रोपरू दोलरा से मटयाला | बोट की भी व्यवस्था की जाए | मंटी से खाडकल्याना तक रोड है तर्नोह सदोह बड़ी वीर कोट में पीएनसी नहीं है | सदोह तर्नोह के लिए पीएनसी धोरू बल से चरोग के बिच पुल बास वाले वाले के जगह मजबूत पुल बनाया जाए और डो झूले का निर्माण किया जाए |

हेमराज ठाकुर	बीडीसी
--------------	--------

प्रोजेक्ट बनने से पहले प्रोटेक्शन वाल अलॉग विड साइड बने जाए | शिक्षा के लिए उच्च स्तरीय सुल की सीबीएससी स्कूल की स्थापना की जाए डीएवी जैसा | युवाओं हेतु खेल व बेरोजगारी है | योग्यता के अनुसार योजना में रोजगार को जोड़े | सदोह में सबसे ज्यादा जमी जाएगी | भूमिहीनों का ध्यान रखते हुए बेरोजगारी से राहत मिले इन पंचायतों के लिए प्रोजेक्ट पर गाँव के 70 प्रतिशत लोगों को नोकरी में भागीदारी दी जाए |

कमलेश कुमार	प्रधान सदोह
-------------	-------------

बच्चों को स्कूल के लिए 25 किलोमीटर तक जाना पड़ता है घर ही खाली हो जाते हैं सदोह /तर्नोह में बनाया जाए |

मछुवारों के लिए लाइसेंस को भी प्रदान किया जाए | सिंचाई परियोजना दी जाए | रोजगार सदोह नालोहोम में लगने से नगदी फसल का उत्पादन कर सकेंगे | जिससे रोजगार भी भी बढेगा | कुआलिटी लाइन दोलराबल झवाड में नेचुरल सोर्स है डूब जाएगा |

शर्मा जी	तांडू
----------	-------

पशु व बच्चों के लिए बाढ़ बंदी की जाए |

शिवराम	बटारी
--------	-------

किसानी खड पर जमीन जा सकती है इसे भी देखा जाए | प्रोजेक्ट बनके जब तैयार होगा तब पानी हमारे खेत में भर जाएगा तो फसल बर्बाद होगी अतः उसके बारे में सोचे |

हेम सिंह	खडकल्याना
----------	-----------

बेरोजगारी एक समस्या है अतः रोजगार इसे देखा जाए | 4 गुना मुआवजा दिया जाए | टूरिस्ट हेतु गेस्ट हाउस बनाया जाए | पीएनसी का निर्माण किया जाए | डोलरा में प्ले ग्राउंड भी बनाए जाए | महिला मंडल भवन बनाया जाए | इससे विनाश व विकास दोनों हैं | जमी जाने वाले को जमी का मुआवजा मिल जाएगा जिनकी जमीन नहीं जा रही है परन्तु फसल का नुकसान है उन्हें क्या मिलेगा ?

## जीएम एचपीपीसीएल

ब्रिज,फिशरी,शमशान,प्ले ग्राउंड आदि पर बात सुनी | 2500 करोड़ लगभग प्रोजेक्ट में लगते हैं | 1.5 करोड़ लाडा का है जो लगभग 40 करोड़ आता है | जिसमे उक्त कार्य किए जा सकेंगे | स्किल डेवलपमेंट करके | कर के नोकरी प्राप्त के आवेदन कर सकते हैं |

## एसडीएम

जीएम और स्टाफ,एसआईए टीम, पधर और पीएएफ ने जो विचार रखे उन्हें अंतिम रिपोर्ट मे दिए जाएंगे | इट वील बी अ लीगल डॉक्यूमेंट | प्रोजेक्ट दीलोपमेंट लता है परन्तु लिटिलहूड, एन्विरमेंट पर ज्यादा असर नहीं होना चाहिए | ये प्रोजेक्ट स्वयं सरकार लगा रही है | डिस्प्लेसमेंट कम है साथ ही निजी भूमि भी कम लग रही है इस प्रोजेक्ट से थोडा असर हो रहा है परन्तु ओवेरोल इम्पैक्ट ज्यादा नहीं हैं | lada का बजट लगभग 40 करोड़ होगा जो डायरेक्ट क्षेत्र के विकास में लगाया जाएगा | इसके साथ ही सीएसआर के कार्य भी किए जाएंगे |

कंपनी 70 प्रतिशत तक स्थानीय लोगों को रोजगार देगी इसके लिए आवश्यक है की सम्बंधित डिप्लोमा या डिग्री लेली जाए | वाटर स्पॉट भी आरम्भ किया जा सकता है जिससे भी रोजगार मिलेगा | रोप वे आदि जो की पानी में डूब जाएंगे उन्हें भी बने जाएंगे |

पांच से दस पंचायतों को मिला कर पीएचसी की जा सकती है | खेलों को बढ़ावा और तकनीकी अध्ययन को भी बढ़ावा दिया जाएगा |

कमजोर परिवारों और महिला संचालित परिवारों पर विशेष ध्यान दिया जाएगा | क्षेत्र में सामुदायिक शोचालय भी बनाये जा सकते हैं | सीबीएससी/केन्द्रीय विद्यालय जैसे संस्थान खोलकर अच्छे पढने वाले बच्चों को किताबे और स्कोलोशिप भी दिया जाए | बालिकाओं और युवतियों के लिए व्यवसायिक ट्रेनिंग दी जाए | सरकार आपसे मुआवजे के बारे में चर्चा कर सकती है | इस प्रोजेक्ट में आपका सहयोग अपेक्षित है ताकि समय पर इसका कार्य पूर्ण किया जा सके | सीएसआसर फण्ड का उपयोग किया जाएगा महिलाओं के लिए | और युवतियों को स्किल डेवलपमेंट की ट्रेनिंग दी जाएगी | इस प्रोजेक्ट में सारे गाँव वालों को फियर डील देने की कोशिश करेंगे |

पंचायत नोहली स्थान सामुदायिक भवन नोहली दिनांक 25-08-18

थाना प्लान हाइड्रो इलेक्ट्रिक परियोजना,191 मेगावाट के शोसल इम्पेक्ट के बाद जनसुनवाई आयोजित की गई जिसके अध्यक्षता उपमंडलाधिकारी (ना) महोदय, जोगिन्दरनगर जिला मंडी द्वारा की गई जनसुनवाई के प्रारंभ मे एसआईए टीम से अरिजिता ने एसआईए के तरीके सर्वे के तरीके और सर्वे के परिणामो को पीपीटी के माध्यम से सभी उपस्थित प्रतिभाग्यों के समक्ष प्रस्तुत किया प्रोजेक्ट से सम्बंधित जानकारी विशेषताएं एंवम आर एंड आर के बारे मे जानकारी दी |

दिलीप सिंह	बनारु अबल
------------	-----------

चार गाँव - अबल,बटधार,बनोग,दोम प्रभावित है

थाना प्लान संस्था 2013 में बनी इसे सूचित कर दिया गया था 2018 को नवीनीकरण किया गया महासचिव है संस्था में

खुशी है की घर के पास थाना प्रोजेक्ट बन रहा है थाना गाँव पूर्णत प्रभावित है इससे समस्या का समाधान होना चाहिए सना खड पर बस योग्य पुल का निर्माण पूर्व से PWD बनाने वाली थी परन्तु प्रोजेक्ट के कारण पुल का निर्माण रोक दिया गया | अगर डेम का प्रोजेक्ट ना आता तो ये पुल बन जाता | नोहली पंचायत व दृबल पंचायत को जोड़ने के लिए महत्पूर्ण मांग है |

उठाऊ सिंचाई योजना का प्रबंधन किया जाए | निचे के चार गाँव बनोग, बनारू अबल, दोम, बटधार हेतु सामुदायिक भवन का निर्माण किया जाए |

श्री धरम चाँद जी ने परियोजना की कॉलोनी हेतु जमीन देने का प्रस्ताव दिया है (25-30 बीघा जमीन) | सबसे ज्यादा प्रभावित दृबल व नोहली है | इसके लिए पूर्व से भी प्रस्ताव दिया है | यह सबसे महत्पूर्ण मुद्दा है | पशु अस्पताल का निर्माण किया जाए | पशु अस्पताल केवल पालमपुर में जो की बहुत दूर है | इस डेम के कारण फोग होगा और सर्दी में सूर्य नहीं देख पाएँगे | पेड़ पोधे बुजुर्गों तथा बच्चों को उचित धूप ना मिलने से बिमार हो सकते हैं | अतः इसके लिए पूर्व से सुविधा दी जाए |

नोहली में आदर्श ग्राम का विकास किया जाए इससे आगे चल कर अन्य गाँव को भी लिया जाए |

