CM launches 100MW Sainj power project

Manali: Himachal Pradesh chief minister Virbhadra Singh on Tuesday inaugurated 100MW Sainj hydroelectric project, which is one of the chosen "green power projects" of the country. The project has been built by Himachal Pradesh Power Corporation Limited (HPPCL) at Sind in Kullu district.

Power corporation managing director Devesh Kumar said that the project was registered as green power project under clean development mechanism and generated power would help the corporation earn yearly revenue of nearly Rs 100 crore. The power generated from the project would be fed into northern grid along with transmission lines of Parbati state II and III projects. On Sunday, contractors of Sainj valley had warned of a protest against project management alleging pending payments. They called off the protest after assurances by the project management. TNN

CM dedicates 100 MW Sainj hydroelectric project to state

EXPRESS NEWS SERVICE
SHIMLA, SEPTEMBER 12

CHIEF MINISTER Virbhadra Singh Tuesday dedicated 100 MW Sainj hydroelectric project in Kullu district to the state.

The "green power project"

was executed by Himachal Pradesh Power Corporation Limited (HPPCL). It is projected to earn a revenue of Rs 80-100 crore annually.

The CM said the project affected families would be provided 100 units of electricity per month free as per the policy.