रोजगार को प्राथमिकता दी जाए | ल्प्रोजेक्ट में प्रभावित लोगों की गाडी लगाई जाए | निजी भूमि का मुआजा 2013 के नियमनुसार 4 गुना दिया जाए | राना खड में फूट ब्रिज का निर्माण किया जाए | गरीब घर के लोगों के हेतु स्कोलोर्शिप डी जाए | सरकारी भूमि में फलदार वृक्ष लगाए जाए | मुख्या स्थानों पर पर्यटन का विकास हो व मकान आदि निर्माण कर विकास पर ध्यान दें |

वन विश्राम गृह बने जाए | फलदार पेड़ व पशुचारा की भरपाई हो | बंदरों व जंगली सूअरों की समस्या का निवार किया जाए | गलियों व सड़कों का विकास करें और नए भी बनवाए |

रमा शर्मा	प्रधान नोहली
-----------	--------------

विकास कार्य पर विशेष ध्यान दिया जाए बेरोजगारों को यही पर रोजगार दिया जाए | कच्ची सड़कों पर कार्य कर पक्का बनाया जाए सस्ते केंद्र पर स्टाफ अनहि है अतः PHC का निर्माण किया जाए | महिला मंडल भवन का निर्माण किया जाए | मोहली सामुदायिक भवन में दूसरी मंजिल रेस्ट हाउस की बने जाए | स्कूल बनाया जाए | शमशान घाट पर भी ध्यान दें |

	उपप्रधान नोहली
--	----------------

हम इस प्रोजेक्ट का स्वागत करते हैं उम्मीद है की इससे उन्नति होगी लोगों की जो मांगें है उनको पूर्ण किया जाए | पूर्व में CADF को पचास लाख मिला है जो इस समुदायिक भवन का निर्माण हेतु | सैट गाँव है तीन पूर्ण प्रभावित है अतः adjoining गांवों को भी लाभ मिले घुन्ध होगी इससे काफी लोग प्रभावित होंगे | इस हेतु प्रावधान किया जाए | प्रोजेक्ट के लिए नया सकिट हाउस गाँव में बने | प्रोजेक्ट अपनी तरफ से डीएवी स्कूल स्थापित करे | pnb बैंक में खता खुला ताकि प्रोजेक्ट का सारा पैसा आए | रोड का हाल बुरा है यह मंडी जोगिन्दर नगर का मुख्य सड़क है | परन्तु इस क्षेत्र में सड़कों का विकास हो प्रोजेक्ट बनने से प्रेशर ग्रुप बनेंगे |

किशोर सिंह ठाकुर	आडवानी
------------------	--------

15 वर्षों से hep पर कार्य कर रहा हूँ | एचपीपीसीएल की पेमेंट आए जो स्थानीय में जाए | लोकल गाड़ियों के हेतु पूर्व से बता कर समय दिया जाए | विचारों का आदान प्रदान हो |

घनश्यामजी	बनारु अबल
-----------	-----------

आम के पेड़ सुख जाएँगे इसके लिए क्या प्रावधान है ?

अछरी देवी	बनोग
-----------	------

मेरी भूमि से 10 मीटर निचे तक पानी आ रहा है 20 किलोमीटर पीछे कुन्नु सड़क जा रहा है अतः में प्रभावित हो रही हूँ इसका ध्यान रखा जाए |

जीतराम	नोहली
--------	-------

मछली पकड़ने का लाइसेंस इन्ही स्थानीय निअसियों को मिलना चाहिए |

पंचायत दृबल स्थान पंचायत भवन दृबल दिनांक 25-08-18

मनोहर ठाकुर	घेरुबल
-------------	--------

राना खड पर बल हेतु पुल निर्माण | बल डोलरा के बिच पुल बनाया जाए | उठाऊ पेयजल योजना मनारु,बल,नोहली सीधे प्रभावित है वर्षा से कृषि इसी उठाऊ पेयजल योजना से बने | बजेरा, चरौंझ के लिए उठाऊ पयजल योजना बने जाए | बड़ेरा के पास सामुदायिक भवन का निर्माण किया जाए | वन विभाग विश्राम गृह बनाया जाए | आम के बगीचे नीम्बू के बगीचे प्रभावित होंगे | धुंध में फसल प्रभावित होगी | स्कूल और तकनिकी संस्थान बने | दिस्पेन्सरी बने जाए | कॉलोनी बने स्कोलोर्शिप दिया जाए | मुआवजा 2013 के नियमानुसार दिया जाए अन्यथा घोर विरोध किया जाएगा | जो परिवार प्रभावित है

उन्हे कोई जगह मिले अन्यथा नियमानुसार कार्यवाही की जाए | पप्रभावित परिवारों को रोजगार व मुआवजा मिले | नागन में सेमिनार हुआ था जिसने जीएम ने बताया था गोशाला हेतु पैसा मिलेगा | उठाए गांवों को साहायता दी जाएगी लोकल को रोजगार मिलेगा 5 लाख तक के ठेके स्थानीय लोगों को मिलेंगे | कम्मेटी के माध्यम से लोगों को सूचित किया जाएगा |

मानसिंह	प्रधान दृबल
---------	-------------

नुक्सान की भरपाई की जाए | ज्यादा से ज्यादा सुविधाएँ दी जाए | कॉलोनी का निर्माण किया जाए क्योंकि इसी क्षेत्र से बहुत से लोगों की जमीनें जा रही है | बस योग्य पुल का निर्माण किया जाए बेघर हुए लोगों को स्थाई नोकरी दी जाए LADA का पैसा प्रभावित क्षेत्र में लगाया जाए | मुआवजा एक बार में ही दिया जाए सड़कों की दशा सुधारी जाए | अरुर्वेदिक स्वास्थ्य केंद्र में एक भी डॉक्टर पदस्थ नहीं है इसमें तुरंत डॉक्टर पदस्थापित किया जाए | रेस्ट हाउस बनवाया जाए ऑफिस भी इसी क्षेत्र में बनवाया जाए | महिलाओं के महिला मंडल भवन व सामुदायिक भवन बने |

	प्रधान पिपली
--	--------------

पिछले कुछ समय में प्रोजेक्ट की गतिविधियाँ बढ़ी नहीं सभी लोग चेहते हैं की ये प्रोजेक्ट स्थापित किया जाए परन्तु लोगों के लिए सुविधाएँ अति आवश्यक है बनोग के लोगों के लिए सड़क बने चुकी इस क्षेत्र से प्रभावित लोगों की संख्या सबसे ज्यादा है इसलिए इसी क्षेत्र में कॉलोनी भी बननी चाहिए LADA के माध्यम से समुदायिक भवन व डिस्पेंसरी बनाइ जाए पुल का निर्माण किया जाए | जिन लोगों का मकान जा रहा है उन्हें सही मुआवजा मिले धसने वाले क्षेत्रों का विशेष ध्यान देकर उन्हें सुरक्षित किया जाए | जायज मुआवजा एक मुश्त दिया जाए

विनोद कुमार	उपप्रधान
-------------	----------

सभी लोगों को सामान मुआवजा दिया जाए | राना खड के अंतिम सिरे पर एक विकल्प उपलब्ध है जिसका सर्वे भी हुआ है अतः ब्रिज का निर्माण किया जाए जिन क्षेत्रों में भी बने हुए ब्रिज का नुकसान हो रहा है वहां अवश्यक रूप से पुलों का निर्माण किया जाए |

इस क्षेत्र से 30 किलोमीटर दुरी तक कोई स्वास्थ्य संस्था नहीं है अतः प्रोजेक्ट के माध्यम से बड़ा अस्पताल बनाया जाए | कॉलोनी का निर्माण भी इन्ही पंचायतों के क्षेत्र में बने | 70 प्रतिशत रोजगार का नियम है अतः हर घर से एक व्यक्ति को रोजगार मिले परन्तु ये देखने में आया की ऐसा नहीं होता |

यूधिष्टिर जी	नागन
--------------	------

सड़क पुल जैसी आधारभूत सेवाएं नहीं है रोजगार के मोके भी उपलब्ध नहीं है अतः इस क्षेत्र में ऑफिस खोला जाए ताकि सूचनाओं का आदान प्रदान स्थानीय लोगों से हो सके | इस क्षेत्र में प्रभावित लोगों की संख्यां बहुत ज्यादा है स्थानीय लोगों को ही 5 लाख तक के ठेके दिए जाए | पूर्व में भुर्जी लगाने का ठेका साईं गुरु के ठेकेदार को दिया गया जो उचित नहीं है | LADA का पैसा इसी क्षेत्र में लगे जाए और विस्थापितों का अच्छा मुआवजा मिलना चाहिए |

पूर्व में परियोजने अधिकारियों को कॉलोनी स्थापित करने के लिए 42 बीघा जमीन दिखाई गई थी अतः परियोजना की कॉलोनी यही बने ताकि लोगों को सुविधाएँ एवम विकास हो सके |

पंकज	
------	--

यह सबसे पिछड़ा क्षेत्र है | प्रोजेक्ट का कार्य यहाँ इस क्षेत्र में शुरू किया जाना चाहिए ताकि प्राथमिकता के आधार पर स्थानीय लोगों को रोजगार प्राप्त हो सके | कॉलोनी बनाए के लिए जमीन उपलब्ध है अतः साथ ही ऑफिस भी इसी क्षेत्र में स्थापित किया जाए ताकि समय रहते जानकारी मिल सके |

सड़कों और स्वास्थ्य सेवाओं पर द्विशेष ध्यान देते हुए LADA का बजट क्षेत्रीय विकास पर लगाया जाए | ठेकेदार बाहरी लोगों को काम के लिए ना लायें और स्थानीय लोगों को ही रोजगार दिया जाए |

खेम सिंह	बल
----------	----

क्या अप लोग कोपराशन देने वाले हैं परियोजना अधिकारी केवल नियम और कानूनों का पालन करें तभी हमसे सहयोग की अपेक्षा रखें |

जीवन लाल	जिला परिषद सदस्य
----------	------------------

कॉलोनी एवम ऑफिस दोनों यहीं बनने चाहिए | कोटली से थाना तक की कुल दुरी 50-60 किलोमीटर हो जाती है इस स्थिति में परियोजना के अधिकारी लगभग 110 किलोमीटर आना जाना क्यों करते हैं ? यही प्रश्न में डीसी के समक्ष भी रखेंगे | पंचायत के लिए लड़ाई की जाएगी यदि मुआवजा अधिनियम 2013 अनुरूप नहीं मिला तो विरोध निश्चित है | बनवार रोपडू में फसलों का नुस्कन होगा जिसका मुआवजा मिलना चाहिए | इसके अलावा स्थानीय लोग कोदरा,छल्ली,धान,लहसुन,प्याज भी उगाते हैं अतः इस चीज का भी ध्यान रख कर मुआवजा निश्चित किया जाए |

अगर कार्यालय व कॉलोनी नहीं बनी तो हम अपने अधिकारों का प्रयोग करेंगे |

टेक चंद	
---------	--

जमीन का माप कैसे किया जाता है यह विस्तार से समझाया जाए निचे की लाइन और उपर की लाइन को समझाया जाए

अम्बरी देवी एवम तीर्थ राम	थाना
---------------------------	------

हमारा पूरा घर पानी में डूब जाएगा हमने अभी तक दूसरा घर नहीं बनाया हैं हमें क्या मुआवजा मिलेगा | मेरा परिवार खेती बकरी पालन एवम प्रोजेक्ट में टेम्पररी नोकरी कर के चल रहा है |

क्षेत्र में चार मकान जल मग्न हो रहे हैं मे वर्तमान मकान में कई सालों से रह रहा हूँ मकान से सम्बंधित कागज मेने कोटली में एलएओ को दिए थे परन्तु उन कागजों का कही पता नहीं चल रहा है मैं कंपनी के साथ 2011 से कार्य कर रहा हूँ परन्तु मुझे कोई फायदा नहीं है |

व्यासा देवी (पूर्व प्रधान)	बसाही
----------------------------	-------

पहले एमडी आये थे इस क्षेत्र में कार्यालय बनाने के लिए नक्शा बनवाया | मेने 40 लाख रु खर्च कर के कार्यालय हेतु भवन तैयार करवाया एग्रीमेंट भी पास हो गया परन्तु इसके आगे कोई कार्यवाही नहीं हुई है | समय समय पर अधिकारियों को मेने सहयोग किया है जिसका मुझे कोई फायदा नहीं है | मेरा सभी लोगों से अनुरोध है की वे एसडिएम महोदय से मिले और अपनी बात रखें हम प्रोजेक्ट के साथ में हैं पर सुनवाई की जाए और ऑफिस और कॉलोनी इसी क्षेत्र में बनाई जाए |

तिलक राज	रोपा बनवार
----------	------------

मेरा घर वाटर लेवल के बहुत पास है डैंजर जोन में आता है इसके लिए कोई प्रावधान रखा जाए | मेरी खेती भी प्रभावित हो रही है अतः मेरे खेतों का ध्यान रखते हुए उचित मुआवजा दिया जाए |

ताराचंद ठाकुर	बनवार रोपरू
---------------	-------------

चूकि प्रोजेक्ट 5 साल के बाद खत्म हो जाएगा इसके बाद स्थानीय लोगों के रोजगार का क्या होगा जिन जमीनों पर स्टीप कटिंग है वो जमीनें खत्म हो जाएंगी उनके क्या प्रावधान किए गए हैं पटके से ही स्पष्ट किया जाए |

बनारु में जमीन की माप सही नहीं है अतः सूचि पुनः देखि जाए और माप कराई जाए | डैंजर जोन में आने वाले मकानों पर विशेष ध्यान देते हुए अलग से प्रावधान किए जाए |

### एसडीएम महोदय का वक्तव्य

यहाँ कही गई कुछ बातें सही है कुछ अवधारणा है अतः एरिया जोन Notified होंगे | जब ये Notified हो जाएंगे तब स्थानीय लोगों के योजना के अनुसार LADA के पैसे का उपयोग किया जाएगा | LADA का शेल्फ स्थानीय लोग ही बनाएंगे | जो लोग विस्थापित हो रहे हैं उनके पैकेज के बारे में अलग से बताया जाएगा | अधिनियम 2013 बड़ा लिबरल है और लोगों के लिए बनाया गया है | आपकी बातें प्रोजेक्ट अथॉरिटी और मेनेट्स में आ रही हैं अत साड़ी कार्यवाही नियमानुसार की जाएंगी |

पंचायत बड़ीधार स्थान पंचायत भवन बड़ीधार दिनांक 27-08-18

थाना प्लान हाइड्रो इलेक्ट्रिक परियोजना, 191 मेगावाट के शोसल इम्पेक्ट के बाद जनसुनवाई आयोजित की गई जिसके अध्यक्षता उपमंडलाधिकारी (ना) महोदय, पधर जिला मंडी द्वारा की गई जनसुनवाई के प्रारंभ

मे एसआईए टीम से अरिजिता ने एसआईए के तरीके सर्वे के तरीके और सर्वे के परिणामो को पीपीटी के माध्यम से सभी उपस्थित प्रतिभाग्यों के समक्ष प्रस्तुत किया प्रोजेक्ट से सम्बंधित जानकारी विशेशताएं एंवम आर एंड आर के बारे मे जानकारी दी |

सोम सिंह प्रधान	बड़ीधार
-----------------	---------

खुशी की बात है की पहली बार इस क्षेत्र में प्रोजेक्ट का निर्माण हो रहा है | योग्यता अनुसार इसमें रोजगार मिलना चाहिए | स्थानीय लोगों की निम्न मांगे हैं | सिलग, कुफरी, बड़ीधार में सड़क कोन्नेक्टिविटी बहुत कम है अतः बनाया जाए | प्रभावित परिवारों को रोजगार उनकी प्राथमिकता पर मिले | उठाऊ सिंचाई योजना रोपड़ा से राछवान को प्राथमिकता दी जाए | दो झूले हैं वो पानी में समां जाएंगे | बस योग्य पुल बनाया जाए | जिला मंडी में पॉवर ग्रिड की स्थापना किया जाए | पर्यटन के लिए बढ़ावा दें | LADA का पैसा बराबर राशी में सभी पंचायतों को दिया जाए | समय-समय पर प्रोजेक्ट की तरफ से जागरूकता शिविर लगाया जाए | पानी सामने से पहले शमशान घाट सेफ एरिया में बनाया जाए | बटधार और बेवला में सामुदायिक भवन बनाया जाए तथा रेस्ट हाउस भी बने | निचली जगहों पर जो रिश्तेदार तुंगल में रहते हैं उनका रास्ता बाधित कर दिया है अब उनको 40 किलोमीटर के जगह 12 किलोमीटर घूमना पड़ेगा क्योंकि जनता से पूछे बगैर ही एनओसी डे डी गई है | लोग इच्छुक है प्रोजेक्ट के लिए उचित मुआवजा दिया जाए | हर पंचायत को बराबर-बराबर पैसा दिया जाए |

राजेन्द्र सिंह	सिलग
----------------	------

हम इस प्रोजेक्ट से काफी उत्साहित है विक्टोरिया मंडी से मुनकेसर तक कोई पुल नहीं है | दो झूले जो पानी में समा जाएंगे इसलिए दो झूले का निर्माण कियता जाए |

प्रकाश	प्रधान कुफरी
--------	--------------

यह काफी समय से सुन रहे हैं | अब 1 से कार्य बड़ा है | प्रभावित परिवार के एक व्यक्ति को नोकरी मिले योग्यतानुसार मिले | प्राथमिकता के आधार पर मिले | मुआवजा पूर्व निर्धारित है | आपदा आने पर अआश्यक उपकरण रहें | आदर्श पंचायत आदर्श गाँव बने प्रभावित गाँवों के लिए को प्राथमिकता दी जाए | मुझे कोटली से वाया मंडी से यहाँ आना पड़ा अतः पुल बस योग्य हो व सड़क बंद बंद हो जाती है अतः उन्हें एडवांस में बनाये | बिजली कनेक्टिविटी जोगिन्दर नगर व मंडी दोनों से होनी चाहिए | हेल्थ के लिए अस्पताल में सभी सुविधा हों कुफरी में आयु दिर्प है पर डॉक्टर नहीं है अतः डॉक्टर की व्यास्था की जाये जिससे दूर जाना ना पड़े | एजुकेशन खेल मैदान का विकास हो | आने वाले समय में सहयोग मिले तो देश विदेश जा सकते हैं | शमशान घाट पर बैठने व पानी की व्यवस्था की जाए | गेस्ट हाउस कम्युनिटी हाल कुफरी में हो ताकि लोगों को अच्छी सुविधा हो | सभी किसानों को सिंचाई की सुविधा मिलनी चाहिए |

देवेंदर कुमार	बडगांव
---------------	--------

घराट रिपोर्ट मे नहीं आई है अतः पुन सर्वेक्षण घराट को रिपोर्ट में लाया जाए और उसका उचित मुआवजा दिया जाए | दो झूले है जो डूब जाएंगे | फुट ब्रिज ही बनाया जाए हमने जर्मी डोनेट की 2007 में अभी तक इसका ब्रिज नहीं बना | प्रोजेक्ट साईट तक नदी के पास सड़क का निर्माण हो |

यूवराज	बनारू अबल
--------	-----------

हमारे एक परिवार में चार सदस्य हैं जिसमें 2-2 जमीन जा रही है जमीन के बारे में छानबीन कर के इसकी जानकारी रेवन्यु से ली है हमारी साथ की जमीन पूरी जा रही है और हमारी जमीन आधी जा रही है अतः सभी को बराबर जमीन दी जाए | बनारू में दुसरे लोग भी बसे है क्या उन्हें भी बिजली मिलेगी? दूसरी जगह जो लोग बसे हैं अतः उन्हें भी मुफ्त बिजली मिले | प्राकृतिक आपदा आने पर LADA का पैसा लोगों के लिए लगाया जाए |

नानक चंद	लागधार
----------	--------

एक तरफ व्यास व लोनी खड्ड है यह अपफक्टेड नहीं मन गया है | इससे क्या हमारे गाँव को कोई नुकसान पहुंचेगा? भूमि अधग्रहण का प्रोसेस क्या है? पानी का लेवल अलग अलग रहता है | अतः शंका है इससे कोई नुकसान हो सकता है | प्रोजेक्ट लगने पर जब जल भराव 15-16 किलोमीटर होगा तब क्या हमारे गाँव को नुकसान होगा? इसकी जानकारी दी जाए |

जय सिंह	पदवाहन
---------	--------

जो जमीं जा रही है उसमें मकान बने हैं वो खतरे के निशान पर है | हमें भी घर बना कर दिया जाए | निम्बू अनार लगे और गोशाला भी है | इसी जमीन से खाते थे अब और कोई दूसरा उपाय नहीं है हमारी लिए इसका भी परबंध करें |

तारापती	बडगाँव
---------	--------

हमारी घराट चल रही है और व पानी में डूब रही है रेवेन्यु वाले कह रहें की नहीं डूब रही इसका समाधान करें |

लोकराज	बड़ीधार
--------	---------

प्रोजेक्ट में डो झूले डूब जाएँगे इसलिए बस योग्य एक पुल बनाया जाये ताकि लोग आर पार जा सके

काहन सिंह	प्रधान कोट
-----------	------------

प्रधानो की जो डिमांड राखी गई वह सराहनीय है सनन पॉवर हाउस से पधर को पॉवर सप्लाई दी जाए | यहाँ मंडी से पॉवर सप्लाई नहीं हो पाती | 220kv का ग्रिड बने ताकि एसी व्यवस्था बने की लगातार लाइन चालू रहे | मंडी, सानन, बसी चुला आदि चल रहें है | अब ये प्रोजेक्ट को मंडी तक से ही किया जाए | महिला मंडल को स्वच्छता पर बढ़ावा दिया जाए | खेलों का विस्तार करें इन्हें पैना किया जाए | जोनल/डिस्ट्रिक्ट हेतु होस्पिटल बने | धुंध से बीमारी बढ़ेगी इसके लिए प्प्रावधान निकालें | इस प्रोजेक्ट से फायदा है हम मदद के लिए तैयार हैं | प्रॉब्लम होने पर साथ देंगे | ग्रामीण क्षेत्रों पर ध्यान दे | नाशी मुक्ति केंद्र भी लगे जाए | तुंगल व तुंग क्षेत्र को जोड़ा जाए | ग्रामीण खेल पर ध्यान दिया जाए |

लघु राम	बड़ीधार
---------	---------

2013 एक्ट के नियमानुसार 4 गुना मुआवजा दिया जाए

शीतला देवी	खाजरवाहल
------------	----------

7 भाई है जिनकी जमीन से गुजरा होता है उनमे से एक के बच्चे ने इंजीनियरिंग की है उसे प्रोजेक्ट में जॉब दी जाए |

ओम	प्रकाश बड़ीधार
----	----------------

मेरी जमीन नहीं जा रही परन्तु फसलो को नुकसान जरूर होगा अतः इसका भी मुआवजा दिया जाए | पुल की बात राखी पर वो कहा लगाया जाए? पुल विक्टोरिया से रना खड का डिस्टेंस ले कर बिच में ही लगायें | बडगांव में खड्ड पर पुल लग्न चाहिए | जमीन का क्या प्रोविसिअन है जब जमीन धसेंगी तब प्रोजेक्ट का क्या होगा? लगधार को प्रोकजेक्ट में क्यों नही लिया?

Viktro 750 mtr

Dam 6

नदी 200 मीटर एक मीटर का ड्राप रेसर्वे करवाएँगे | 716 तक ही भुर्जी लगाई है अगर गलती है तो ठीक करेंगे | ऊपर की जमीन पर 716 से ऊपर रेसुर ट्रीटमेंट प्लांट बना है जिसमें दिवार लगा कर प्रोटेक्ट करेंगे | अन्य डिमांड lada में पूरी होगी | जमीन कास रेट कैसे दिया जायगा उसकी जानकारी आम लोगों को दी जाए |

SDM

प्रधान को धन्यवाद प्रोजेक्ट का स्वागत में बिलासपुर से हूँ मैं एक गाँव का ही हूँ इसलिए समझता हूँ | फल की पैदावार से घर चला सकते हैं | नोकरी कम होती जा रही है खेती बारिश पर ही है अगली जनरेशन हाइड्रो इलेक्ट्रिक पोटेन्शियल पर देपेंड है हिमाचल में अर्थवाद वडी फेक्ट्री नही लगेगी | नोकरी सभी को मिले इस बात का ध्यान रखा जाएगा |

1) जो पानीवाह विस्थापित होगे उन के लिए  
"हाई वॉल्टेज" का प्रबन्ध किया जाये।

2) प्रभावित पंचायतों के युवा/बैरजगरी को प्रशिक्षण  
के अंतर्गत घर-घर तक उपलब्ध करना सुविधा-युक्त  
करें।

3) विस्थापित लोगों को रोजगार का पशुना मुआवजा  
मिलना चाहिए

4) आर्थिक रूप से दुर्बलों का निर्माण करना

1) जल : तैरुड गाँव को जोड़ने वाला  
बस सड़क पुल

2) मन्माल खुवराहल गाँव के बीच बने  
सड़क पुल

3) फलानी खड पर पुल

4) डौलरा बलह के पास पुल

5) सड़कों के रखरखाव का व्यवस्था करना

6) जल संचयन को बढ़ा देने वाले अनुसंधान  
को प्रोत्साहित करने के लिए ऐसी जगह-चीनीत को  
ताकिए वहाँ पर टेली सी प्रबन्ध किया जाये।

7) शिला के युवा किजारे के जंगल के अन्तर्गत  
2 एकड़ के कल टाट पौधे लगाने चाहिए  
एक बरस में लगाने जाये

8) हर पंचायत को एक कि-यार्ड  
मिलनी चाहिए

9) कोट पंचायत के एक P.H.C. खोलनी  
जाहिए - कोटकी E.H.C. स्वस्थ  
केन्द्र को 20000 रुपये का बजट उपे

10) बड़ा बरखी स्वस्थ केन्द्र खुलवा  
जाहिए बिच मर बिमार पहुँचों को  
निवारित करने का operation को ब्यवस्था  
दे।

11) स्कूलों को सुदृढ़ किया जाय  
स्कूल को जोड़ लेकर एक काबल  
स्कूल बनाया जाय, बच्चों को  
आध्यात्मिक को प्रोत्साहन की व्यवस्था  
दि जाय, खेलों को बढ़ावा दिया  
जाय।

12) पेयजल बच्चा को सुदृढ़ कर के  
सबसे पानी को ब्यवस्था करना

13) नए स्कूल बिल्डिंग के तहत नये के  
विभाग 2 छात्रों को निर्माण  
करना।

14) एक तकनीक संस्थान को खोलनी

15) माडल गाँव बनायी जाय

16. शकशाण स्थला का निर्माण करना

17. उगाककता विवरी का आभोजन  
करना जूट खाद्यमा स्वच्छ, पीछा  
नशा कुक्ती एवं समाजिक उत्पिकाट

18. लाइगालू से मादक तत्व 220 K.V.  
लिने का निर्माण करना

19. जारी शक्ति एवं युवा का बचवा  
देने के लिए आलय से उपलब्ध करना

20. वाक्य-सुद के तजये व पार्क का  
निर्माण करना जिस के Coortheem  
Bath 2000 का भी व्यवस्था करना

21. 220 K.V. <sup>line</sup> / H से काफी अंतरा तब  
लाइन की व्यवस्था करना

22. LDA के पीछे का सही उपकरण

23. विस्तृत योजना 3200 पाणी है  
डिजाई एवं सामग्री के पीछे  
डिजाई योजना

क्रमांक सं. : ..... ग्राम पंचायत नौहली में विकास कार्य  
करवाने हेतु प्रमुख मांगें -

दिनांक .....

- 1) ग्रामीण विकास के लिये सबसे बड़ा कार्य सड़कों को पक्का करवाना बहुत जरूरी है क्योंकि यहाँ एक कारिश् होते ही सड़कें शर्तों में बदल जाती हैं तथा जो कच्ची सड़कें हैं उन्हें पक्की करवाने का प्रावधान करना।
- 2) प्रोजेक्ट के लगने पर गांव में अंडा पैयजल झोंत तथा जल सिंचाई योजना की जो ट्रेक कूल्हे बनाई थी वह अभी जल मग्न हो जा रही। यहां लिफ्ट के माध्यम से लोगों को पैयजल व सिंचाई हेतु जल पुरान करवाना होगा।
- 3) इस प्रोजेक्ट के लगने पर हमारी पंचायत के बेरोजगारों के रोजगार दिलाना आते आवश्यक है।
- 4) महोदय जी हमारी पंचायत में PHC दमण व एक डिस्पेंसरी बनारु में है। दमण में स्वास्थ्य सुविधा की कमी है यहां न तो Lab. और न ही X-ray का उपब-ध है इसलिये ये सुविधाएं दिलाना आते आवश्यक है।
- 5) बसों का कोटा बहुत कम है। बसें दो टाइम चलती हैं बीच में कोई बसें नहीं है इसलिये महोदय जी बस चलाने बारे यहां इस समस्या का प्रावधान करने की कृपा करें।
- 6) महिलाओं के लिये कोई बुनियादी प्रशिक्षण केंद्र खोला जा ताकि महिलाएं गांव में ही स्वरोजगार चला सकें। महिला मण्डल बने हैं परन्तु भवन एक भी नहीं है। इसलिये महिला मण्डल भवन के लिये राशि स्वीकृत

करवाने की कृपा करें।

7. सामुदायिक भवन की दूसरी मंजिल के लिये धनराशि स्वीकृत करवाने की कृपा करना तथा साथ ही बन विभ्रम गृह नौहली में दूसरी मंजिल के लिये धनराशि स्वीकृत करवाने की कृपा करें।

8. शिक्षा का स्तर भी यहां मिलाजुला है। अंग्रेजी स्कूल यहां एक भी नहीं है लोग अपने बच्चों को या लो जौनगर या पट्टर में पढ़ाने मंजते हैं। इसलिये यहां। स्कूल E.M. का होना जरुरी है।

9. शामशान घाट के लिए कोई उचित प्रबंध नहीं है।

10. समादाईक भवन नौहली के लिए लगती रोड के बिस्व (बिस्व) के नालीयों के पम्पा करने के बिस्व धन शाही पदान की जाए

11. समादाईक भवन की दूसरी मंजिल के लिये धन शाही

17. पार्क व भीलों के लिए धनराशि का प्रावधान करने की कृपा करें।

सेवा में

माननीय काम. महोदय जी आप के विनम्र प्रार्थना है कि जो हमारे गांव में जो भी समस्या है उसे कि और आपका ध्यान आकर्षित करना चाहते हैं।

(1) सड़क पथ हमारे गांव में रोड नहीं है आप इन रोड बनाने के लिए रुक रुक कर- गांव में रोड न होने की वजह से वह है वह है बहुत सुरीला का सामना करना पड़ता है।

(2) हमारे गांव में रास्ते को भी बहुत खराब हाल है इन रास्तों को भी बनाने की कृपा करें. हमारे जो मैन रास्ते हैं कमलजल से गांव रोपड़ वाली हरिजन वस्ती को और दूसरा रास्ता है गजभाठा के गांव रोपड़ वाली हरिजन वस्ती से शासन घाट तक ये रास्ते बहुत जरूरी है।

(3) गजभाठा के रोपड़ वाली हरिजन वस्ती का सड़क निर्माण किया जाये

(4) पलेहड रोड से हरिजन वस्ती पजारडी से रोपड़ वाली शासन घाट तक निर्माण कराया जाये

(5) पथ के जितने भी युवा बच्चे पसेजाग बरेजगार आई है इन्हें का रोजगार उपलब्ध कराया जाये

(6) प्रोजेक्ट अकाउंट PNB ब्रांच नौहली में खोलने की कृपा करें

उपधान सतगुरु रविदास कमेटी

पंचायत की प्रमुख मांग

दिनांक 22/08/2018

- 1) यहां के लोगों की प्रमुख मांग है कि पंचायत में जहां उचित जगह सूविधा अनुसार मिले प्रोजेक्ट से सम्बंधित कार्रवाई यहां ही वननी चाहिए। पंचायत के स्वयं अचिर्क गांव यहां प्रभावित हो रहे हैं। लगभग 100 परिवारों की जमीन Project में जा रही है।
- 2) यह है कि यहां पर बूंगा रो आला। या यहां खड गांव। गढ़याड़ा के पास एक पुल का निर्माण किया जाए ताकि साथ में जो प्रभावित पंचायत है उनकी कम-टीविटी वनी रही है।
- 3) थाना प्लान से जो प्रभावित परिवार है उनके परिवार में से एक सदस्य को सरकारी नौकरी स्याई तौर पर दी जाए।
- 4) लाडा का पैसा रैजरवाथर जो भी हो वही स्वयं किया जाए या उही स्कीम में स्वयं योग्य होना चाहिए।
- 5) प्रभावित परिवारों को जो भी राशी Project द्वारा निर्धारित की गई है यह राशी एकमुश्त या इच्छी दी जाए।
- 6) यह है कि Project वनने से पहले हमारी जो भी स्कीम देने के पानी की प्रभावित होगी उनको भी पहले स्याई समाधान किया जाए। जिनमें हमारी प्रमुख स्कीम खलना। चरीम 361 के पथ जल है।
- 7) यह कि यहां पर सड़कों की भी ठासुविधा है लोगों की मांग है कि यहां पर जो सड़कें हैं उसकी हालत भी सुधारी जाए। सड़कों की उचित व्यवस्था की जाए।
- 8) यहां के प्रभावित जो परिवार और स्थानिय जनता है उनको विजली दर में भी विशेष प्रकार का मेडिकेशन ~~में देना~~ <sup>कराए जाए</sup> लोगों को मिले। या प्रतिमाह 100 यूनिट तक बिजली उपलब्ध करवाए जाए।
- 9) लाडा का जो भी विकास का पैसा है पंचायत के माध्यम से ही विकास कार्यों में स्वयं हो।

क्रमांक : .....

दिनांक .....

- 10) यहां के लोगों की यह भी मांग है कि यहां पर Rosh Hosh की व्यवस्था भी Project द्वारा की जाए। लाकड़ बाहर से जोगी उद्याधिकारी बाहर उनको डीकल्टर से रेन वलर मिल सके
- 11) लोगों की डीकल्टर महिलाओं की भी यह मांग है कि यहां पर महिला मंडल भवन। सामुदायिक भवनों की निर्माण Project द्वारा किया जाए।
- 12) लोगों की प्रमुख मांग यह भी है कि यहां पर स्वास्थ्य सुविधाओं की भी विशेष अभाव है स्वास्थ्य सुविधाओं यहां नाम मात्र की हैं। यहां पर Project द्वारा एक बड़ा स्वास्थ्य केंद्र यहां पर खोला जाए।
- 13) लोगों की यहां यह भी मांग है कि यहां पर एक तकनीकी उद्योगिक संस्थान खोला जाए ताकि प्रभावित परिवारों और स्थानिय जो पढ़े लिखे युवा है उनको प्रशिक्षित कर रोजगार के अवसर प्रदान किए जाए।
- 14) मंडोदय जी यहां पर Project बनने के उपरान्त सबसे बड़ी सबसे समस्या प्रदूषण की होगी। प्रदूषण का भी यहां विशेष ध्यान रखा जाए। यहां पर अधिक से अधिक पेड़ लगाने का प्रावधान किया जाए और लोगों के जो भी कौच-नष्टकें
- 15) मंडोदय जी यहां की जनता कि प्रमुख मांग यह भी है कि यहां पर पहले थाना पलोन परियोजना का मंडल कार्यालय स्वीकृत हुआ था मगर स्वीकृत होने के उपरान्त भी यहां पर नहीं खुला। यहां कुबल। या वसाही धार में एक कार्यालय खोला जाए ताकि लोगों को सुविधा भी हो और किसी प्रकार की जो भी जन शिकायत हो यहां पर कर सके। क्योंकि लोगों को यहां से दूर कोठली जाना पड़े।
- 16) मंडोदय जी यहां पर जो भी शमशान हाट है Project बनने से जलमग्न हो जायेगा। उनका भी पहले विशेष प्रावधान होगा

# मंडल कार्यालय बसाही से बदलने को सियासत

**थाना पलोन परियोजना का मंडल कार्यालय स्वीकृति के बावजूद नहीं खोला जा रहा**

जोगिंद्रनगर, 18 अगस्त (अमन): मंडी जिला में 191 मैगावाट की प्रस्तावित थाना पलोन बिजली परियोजना के बसाही में स्थापित किए जाने वाले सिविल विंग के एक मंडल कार्यालय पर सियासत ने अपना रंग दिखाना शुरू कर दिया है। सूत्रों की मानें तो स्थापना से पहले ही इस कार्यालय को यहां से तबदील करने

को जोर अजमाइश शुरू हो गई है। इस परियोजना का निर्माण पावर कार्पोरेशन लिमिटेड द्वारा किया जाना है जिसके लिए बसाही में मंडल कार्यालय खोले जाने को कार्पोरेशन ने सभी औपचारिकताएं पूरी कर ली हैं। बता दें कि इस परियोजना का अधिकांश कार्य जोगिंद्रनगर विधानसभा क्षेत्र के तहत होना है तथा प्रस्तावित परियोजना के पावर हाऊस से बसाही उक्त कार्यालय के लिए सबसे नजदीक तथा उपयुक्त स्थान है। कार्यालय पर हो रही मौजूदा राजनीति इस परियोजना की अनुमानित लागत पर भारी पड़ सकती है तथा कार्पोरेशन को कई तकनीकी

समस्याओं का सामना निर्माण के दौरान करना पड़ सकता है। लोगों ने कार्पोरेशन से मांग की है कि जब मंडल कार्यालय को स्वीकृति मिल चुकी है तो इसे शीघ्र खोला जाए।

मंडल कार्यालय को बसाही में खोलने की स्वीकृति मिल चुकी है लेकिन कुछ तकनीकी कमियों के चलते कार्यालय को खोलने में विलंब हुआ है। बताही ही तबदे नजदीक तथा उपयुक्त स्थान है, ऐसे में इसे वहां ही खोला जाएगा।  
- डी. के. चौधरी, सहायक महाप्रबंधक परियोजना

मंडी : भाई के लिए राखी खरीदती महिलाएं। रक्षाबंधन का त्यौहार नजदीक आते ही शहर सहित विभिन्न स्थानों में राखी की दुकानें सजना शुरू हो गई हैं। दुकानों में 2 से लेकर 80 रूपए तक की राखियां उपलब्ध हैं।

(संज)

द्वारा राज व साजमल का भी सहयोग रहा।

## महिला मंडल ने दिया स्वच्छता का संदेश

घर, 18 अगस्त (स.ह.): महिला मंडल थाना रीढ़ा शिलग की सदस्यों मंगलवार को शिलग बाजार से स्कू तक जाने वाली सड़क व रास्ते के दो तरफ झाड़ियों को काटा। महिला मंडल प्रथम कमलेश कुमारी ने कहा कि इ मौके पर सचिव जया देवी, प्रेमिल तरुणा, हंसा देवी, निलमा देवी, विमल देवी, बनीता देवी, कुंठा देवी व आंगनबा कार्यकर्ता बबली देवी भी मौजूद रई

मंडी (सकलानी): राजपूत सभ मंडी की बैठक 23 अगस्त को राजपूत सभा भवन मंडी जेल रोड में होगी। यह जानकारी सभा के प्रधान इंद्र सिंह ठाकुर ने दी।

सुखावाग (तिलक): 20 अगस्त को किसान भवन चौतड़ा में आयक विभाग मंडी द्वारा व्यापार संघ चौतड़ा के सदस्यों के साथ बैठक का आयोजन किया जाएगा। यह जानकारी व्यापार संघ चौतड़ा के प्रधान अविनाश धवन ने दी।

सुंदरनगर (अंसारी): राजकी महाविद्यालय निहरी में 22 अगस्त को आम सभा का आयोजन किया जाएगा। यह जानकारी पी.टी.ए. प्रधान दौलत राम ने दी।

## शोक समाचार

मंडी (सकलानी): सिचाई ए जन स्वास्थ्य मंडल मंडी में कार्यरत कर्मचारी धर्मपाल शर्मा का निध हो गया।

## थाना-पलोन डैम व पाबर हाऊस से संबन्धित प्रश्न ?

1. प्र0 - क्या जहां जहां पूल है वहां पूल बनाया जाएगा?
2. प्र0 - क्या डैम के चारो ओर कार्टे दार जाली का प्रबन्ध किया जाएगा ?
3. प्र0 - डैम में पानी भरने के बाद धूंध होने पर इस से होने वाले नुकसान से निजात दिलाने के लिए क्या उपाएकिये जायेंगे ?
4. प्र0 - कलोनी काहां बनाई जाएगी ? उस स्थान का नाम बताएं
5. प्र0 - जमीन की एक विशवे की क्या किमत दी जाएगी?
6. प्र0 - क्या जमीन में उगेपेडों की अलग से किमत दी जाएगी?
7. प्र0 - क्या जमीन में उगे पेडों की गिनती कर ली गई है ?
8. प्र0 - जिन लोगों की जमीन डैम में जाएगी उन को क्या सरकारी नैकरी दी जाएगी ?
9. प्र0 - स्थानीय निवाशीर्यों को कितने प्रतिशत रोजगार दिया जाएगा क्या-क्या रोजगार दिया जाएगा ? नाम बताएं
11. प्र0 - इन सब के उपरान्त और क्या-क्या सुबिधा दी जाएगी ? बताएं
12. प्र0 - जमीन की दिजाने वाली कीमत क्या टैकश फ्री होगी ? उस में मिलने बाला ब्याज क्या टैकश फ्री होगा ?
13. प्र0 - बिजली घर काहां बनेगा नाम बताएं?
14. प्र0 - जिन की जमीन जाएगीक्या उन की बिजली फ्री होगी और कितने साल तक?
15. डैम में पानी भरने के बाद खेती वाली जमीन धशनेपर उस जमीन का अलग से मुआबजा दिया जाएगा ? हमारे पास गावं रोपा में कुछ ऐसी भी जमीन है जो घसं सकती है
16. प्र0 - इन सब प्र0 के उतर लिखित रूप में दिये जाऐंगे?

पेज ....2.

आज की बैठक में उपस्थित पदाधिकारीगण एवं सदस्यगण द्वारा निम्न प्रस्ताव पारित किए गए:—

**प्रस्ताव नम्बर-1** रणा खड्ड पर बस स्तर का पुल निर्माण करने बारे:—

विस्तृत चर्चा उपरान्त सर्व सम्मति से पारित किया गया कि ग्राम पंचायत नौहली, दुब्ल व पीपली को जिला मुख्यालय मण्डी से जोड़ने के लिए रणा खड्ड में बाहलारी आल (Bahala Ri Aal) व चह-डैमरू (Chah-Damaru) नामक स्थान के बीच बस स्तर के पुल का निर्माण किया जाए तथा इस बारे पहले भी दिनांक 25-05-2015 को प्रभावित किसान सभा के साथ थाना पलौन विद्युत परियोजना के तत्कालीन महाप्रबन्धक व अन्य अधिकारियों की हुई बैठक के दौरान अनुरोध किया जा चुका है तथा इस सम्बन्ध में उनके कार्यालय के पत्र सं० HPPPCL/GM-TM&TPHEP-R&R/J-1/2014-39-41 दिनांक 06-04-2015 द्वारा लिखित रूप से भी सूचित किया गया है। उक्त बस स्तर के पुल निर्माण करने बारे थाना पलौन विद्युत परियोजना प्रभावित किसान सभा का महा-प्रबन्धक थाना पलौन विद्युत परियोजना स्थित कोटली, तहसील कोटली जिला मण्डी से पुनः अनुरोध है कि रणा खड्ड पर बस स्तर का पुल उक्त वर्णित स्थान पर ही स्थानीय जनता के हित के दृष्टिगत बनाया जाए। यदि इस स्थान के बजाए अन्य स्थान पर बनाया जाना प्रस्तावित हो तो इस बारे स्थानीय प्रभावित जनता द्वारा घोर विरोध किया जाएगा तथा इस बारे दिनांक 22-03-2018 को मुकाम माहन में थाना पलौन विद्युत परियोजना अधिकारियों की बैठक जो माननीय अतिरिक्त जिला मैजिस्ट्रेट (Admn) जिला मण्डी की अध्यक्षता में स्थानीय जनता व सम्बन्धित प्रधान ग्राम पंचायतों के साथ पर्यावरण के बारे बैठक हुई है के दौरान भी अध्यक्ष महोदय व परियोजना अधिकारियों से अनुरोध किया जा चुका है इसलिए स्थानीय जनता के हित को देखते हुए परियोजना प्राधिकारी महोदय से उचित आवश्यक कार्यवाही अमल में लाये जाने का अनुरोध किया जाता है। क्योंकि यह मुद्दा बड़ा संवेदनशील है तथा इस सम्बन्ध में पूर्व में भी विस्तृत रूप से लिखित रूप में प्रस्ताव दिया जा चुका है। कृपया अवलोकल करें।

**प्रस्ताव नम्बर-2:—** ग्राम बनारू अब्बल, बनारू दोयम, बटधार व बदेहड़ के लिए उठाऊ सिंचाई जल योजना उपलब्ध करवाया जाना:—

क्योंकि उक्त वर्णित ग्राम बनारू अब्बल, बनारू दोयम, बटधार व बदेहड़ ग्राम पंचायत नौहली के अधीन आते हैं और ये गांव थाना पलौन परियोजना से सीधे प्रभावित हैं। इन गांव की भूमि बड़ी उपजाऊ है और इन गांव की खेती अधिकतर वर्षा पर निर्भर है। परन्तु अब समय-2 पर वर्षा न होने से फसल बड़ी प्रभावित होती है। इसलिए इन गांव की भूमि की सिंचाई के लिए रणा खड्ड से उठाऊ सिंचाई योजना उपलब्ध करवाया जाने की मांग की जाती है। अतः इस सम्बन्ध में सर्व सम्मति से प्रस्ताव पारित करते हुए सरकार व परियोजना प्राधिकारी से अनुरोध किया जाता है कि ग्राम बनारू अब्बल, बनारू दोयम, बटधार व बदेहड़ के लिए उठाऊ सिंचाई योजना दिए जाने का प्रावधान किया जावे ताकि लोगों को कृषि से उचित लाभ मिल सके।

**प्रस्ताव नम्बर-3(i)** उठाऊ सिंचाई योजना ग्राम गहरा, बल्ह, गदैड़ा व चाकला

यह उठाऊ सिंचाई योजना सिंचाई एवं जन स्वास्थ्य विभाग हि०प्र० द्वारा निर्माणित की जा रही है। लेकिन किन्ही कारणों से अभी तक अधूरी है। अतः प्रस्ताव पारित किया गया कि इस उठाऊ सिंचाई योजना को या तो सिंचाई विभाग से पूर्ण किया जाए या प्रोजेक्ट प्रबन्धन द्वारा इसे चालू किया जाए।

पेज.....3.

(ii) उठाऊ सिंचाई योजना ग्राम भजेरा, चडौंझ व रोपडू-II चरण

(Second stage) उपलब्ध करवाए जाने:-

चूँकि ग्राम रोपडू, भजेरा व चडौंझ ग्राम पंचायत दुब्ल में आते है और उक्त वर्णित गांव भी थाना पलौन विद्युत परियोजना से प्रभावित हैं। अतः सर्व सम्मति से प्रस्ताव पारित किया गया कि उक्त वर्णित गांव की भूमि की सिंचाई हेतु उठाऊ सिंचाई योजना द्वितीय चरण (Second stage) दिए जाने का प्रबन्ध किया जावे।

प्रस्ताव नम्बर-4:- ग्राम बनारू अब्बल, बटधार, बनारू दायम, बदेहड़ व बनोग के लिए सामुदायिक भवन निर्माण किए जाने।

उक्त वर्णित गांव ग्राम पंचायत नौहली के अन्दर पड़ते हैं और इन गांव के लिए एक सामुदायिक भवन का निर्माण किए जाने की मांग की जाती है। अतः ग्राम पुंचायत नौहली के वार्ड नम्बर 5,6 व 7 के लिए एक सामुदायिक भवन का निर्माण बनारू अब्बल में किए जाने हेतु 50 लाख रुपये का प्रावधान करने की कृपा करें। क्योंकि वार्ड नम्बर 1,2,3 व 4 के लिए पहले ही एक सामुदायिक भवन उहल विद्युत परियोजना चरण- तृतीय द्वारा ग्राम पंचायत नौहली के कार्यालय के समीप निर्माणित किया जा चुका है। चूँकि वार्ड न0 5,6 व 7 के उक्त वर्णित गांव थाना पलौन परियोजना से सीधे प्रभावित है। जिसके दृष्टिगत उक्त वार्ड के लोगों को एक सामुदायिक भवन निर्माण हेतु उक्त वांछित धन का प्रावधान किए जाने के लिए प्रभावित किसान सभा द्वारा थाना पलौन विद्युत परियोजना प्राधिकारी से अनुरोध किया जाता है।

प्रस्ताव नम्बर-5:- सर्व सम्मति से पारित किया गया कि ग्राम बाहल, बनवार, रोपडू, भजेरा, चडौंझ, व भरमेरा जो ग्राम पंचायत दुब्ल व पिपली में पड़ते है के लिए भी सामुदायिक भवन निर्माण हेतु 50 लाख रुपये का प्रावधान किए जाने की मांग की जाती है तथा इस सामुदायिक भवन का निर्माण गांव भजेरा में किया जाए जिसका उपयोग प्रोजैक्ट द्वारा भी किया जा सकता है। क्योंकि समय के बदलते परिवेश में सामुदायिक भवन की बड़ी आवश्यकता है, ताकि यहाँ लोगों को शादी समारोह आदि का आयोजन किए जाने की सुविधा गांव में ही प्राप्त हो सके अन्यथा ऐसे समारोह का आयोजन गांव के लोगों को घर से दूर शहरों में करना पड़ता है जो कि उन्हें काफी मंहगा व असुविधाजनक पड़ता है। इसलिए प्रस्ताव न0 4 व 5 में वर्णित सामुदायिक भवन की अति आवश्यकता है तथा इसके निर्माण का प्रावधान किए जाने की कृपा करें।

प्रस्ताव नम्बर-6:- बन विश्राम गृह निर्माण करने बारे:-

सर्व सम्मति से पारित किया जाता है कि गांव बनारू अब्बल, बनारू दायम, बटधार, बदेहड़, बनोग जो कि ग्राम पंचायत नौहली में आते हैं के लिए बन विश्राम गृह की सुविधा हेतु प्रावधान किया जावे। इस वन विश्राम गृह का निर्माण महाल बनारू दायम/गांव सरवाल्डी में किया जाए। क्योंकि इन गांव में यदि किसी विषय बारे कोई सरकारी एवं अन्य जन सम्बन्धी कार्यक्रम का आयोजन किया जाना हो तो उसके आयोजन हेतु उचित स्थान उपलब्ध न होने पर बड़ी कठिनाई का सामना करना पड़ता है अथवा ऐसे कार्यक्रम के लिए उचित स्थान न होने के कारण लोगों को इस प्रकार के कार्यक्रमों से वंचित होना पड़ता है जिससे जनता को ऐसे कार्यक्रमों का उचित लाभ नहीं मिल पाता है जो कि आज के समय के बदलते परिवेश के अनुसार उचित नहीं।

अतः उक्त तथ्यों के दृष्टिगत उक्त वर्णित गांवों के लिए वन विश्राम गृह की अति आवश्यकता है। इसी प्रकार थाना, रोपड़ू, नागण, भजेरा आदि गांव जो कि ग्राम पंचायत दुब्बल में आते हैं के लिए भी एक वन विश्राम गृह की मांग की जाती तथा इस वन विश्राम गृह का निर्माण गांव थाना में किया जाए। क्योंकि यह स्थान प्रोजैक्ट स्थान (Site) के बिल्कुल नजदीक है।

प्रस्ताव नम्बर-7:- 10+2 स्तर का व्यावसायिक शैक्षणिक संस्थान खोलने बारे:-

चूंकी ग्राम पंचायत नौहली, पिपली व दुब्बल के जो गांव थाना पलौन विद्युत परियोजना से प्रभावित है। इन गांव के बच्चों के लिए उत्कृष्ट व्यावसायिक शिक्षण स्कूल / संस्थान की सुविधा नहीं है। यदि है तो वहां तक अपने बच्चों को पहुंचाने में लोग उतने सम्पन नहीं है अथवा असमर्थ है। जिसके अभाव में इन गांव के बच्चे आज के समय के शिक्षा के स्तर के अनुसार शिक्षा ग्रहण करने में पीछे रह जाते हैं। इसी के दृष्टिगत ग्राम पंचायत दुब्बल, पिपली, व नौहली के इन गांव के बच्चों के लिए बेहतर शिक्षा हेतु व्यावसायिक शिक्षण संस्थान महाल बनारू दायम में खोले जाने की मांग परियोजना प्राधिकारी से की जाती है। क्योंकि यह स्थान उक्त तीनों पंचायतों का केन्द्र है।

प्रस्ताव नम्बर -8:- स्थानीय डिसपैंसरी मनारू के स्तर को बढ़ाना (Up grade करना):-

वर्तमान में स्थानीय जनता की चिकित्सा सुविधा हेतु मनारू (ग्राम पंचायत नौहली) में डिसपैंसरी मौजूद है। परन्तु और बेहतर चिकित्सा सुविधा प्राप्त करने हेतु उक्त डिसपैंसरी को Up grade करने अथवा प्राईमरी स्वाथ्य केन्द्र (PHC) के स्तर का दर्जा प्रदान करने की मांग की जाती है।

प्रस्ताव नम्बर -9:- परियोजना कॉलोनी स्थापित करने बारे:-

चूंकि थाना पलौन विद्युत परियोजना से अधिकतर लोग ग्राम पुचायत नौहली, पिपली व दुब्बल के प्रभावित हैं, जिसके फलस्वरूप उक्त ग्राम पंचायतों की जनता चाहती है उक्त परियोजना की कॉलोनी का निर्माण इन पंचायतों के अन्दर ही होना चाहिए तथा इस सम्बन्ध में इससे पूर्व भी प्रभावित किसान सभा द्वारा दिनांक 25-03-2015 को लिखित रूप से दिया गया था और उस समय तत्कालीन महाप्रबन्धक द्वारा आश्वासन दिया गया था कि परियोजना कॉलोनी परियोजना स्थान (Project site) के अन्दर पांच किलामीटर के दायरे में ही स्थापित की जाएगी तथा यह भी बताया गया था यदि इसके लिए कोई निजी भूमि 25 विघा के लगभग उपलब्ध हो तो इस सम्बन्ध में परियोजना प्राधिकारी के कार्यालय को लिखित रूप से दिया जाए। इस सम्बन्ध में प्रभावित किसान सभा द्वारा परियोजना प्राधिकारी से निवेदन किया जाता है कि उक्त वर्णित परियोजना कॉलोनी के लिए महाल बनोग में सर्व श्री हीरदू पुत्र बुधू व धर्मचन्द पुत्र हीरदू अपनी निजी भूमि देने को तैयार है और यह भूमि परियोजना स्थान से तकरीबन 4 कीलोमीटर की दूरी पर स्थित है तथा यह गांव भी उक्त परियोजना से प्रभावित है और प्रभावित किसान सभा की बैठक दिनांक 29-04-2018 को सर्व म्मति से निर्णय लिया गया कि उक्त वर्णित परियोजना की कॉलोनी महाल बनोग में स्थापित की जावे और इस पर किसी को कोई आपत्ति भी नहीं है। यदि इस सम्बन्ध में उक्त मालिक भूमि के शपथ पत्र की आवश्यकता हो तो वांछित शपथ पत्र भी शीघ्र ही प्रस्तुत कर दिया जाएगा तथा इस सम्बन्ध में आगामी आवश्यक कार्यवही शीघ्र अमल में लाए जाने की कृपा करें अथवा कॉलोनी उक्त स्थान पर बनाए जाने की मांग की जाती है।

प्रस्ताव नम्बर- 10:- रोजगार उपलब्ध करवाए जाने बारे:-

इस प्रस्ताव बारे काफी विचार विमर्श करने उपरान्त सर्व सम्मति से प्रस्ताव पारित किया गया कि थाना पलौन विद्युत परियोजना का कार्य आरम्भ होने पर रोजगार हेतु उन परिवार के सदस्यों को प्राथमिकता दी जाए जिनकी भूमि उक्त परियोजना के लिए अर्जित की जानी सम्भावित है तथा यह भी निवेदन किया जाता है कि उक्त रोजगार स्थाई रूप से दिया जाए और इसके अलावा जो अन्य सुविधाएं प्रभावित परिवारों को देय या वांछित हो उसके लिए भी प्राथमिकता दी जाए अन्यथा इस सम्बन्ध में विरोध किया जाएगा।

प्रस्ताव नम्बर-11:- महाल बनारू दोयम के पास रणा खड्ड में (Foot Bridge) पैदल पुल बनाए जाने बारे:-

सर्व सम्मति से पारित किया गया कि रणा खड्ड पर महाल बनारू दोयम के पास आर-पार जाने के लिए एक पैदल पुल (Foot Bridge) की अत्यन्त आवश्यकता है, जो पैदल पुल इस समय रणा खड्ड पर मौजूद है वे काफी दूर पड़ते हैं और आने जाने में बहुत समय व्यर्थ होता है अथवा बड़ी कठिनाईयों का सामना करना पड़ता है। इसलिए उक्त स्थान पर पैदल पुल (Foot Bridge) बनाए जाने की मांग की जाती है और जो पैदल पुल पहले ही विद्यमान है उनके परियोजना बांध में डुबने पर उनके स्थान पर नए पैदल पुल बनाए जावे।

प्रस्ताव नम्बर-12:- व्यावसायिक पाठ्यक्रम की पढाई में वित्तीय सहायता प्रदान करने बारे:-

सर्व सम्मति से पारित किया जाता है कि जो बच्चे या जिन प्रभावित परिवारों के बच्चे पढ़ने में अच्छे हैं उनकी पढाई के लिए वित्तीय सहायता देने हेतु प्रबन्ध करने की कृपा करें अथवा उक्त विषय के सम्बन्ध में वांछित सुविधा प्रदान किए जाने की मांग की जाती है।

प्रस्ताव नम्बर-13:- उठाऊ सिंचाई जल योजना गांव भरमेरा, ढगौण व सलेरा आदि गांव के लिए:-

सर्व सम्मति से पारित किया गया कि एक उठाऊ सिंचाई योजना गांव भरमेरा, ढगौण व सलेरा आदि (ग्राम पंचायत पिपली) के लिए उपलब्ध करवाए जाने की भी मांग की जाती है।

प्रस्ताव नम्बर-14:- निजी भूमि जो परियोजना हेतु अर्जित की जानी संभावित है का मुआवजा सम्बन्धित किसानों को भू-अधिग्रहण अधिनियम 2013 के प्रावधानुसार दिया जाए अथवा उक्त वर्णित अधिनियम के Factor -II एवं Market value के अनुसार आवंटित हो अन्यथा सम्बन्धित किसान/जमीनदारान इसका घोर विरोध करने को मजबूर होंगे, और अपनी मूल्यवान भूमि थाना पलौन विद्युत परियोजना के लिए देने में समर्थ नहीं होंगे। अतः वांछित मुआवजा Factor-II Market value के अनुसार दिए जाने हेतु परियोजना प्राधिकारी से मांग की जाती है।

पेज....6.

**प्रस्ताव नम्बर 16:**— उपरोक्त प्रस्ताव के इलावा आज के जनरल हाउस की बैठक में यह प्रस्ताव भी पारित किया गया कि थाना पलौन विद्युत परियोजना के निर्माण के कारण पुर्नवास एवं पुर्नस्थापना योजना की मुख्य विशेषताएँ जो सम्बन्धित परियोजना से प्रभावित क्षेत्र के लिए लागू होती हैं उनको भी ध्यान में रखते हुए उसका पूरा-2 लाभ उपरोक्त तीनों प्रभावित पंचायतों के लोगों को समय-2 पर दिया जाए।

महादय

विनम्र निवेदन यह है कि बुधाल, बह, बैक्ला, जं व्यास नदी में लोगों को आने जाने के लिए दो झुले लगे हैं। जो डैम बनने से पानी से डूब जायेंगे। अतः डैम बनने से पहले यहाँ झुले के स्थान पर बस योग्य पुल लगाये जाए। तथा शंभु गांव से सिंचाई ऊठाऊ जल परियोजना लगनी चाहिए। क्योंकि यहाँ किसान सिंचाई के लिए पर निर्भर हैं। अतः प्रोब्लम तथा रक्षवाहन शंभु स्वरजवाहल बह रोड का भी निर्माण के जाए।
